Applied Java Patterns Stephen Stelting, Olav Maassen, 2002 Sun Microsystems experts Stelting and Maassen describe how design patterns can be applied effectively to the Java platform and present proven techniques for all types of patterns, from system architecture to single classes. Applied Java Patterns features a pattern catalog organized into four major categories – the creational, structural, behavioral, and system patterns. In addition, the authors identify patterns in the core Java APIs and present techniques for pattern use in distributed development.

Galaxy Quest: The Inside Story Matt McAllister, 2021-08-10 The essential guide to Galaxy Quest! Behind-the-scenes stories and cast interviews from the critically acclaimed science fiction comedy and all-time top fan favorite. By Grabthar's hammer! A witty, inventive, and heartfelt tribute to science fiction fans, Galaxy Quest has been making audiences laugh, cry, and cheer for over two decades. This authorized book examines the entire process of making the movie, from the initial spec script through to development, filming, and postproduction. Along the way, it takes an in-depth look into the film's visual effects. Artists at ILM and Stan Winston Studio reveal how they used a mixture of lovingly designed miniatures, puppets, prosthetics, and CGI to bring to life the Protector, the pig lizard, and the movie's other incredible monsters and starships. Featuring over 60 new interviews with Galaxy Quest's cast and crew, including Tim Allen, Sigourney Weaver, Sam Rockwell, and Dean Parisot, and unseen photos and concept art, this is the ultimate guide to the funniest movie in the Galaxy. Charting the story from concept to script, filming and release, with chapters looking at the casting, the sets, the costumes and makeup and the

ship design and the visual effects, this guide is packed with hundreds of fascinating production photos, concept art and rare behind-the-scenes images. *Galaxy Quest* is a 1999 cult classic science fiction comedy film. A parody of, and homage to, science-fiction films and series, especially *Star Trek* and its fandom, the film stars Tim Allen, Sigourney Weaver, Alan Rickman, Tony Shalhoub, Sam Rockwell, and Daryl Mitchell. It depicts the cast of a fictional defunct cult television series, *Galaxy Quest*, who are visited by actual aliens who think the series is an accurate documentary, and become involved in a very real intergalactic conflict. The film was positively received by critics: it won the Hugo Award for Best Dramatic Presentation (an award won by the original *Star Trek* series in the 1960s) and the Nebula Award for Best Script. It was also nominated for 10 Saturn Awards, including Best Science Fiction Film and Best Director for Parisot, Best Actress for Weaver, and Best Supporting Actor for Rickman, with Allen winning Best Actor. Be sure to watch *Never Surrender: A Galaxy Quest Documentary* - now available on Netflix.

Focus On: 100 Most Popular 1990s Science Fiction Films Wikipedia contributors,

Science Fiction Mark Bould, 2012 *Science Fiction* explores the genre from 1895 to the present day, drawing on examples from over forty countries. It raises questions about the relationship between science fiction, science and technology, and examines the interrelationships between spectacle, narrative and self-reflexivity, paying particular attention to the role of special effects in creating meaning and affect. It explores science fiction's evocations of the sublime, the grotesque, and the camp, and charts the ways in which the genre reproduces and articulates discourses of colonialism, imperialism and neo-

liberal globalization. At the same time, Science Fiction provides a thorough analysis of the genre's representation of race, class, gender and sexuality, making this text an essential guide for students, academics and film fans alike. Key films discussed include: *Le voyage dans la lune* (1902) *20,000 Leagues under the Sea* (1916) *L'Atlantide* (1921) *King Kong* (1933, 2005) *Gojira* (1954) *La Jetée* (1962) *The Abominable Dr Phibes* (1971) *Tetsuo* (1989) *Sleep Dealer* (2008) *Avatar* (2009)

Galaxy Quest Terry Bisson, 1999 With those words, the classic TV series *Galaxy Quest* came to an end, much to the dismay of loyal Questarians everywhere. Twenty years later, the intrepid crew of the NSEA Protector has been relegated to costumed appearances at sci-fi conventions and electronics store openings for legions of die-hard fans. After two decades, they're as sick of their characters as they are of one another--that is, until a group of aliens offers them the opportunity to play their roles in a way the actors never could have imagined. Having no concept of fiction--let alone science fiction--the aliens whisk Commander Peter Quincy Taggart and his crew into space to save them from obliteration. With no script, no director, and no clue about real space travel, the actors have to turn in the performances of their lives to become the heroes the aliens believe them to be.

Thinking in Java Bruce Eckel, 2006 With humor and insight, the author introduces the fundamental concepts of the Java programming language, from object development to design patterns, with the help of straightforward examples. By the author of *Thinking in C++*. Original. (Beginner).

Star Trek: A Cultural History M. Keith Booker, 2018-09-15 This book looks at how the original *Star Trek* became a cultural phenomenon, generating numerous spin-offs and feature films and inspiring multiple series, films, books, etc.

In addition to the show's creation and its place in science fiction, the author looks at the series through the prisms of American political history, technology, and fandom.

Was the Tomb Empty Graeme Smith, 2014-02-21 This is a careful, critical attempt, by a highly qualified British judge, to examine the evidence concerning the resurrection from the dead of Jesus of Nazareth. After a review of the basic legal principles involved regarding the use of evidence (What standard of proof is acceptable? Are we dealing with history or myth? What are our preconceptions?), this succinct but powerful document considers the testimony of individuals involved (Paul, James, Peter); the various resurrection accounts, their inconsistencies, and their value as evidence; possible sites for Jesus' tomb; sources from outside the gospels, such as Josephus, Tacitus and Pliny; logical alternatives to the resurrection; and the opinions of experts in the fields of history, literary history, palaeography and law. Could this most improbable story be, at heart, true? What are the implications?

100 Greatest Cult Films Christopher J.

Olson, 2018-04-12 The term “cult film” may be difficult to define, but one thing is certain: A cult film is any movie that has developed a rabid following for one reason or another. From highly influential works of pop art like *Eraserhead* and *Faster, Pussycat! Kill! Kill!* to trash masterpieces such as *Miami Connection* and *Fateful Findings*, thousands of movies have earned recognition as cult classics over the years, and new movies rise to cult status every year. So how do viewers searching for the best or most important cult films decide where to start? In *100 Greatest Cult Films*, Christopher J. Olson highlights the most provocative, intriguing, entertaining, and controversial films produced over the last century. The movies included here have either earned reputations as bona fide cult classics or have in some way impacted our understanding of cult cinema, often transcending

traditional notions of “good” and “bad” while featuring memorable characters, unforgettably shocking scenes, and exceptionally quotable dialogue. With detailed arguments for why these films deserve to be considered among the greatest of all time, Olson provides readers fodder for debate and a jumping-off point for future watching. A thought-provoking and accessible look at dozens of cinematic “treasures,” this resource includes valuable information on the films, creators, and institutions that have shaped cult cinema. Ultimately, *The 100 Greatest Cult Films* offers readers—from casual cinephiles, film scholars, and avid fans alike—a chance to discover or re-discover some of the most memorable films of all time.

The Secret Life of Stories Michael

Bérubé, 2018-01-09 A compelling account of how an understanding of intellectual disability can transform one's understanding of narrative. The author explains how ideas about intellectual disability inform a wide array of narrative strategies, providing a new and startling way of thinking through questions of time, self-reflexivity, and motive in the experience of reading..

Movies with Stanley Cavell in Mind David LaRocca, 2021-06-03 In *Movies with Stanley Cavell in Mind*, some of the scholars who have become essential for our understanding of Stanley Cavell's writing on film gather to use his landmark contributions to help us read new films—from Hollywood and elsewhere—that exist beyond his immediate reach and reading. In extending the scope of Cavell's film philosophy, we naturally find ourselves contending with it and amending it, as the case may be. Through a series of interpretive vignettes, the group effort situates,

for the expert and novice alike, how Cavell's writing on film can profitably enrich one's experience of cinema generally and also inform how we might continue the practice of serious philosophical criticism of specific films mindful of his sensibility. The resulting conversations between texts, traditions, disciplines, genres, and generations creates propitious conditions for discovering what it means to watch and listen to movies with Stanley Cavell in mind.
