A View of Language Pieter A. M. Seuren,2001 This book provides a synopsis of Seuren's work in linguistic theory, syntax, semantics, and creole linguistics over the past three decades.

Sex Workers, Psychics, and Numbers Runners LaShawn Harris,2016-06-15 During the early twentieth century, a diverse group of African American women carved out unique niches for themselves within New York City's expansive informal economy. LaShawn Harris illuminates the labor patterns and economic activity of three perennials within this kaleidoscope of underground industry: sex work, numbers running for gambling enterprises, and the supernatural consulting business. Mining police and prison records, newspaper accounts, and period literature, Harris teases out answers to essential questions about these women and their working lives. She also offers a surprising revelation, arguing that the burgeoning underground economy served as a catalyst in working-class black women TMs creation of the employment opportunities, occupational identities, and survival strategies that provided them with financial stability and a sense of labor autonomy and mobility. At the same time, urban black women, all striving for economic and social prospects and pleasures, experienced the conspicuous and hidden dangers associated with newfound labor opportunities.

Shirley Chisholm Anastasia C. Curwood,2022-12-06 Shaking up New York and national politics by becoming the first African American congresswoman and, later, the first Black major-party presidential candidate, Shirley Chisholm left an indelible mark as an unbought and unbossed firebrand and a leader in politics for meaningful change. Chisholm spent her formative years moving between Barbados and Brooklyn, and the development of her political orientation did not follow the standard narratives of the

civil rights or feminist establishments. Rather, Chisholm arrived at her Black feminism on her own path, making signature contributions to U.S. politics as an inventor and practitioner of Black feminist power—the vantage point centering Black girls and women in the movement that sought to transform political power into a broadly democratic force. Anastasia C. Curwood interweaves Chisholm's public image, political commitments, and private experiences to create a definitive account of a consequential life. In so doing, Curwood suggests new truths for understanding the social movements of Chisholm's time and the opportunities she forged for herself through multicultural, multigenerational, and cross-gender coalition building.

Battle for Bed-Stuy Michael Woodsworth, 2016-06-06 In the 1960s Brooklyn's Bedford-Stuyvesant neighborhood was labeled America's largest ghetto. But its brownstones housed a coterie of black professionals intent on bringing order and hope to the community. In telling their story Michael Woodsworth reinterprets the War on Poverty by revealing its roots in local activism and policy experiments.

Love Upon the Chopping Board Marou Izumo, Claire Maree, 2000 Marou Izumo and Claire Maree met at a bar in Tokyo. Separated by seventeen years difference in age, by their cultural origins, and by the requirements of visas, they have managed to maintain their relationship through these vicissitudes. Autobiography, duobiography, love story, cross-cultural reflections, lesbian history -- this book is all of these things and more. It looks at different perceptions and attitudes towards lesbians in Japan and Australia.

Luck's In My Corner Todd Bryant Weeks, 2014-06-11 Luck's In My Corner is a comprehensive biography of one of the most compelling jazz musicians of the Swing Era, Oran Hot Lips' Page. Page was the greatest of the Kansas City trumpeters, whose crackling, growling solos made him the go-to man during Count Basie's earliest days as a bandleader. Page went on to be a

featured trumpeter with Artie Shaw, a star of New York's 52nd street, and a pioneer of the R & B scene of the 1950s. This book presents an in-depth chronology of Page's career, with special attention paid to the development of his trumpet style. Luck's in My Corner examines the life and music of a forgotten figure of the Swing Era and returns him to his rightful place as a leading light in the world of jazz. Todd Bryant Weeks has combined genealogical, musicological, discographical and historical research, resulting in a revealing and entertaining examination of a life that spanned major changes in American popular music. This book includes a new and complete discography by the author and dozens of unpublished photos.

Building a Nation Eric D. Duke,2018-10-15 Caribbean Studies Association Gordon K. and Sybil Lewis Award - Honorable Mention The initial push for a federation among British Caribbean colonies might have originated among colonial officials and white elites, but the banner for federation was quickly picked up by Afro-Caribbean activists who saw in the possibility of a united West Indian nation a means of securing political power and more. In *Building a Nation*, Eric Duke moves beyond the narrow view of federation as only relevant to Caribbean and British imperial histories. By examining support for federation among many Afro-Caribbean and other black activists in and out of the West Indies, Duke convincingly expands and connects the movement's history squarely into the wider history of political and social activism in the early to mid-twentieth century black diaspora. Exploring the relationships between the pursuit of Caribbean federation and black diaspora politics, Duke convincingly posits that federation was more than a

regional endeavor; it was a diasporic, black nation-building undertaking--with broad support in diaspora centers such as Harlem and London--deeply immersed in ideas of racial unity, racial uplift, and black self-determination. A volume in this series New World Diasporas, edited by Kevin A. Yelvington

The Strange Career of Porgy and Bess Ellen

Noonan, 2012-12-10 Created by George Gershwin and DuBose Heyward and sung by generations of black performers, *Porgy and Bess* has been both embraced and reviled since its debut in 1935. In this comprehensive account, Ellen Noonan examines the opera's long history of invention and reinvention as a barometer of twentieth-century American expectations about race, culture, and the struggle for equality. In its surprising endurance lies a myriad of local, national, and international stories. For black performers and commentators, *Porgy and Bess* was a nexus for debates about cultural representation and racial uplift. White producers, critics, and even audiences spun revealing racial narratives around the show, initially in an attempt to demonstrate its authenticity and later to keep it from becoming discredited or irrelevant. Expertly weaving together the wide-ranging debates over the original novel, *Porgy*, and its adaptations on stage and film with a history of its intimate ties to Charleston, *The Strange Career of Porgy and Bess* uncovers the complexities behind one of our nation's most long-lived cultural touchstones.

Context Construction as Mediated by Discourse Markers Thanh

Nyan,2016-08-29 Interpretation at the argumentative level, like action selection in response to environmental change, requires decision-making based on context construction. By boosting the efficiency of this process, discourse markers keep variations in the interlocutor's processing context within a certain range.

When Tenants Claimed the City Roberta Gold,2014-02-15
In postwar America, not everyone wanted to move out of the city and into the suburbs. For decades before World War II, New York's tenants had organized to secure renters' rights. After the war, tenant activists raised the stakes by challenging the newly-dominant ideal of homeownership in racially segregated suburbs. They insisted that renters as well as owners had rights to stable, well-maintained homes, and they proposed that racially diverse urban communities held a right to remain in place--a right that outweighed owners' rights to raise rents, redevelop properties, or exclude tenants of color. Further, the activists asserted that women could participate fully in the political arenas where these matters were decided. Grounded in archival research and oral history, *When Tenants Claimed the City: The Struggle for Citizenship in New York City Housing* shows that New York City's tenant movement made a significant claim to citizenship rights that came to accrue, both ideologically and legally, to homeownership in postwar America. Roberta Gold emphasizes the centrality of housing to the racial and class reorganization of the city after the war; the prominent role of women within the tenant movement; and their fostering of a concept of community rights grounded in their experience of living together in heterogeneous urban neighborhoods.

New World A-Coming Judith Weisenfeld,2018-11-06 When Joseph Nathaniel Beckles registered for the draft in the 1942, he

rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute Ethiopian Hebrew. God did not make us Negroes, declared religious leaders in black communities of the early twentieth-century urban North. They insisted that so-called Negroes are, in reality, Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity, and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science Temple, the Nation of Islam, Father Divine's Peace Mission Movement, and a number of congregations of Ethiopian Hebrews, Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided, but also in the novel ways they formulated a religio-racial identity. Arguing that members of these groups understood their religious and racial identities as divinely-ordained and inseparable, the book examines how this sense of self shaped their conceptions of their bodies, families, religious and social communities, space and place, and political sensibilities. Weisenfeld draws on extensive archival research and incorporates a rich array of sources to highlight the experiences of average members.--Publisher's description.

Negro League Baseball Neil Lanctot, 2008-04-25 Through his efforts, Lanctot has painstakingly reconstructed the institutional history of black professional baseball, locating the players, teams, owners, and fans in the wider context of the league's administration. In addition, Lanctot provides valuable insight into the changing attitudes of African Americans toward the need for separate institutions.
