Himalayan Gazetteer Edwin T. Atkinson,2014-04-24 The Himalayas have captivated the imagination and interest of humankind for centuries. The more we explore, the more we learn. India's rich history, society, and culture, are deeply influenced by the world's tallest mountain range. After all, before modern travel, the Himalayas were the most important gateway to India, for people, goods and ideas. This rare and invaluable record of the youngest mountain range in the world is back in print after a century. The extensively detailed information on every district, food habits, customs, influences, as well as the people and their vocations will provide a new perspective to a whole new generation of young readers. The aim of this publication is to make Atkinson's rich data accessible once again to researchers so that we can continue to refer to this rich source of information in our continued work to conserve the rich natural resources and ecological heritage of the Himalayas which stand frighteningly threatened by fast paced and largely unplanned development.

Amphibian Conservation Rebecca K. Smith,William J. Sutherland,2014-05-16 Amphibian Conservation is the fourth in the series of Synopses of Conservation Evidence, linked to the online resource www.ConservationEvidence.com. This synopsis is part of the Conservation Evidence project and provides a useful resource for conservationists. It forms part of a series designed to promote a more evidence-based approach to biodiversity conservation. Others in the series include bee, bird, farmland and bat conservation and many others are in preparation. Approximately 32% of the 7,164+ amphibian species are currently threatened with extinction and at least 43% of species are declining. Despite this, until recently amphibians and their conservation had received little attention. Although work is now being carried out to conserve many species, often it is not adequately documented. This book brings together and summarises the available scientific evidence and experience relevant to the practical conservation of amphibians. The authors consulted an international group of amphibian experts and conservationists to produce a thorough summary of what is known, or not known, about the effectiveness of amphibian conservation actions across the world. The book is packed with literature summaries and citations; a veritable information goldmine for graduate students and researchers. It also admirably provides decision makers with a well-researched resource of proven interventions that can be employed to stem/reverse the decline of amphibian populations. -John G Palis, Bulletin of the Chicago Herpetological Society

Stargazer Girl Stargazer Press, T R Woodman, 2019-05-28 Book 4 finale of the completed 4 book series. A determined girl will cross the galaxy, risking everything she holds dear to find the one thing that's missing ... Pursuing answers to mysteries has led Evelyn to being kidnapped, imprisoned, tortured, poisoned, battling bionic super-soldiers and sea monsters, and maybe worst of all ... other teenage girls. So, when she is confronted with another mystery involving the same colonists who have ridiculed, hunted and exiled her, she's certain it will bring nothing but heartache. But her head can't convince her heart of this truth. Even though she finally has everything she wants-freedom to trek the galaxy; the respect, if not the admiration of the colonists; the boy, her first friend and first love-the aching void in her chest tells her that something is still missing. So, with thoughts and feelings she cannot explain to herself, let alone to those she loves, Evelyn will throw herself into another mystery-one that will span the galaxy and may cost her everything she holds most dear, all with the hope she'll find that 'something' that's missing ... a place to call home. Stargazer Girl is the book 4 finale in T.R. Woodman's young-adult sci-fi series.
