Local Zeta Functions Attached to the Minimal Spherical Series for a Class of Symmetric Spaces Nicole Bopp,Hubert Rubenthaler,2005 The aim of this paper is to prove a functional equation for a local zeta function attached to the minimal spherical series for a class of real reductive symmetric spaces. These symmetric spaces are obtained as follows. We consider a graded simple real Lie algebra $\widetilde{\mathfrak{g}}$ of the form $\widetilde{\mathfrak{g}}=V^-\oplus \mathfrak{g}\oplus V^+$, where $[\mathfrak{g},V^+]\subset V^+$, $[\mathfrak{g},V^-]\subset V^-$ and $[V^-,V^+]\subset \mathfrak{g}$. If the graded algebra is regular, then a suitable group G with Lie algebra \mathfrak{g} has a finite number of open orbits in V^+ , each of them is a realization of a symmetric space G/H_p .The functional equation gives a matrix relation between the local zeta functions associated to H_p -invariant distributions vectors for the same minimal spherical representation of G . This is a generalization of the functional equation obtained by Godement and Jacquet for the local zeta function attached to a coefficient of a representation of $GL(n,\mathbb{R})$.

How to Care for Your Cat Janet Skiles,2013-04-09 This coloring book is a fun-to-follow guide for every family that owns a cat or is considering adopting one. Simple pictures and clear, concise captions teach smart, safe ways for children to interact and bond with their pets. Tips include the importance of vaccinations, fresh water and food, and litter-box cleanliness, as well as suggestions for grooming and training.

The Boy Who Grew Too Much Hair Ron Branch,2006-05 Twelve-year-old, Mortimer Montroose, found a secret that cured baldness. In the beginning, it made him happy because it causes him to have hair for the first time in his life. But, the side-affects are more than he wants, particularly when his head produces too much hair, and another bald person, Rather Blatherskite, schemes to find out Mortimer's secret. Nine other bald people once had discovered the secret box and the message Hair will flow like a river when you eat of the orange seed sliver. Unfortunately, they never lived to enjoy their new heads of hair. In this fast-paced story, Mortimer's hair-splitting troubles bring him to a point of no return.

Strengthening Parliamentary Scrutiny of Estimates and Supply Canada. Parliament. House of Commons. Standing Committee on Government Operations and Estimates,2012 Some parliamentarians feel that they lack adequate information and support or expertise to hold the government to account effectively. Of the many concerns, the volume and complexity of information provided, and the limited time available to fully understand the documents and connect the dots are only the tip of the iceberg. Members of this Committee hope that the government will make the process more coherent, provide clearer, more consistent and reliable information, and ensure that any member of Parliament can have a good understanding and a common reference point to better study the government's spending plans. This report is based on the testimony heard over several months from various witnesses, including former members of Parliament, departmental officials, academics, international experts, the Auditor General of Canada, the Parliamentary Budget Officer, a former Clerk of the House of Commons and other knowledgeable observers. After presenting a brief history of the Business of Supply in Canada, this report sets out the Committee's findings and recommendations in light of this testimony.
