For someone who doesn't believe in heroes, it's a surprising choice: to trade his life for the lives of his friends and the one he loves. **Okami: A Little Red Riding Hood Retelling**

Nicolette Andrews,2019-02-14 A wolf desperate for freedom. A headstrong spy running from her past. A love they cannot deny. Shin's life has lost all meaning as he spends endless days patrolling his cruel master's domain. When he catches a wolf spy, on reckless impulse, he lets her go. But then his master surprises him by allowing him to leave the forest for the first time in centuries, but in exchange for temporary freedom, he must recapture the spy and if he fails, he'll be locked in solitude for eternity. A fate worse than death. While seeking missing priestesses, Akane met Shin, and their brief exchange awakens the wolf inside her. Ever since she lost control of it, she's suppressed that side of her and tried to live as a human. She planned to bury it again, but Shin reappears, in disguise, tempting her wolf and her heart. Akane can't risk losing control. If she does, she'll endanger everyone she loves. Then kidnappers take her sister, and only Shin knows where. Caught in an uneasy alliance, they set out together. However, they find it impossible to deny their growing attraction. If Akane is willing to trust Shin, he can help her tame the raging beast

inside her, but can love save Shin from eternal damnation or will he sacrifice himself to protect Akane?

### **People (Jen), State and Inter-state Relations**

Huipeng Shang, 2023-11-18 This book explores the relationship between the “human constant” (Jen) of the four large-scale civilizational societies—China, the USA, Japan, and India—and their international behavior, response patterns, and interaction with the international system. The book analyzes the characteristics and limitations of the current international system, as well as the way it is related to the Western type of “human constant”. It also analyzes the challenges facing China in its integration into the international system. This book aims to explore international relations from the combined psychological and cultural perspective. The key concept of this book is “Jen”, which contains a distinct Chinese cultural experience, into the theory of international relations. Unlike other IR books to treat state as the main political actor, the book analyzes both the political aspects of state as an “organizational entity” and its civilizational aspects as a “civilizational entity”; hence, it proposes a new ontology of international relations. By integrating the concept of “Jen” based on the unique Chinese cultural experience into the theory of international relations, the book reveals the interactive nature of relationship between the international system and “human constant”. The book explains the causal relationship between state’s behavior and its “human constant”, analyzes the cultural characteristics of state actors and the international system, and tries to provide a new theoretical framework for understanding culture and modernity.
