**Ondel - Ondel Galau** Frances Caitlin Tirtaguna,2018-05-14 What do you know about the Ondel-ondel? How much do you know about Betawi culture? If you have no idea about Betawi culture, it's completely fine. I, myself, didn't think much about it until I was caught in Jakarta's traffic, when I saw a pair of exhausted Ondel-ondel in worn-out costumes roaming on the street, asking people for money. This embarrassing scene made me wonder and curious to know more about the Ondel-ondel story. What happened? Ondel-ondel Galau is about a young girl, Vina, who has been living a typical middle school life: going to school in the morning and heading back home in the afternoon. Worn out by the same cycle every day, Vina took on a new challenge and joined her school's traditional Betawi music club, where she plays the violin. With this new activity, she makes new friends, faces new challenges and exposing herself to her own native culture that she has never known before. Join Vina to know more about the Betawi Culture!

Zain,Mohamad Kamal Abd Aziz,Oskar Hasdinor Hassan,Shahriman Zainal Abidin,2018-06-18 This book of conference proceedings contains papers presented at the Art and Design International Conference (AnDIC 2016). It looks at how the rapid growth of Cyberology and the creation of various applications and devices have influenced human relationships. The book discusses the impact of Cyberology on the behaviour, attitudes and perceptions of users, including the way they work and communicate. With a strong focus on how the Cyberology world influences and changes the methods and works of artists, this book features topics that are relevant to four key players - artists, intermediaries, policy makers, and the audience - in a cultural system, especially in the world of art and design. It examines the development, problems and issues of traditional cultural values, identity and new trends in contemporary art. Most importantly, the book attempts to discuss the past, present and future of art and design whilst looking at some underlying issues that need to be addressed collectively.

**Indonesia has Stories** Yusuf ,Toet, It is certainly not Indonesia if the country doesn't have plenty of unique, interesting stories with a variety of traditions and cultures, so that thanks to the behavior of the community, the country of various ethnics has many stories. One of them is the story about traditional fire ball that highly amazes western media. "The Premier League may have produced the "hottest" players in the world, but they are nothing compared to the fire ball players", one of English newspapers write. It is just fire ball, not to mention the still plenty of cultures and customs that is only available in Indonesia. CERDAS INTERAKTIF

Moments in Indonesian Film History David Hanan,2021-12-12 This book explores Indonesian cinema, focusing on moments of unique creativity by Indonesian film artists who illuminate important but less-widely-known aspects of their multi-dimensional society. It begins by exploring early 1950s 'Indonesian neorealist films' of the Perfini group, which depict the ethos and emerging moral issues of the period of struggle for independence (1945–49). It continues by discussing four audacious political allegories produced in four discrete political eras—including the Sukarno, Suharto and Reformasi periods. It also surveys the main approaches to Islam in both popular cinema and auteur films during the Suharto New Order. One chapter celebrates the popular songs and B-movies of the Betawi comedian, Benyamin S, which dramatize the experience of the poor in 'modernizing' Jakarta. Another examines persisting Third World dimensions of Indonesian society as critiqued in two experimental features. The concluding chapter highlights innovation in a renewed Indonesian cinema of the post-Suharto Reformasi period (1999–2020), including films by an unprecedented generation of women writer-directors

Ternyata pesan arwah nenek moyang itu benar-benar terwujud. "Akan datang kegelapan yang berderap, bersama ribuan kuda raksasa di kala malam. Mereka bangun setelah sekian lama, untuk menghancurkan Tanah Nusantara. Seorang lelaki dan seorang perempuan ditakdirkan membaurkan air di lautan dan api di pegunungan. Menyatukan tanah yang menghujam, dan udara yang terhampar." Kisah tentang persahabatan, tentang jurang ego anak dan orangtua, tentang menyeimbangkan logika dan perasaan. Juga tentang melangkah menuju masa depan. Bahwa, apa pun yang menjadi luka masa lalu, biarlah mengering bersama waktu.

**Speaking Through the Silence** Laine Berman,1998 Uncovering the structures and functions of conversational narratives uttered within natural social networks, Laine Berman shows how working-class Javanese women discursively construct identity and meaning within the rigid constraints of an hierarchical social order. She does this by identifying the silences, the unsaid, and by revealing both the structure and function of silence in terms of its indexical reference to local meaning. It is here that the force of the Javanese language as used in everyday interaction shows itself to be an extremely potent philosophical entity as well as a means of social control. Thus, at least in regard to the urban poor, the book boldly questions the difference between traditional definitions of Javanese elegance and oppression. This study will contribute to our understanding of the social consequences of language use, to the linguistic knowledge of Indonesia and Java, and to such basic linguistic issues as narrative structure and function, speech levels and styles, and indexicality features.

*Assembling Nusantara* Henny Warsilah,Lilis Mulyani,Ivan Kurniawan Nasution,2023-07-18 Today, the new Indonesian capital city, Nusantara, planning is being anticipated as “representing national identity,” “a model city,” or “a gift to the world,” and many other extraordinary labels. This book examines the reality of an ongoing developmental transformation of the Nusantara beyond those labels. It approaches its assemblage of humans, their works (plans, documents, policies, and others), non-human objects (biodiversity, landscape, geography, physical infrastructure, buildings, and public spaces), processes, social relationships, social infrastructures, and others. It is organized into three themes—mimicry, friction, and resonance. The mimicry illustrates the similarities (and differences) between Nusantara and other capital cities in urban narratives, imageries, and forms. The friction studies how Nusantara moves actors who do not always agree, processes that do not always align or collaboration between diverse contradicting groups that intersect. The resonance observes how Nusantara resonates with, yet communicates its voice toward, the world. The three concepts (originated from geography, anthropology, and sociology) frame the analytics of the various contributions of local and foreign scientists from multiple disciplines. Overall, the book recommends “Otorita Ibu Kota Nusantara” (Nusantara capital city authority) on the current experimentation and implementation of the urban vision and provides a reference for social scientists to study Nusantara. And more broadly, the book offers the current socio-spatial practices of capital city-making in Asia that are valuable for the region.
