Ozma of Oz L Frank Baum,2020-04 Blown overboard while sailing with her uncle, Dorothy finds herself in the fairy realm of Ev. She sets out with her friends to rescue the Queen of Ev and her ten children, who have been imprisoned by the cruel Nome King. But even Ozma, the wise Ruler of Oz, is no match for the clever king, and it's up to Dorothy to save everyone from terrible danger. But will the Nome King's enchantments be too much even for the plucky little girl from Kansas?The wind blew hard and joggled the water of the ocean, sending ripples across its surface. Then the wind pushed the edges of the ripples until they became waves, and shoved the waves around until they became billows. The billows rolled dreadfully high: higher even than the tops of houses. Some of them, indeed, rolled as high as the tops of tall trees, and seemed like mountains, and the gulfs between the great billows were like deep valleys.All this mad dashing and splashing of the waters of the big ocean, which the mischievous wind caused without any good reason whatever, resulted in a terrible storm, and a storm on the ocean is liable to cut many queer pranks and do a lot of damage.

Ozma of Oz Lyman Frank Baum, 2020-11-09 In Baum's third Oz book (1907), Dorothy is traveling with her Uncle Henry by sea to visit relatives in Australia when she is swept overboard in a storm. She survives by climbing into a chicken coop that is also washed into the sea. When the strange craft makes landfall, the hen inside can talk, so Dorothy knows she's in a magic land and names her companion Billina. They are in Ev, to the east of the great desert that surrounds Oz. The king sold his wife and ten children into slavery with the Nome King, then drowned himself in sorrow; currently, Ev is overseen by Princess Langwidere, a niece who has 30 different heads that she trades off wearing. She locks Dorothy in a tower. But Ozma, Scarecrow, The Tin Woodman, The Cowardly Lion, and a small army arrive in Ev, free Dorothy, and decide to rescue the Royal Family of Ev from the Nome King -- who lives in caverns under the mountains where the Nomes make gold, silver, and precious gems which they hide under the earth. The Nome King says he turned all the Royal Family into little ornaments in his palace, and proposes a wager with the visitors to see if they can identify them -- or become ornaments themselves! Will he honor his promise? And how will our heroes beat his magic belt and huge armies? Ozma also introduced the popular copper robot Tik-Tok, who will turn up in later Oz books.

The Alcalde, 2008-07 As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for mayor or chief magistrate; the nickname of the governor who signed UT into existence was The Old Alcalde.

The Wonderful Wizard of Oz L Frank Baum, 2021-04-07 From the far north they heard a low wail of the wind, and Uncle Henry and Dorothy could see where the long grass bowed in waves before the coming storm. There now came a sharp whistling in the air from the south, and as they turned their eyes that way they saw ripples in the grass coming from that direction also. Suddenly Uncle Henry stood up. There's a cyclone coming, Em, he called to his wife. I'll go look after the stock. Then he ran toward the sheds where the cows and horses were kept. Aunt Em dropped her work and came to the door. One glance told her of the danger close at hand. Quick, Dorothy! she screamed. Run for the cellar! Toto jumped out of Dorothy's arms and hid under the bed, and the girl started to get him. Aunt Em, badly frightened, threw open the trap door in the floor and climbed down the ladder into the small, dark hole. Dorothy caught Toto at last and started to follow her aunt. When she was halfway across the room there came a great shriek from the wind, and the house shook so hard that she lost her footing and sat down suddenly upon the floor. Then a strange thing

happened. The house whirled around two or three times and rose slowly through the air. Dorothy felt as if she were going up in a balloon. The north and south winds met where the house stood, and made it the exact center of the cyclone. In the middle of a cyclone the air is generally still, but the great pressure of the wind on every side of the house raised it up higher and higher, until it was at the very top of the cyclone; and there it remained and was carried miles and miles away as easily as you could carry a feather. It was very dark, and the wind howled horribly around her, but Dorothy found she was riding quite easily. After the first few whirls around, and one other time when the house tipped badly, she felt as if she were being rocked gently, like a baby in a cradle. Toto did not like it. He ran about the room, now here, now there, barking loudly; but Dorothy sat quite still on the floor and waited to see what would happen. Once Toto got too near the open trap door, and fell in; and at first the little girl thought she had lost him. But soon she saw one of his ears sticking up through the hole, for the strong pressure of the air was keeping him up so that he could not fall. She crept to the hole, caught Toto by the ear, and dragged him into the room again, afterward closing the trap door so that no more accidents could happen.
