Time Out

The Bombay Country Ships 1790-1833 Anne Bulley,2013-12-16 Concentrates on the period 1790-1833, especially the early nineteenth century when the Bombay merchant fleet was at its zenith, studying the ships, their trade and the men who owned or sailed in them. The picture is built up from a mass of details and references unearthed in the English East India Company's records and elsewhere, and includes contemporary experiences of sailing in these ships.

**Time Out Rome** Editors of Time Out,2011-08-03 Written by local experts, Time Out Rome provides extensive coverage of the major sights – and then goes much further. Featuring everything from born-again trattorie to the burgeoning apertif trend, it offers visitors the chance to experience the Eternal City as the Romans do. History in Rome is not confined to museums, basilicas and galleries – it tumbles out everywhere. And though the city is reassuringly compact, this does not stop the cultural onslaught from being utterly bewildering and exhausting. While some travelers may have to face the fact that they probably won't see everything, it is also important not to shut oneself up inside all day looking at collections and sites or you will miss all that the outdoor scene has to offer. Time Out Rome helps travelers navigate through the cobblestone streets, so that they can eat, drink and shop like the natives. Suggested side trips out of town are also explored.

*The Sanctuary of Hermes and Aphrodite at Syme Viannou VII, Vol. 2* Antonis Kotsonas,2024-02-15 New insights from the archaeology and pottery of the sanctuary of Hermes and Aphrodite at Syme Viannou, Crete The Sanctuary of Hermes and Aphrodite at Syme Viannou VII: The Greek and Roman Pottery presents in two volumes the Greek and Roman pottery recovered from the excavation of the sanctuary of Syme Viannou, one of the most long-lived and important cult sites of ancient Crete and the Aegean. The site, which is known as the Cretan Delphi, was dedicated to Hermes and Aphrodite for much of its history. The present study analyzes and catalogs 865 pieces, dating from across the early first millennium BCE to the mid-first millennium CE. Kotsonas integrates traditional typological and chronological inquiries with contextual considerations, macroscopic and petrographic analyses of ceramic fabrics, and quantitative studies. The resulting work provides detailed documentation of the pottery from Syme Viannou and explores its ritual and other roles within the diachronic panorama of cultic and other activities at the site. It also supports a broader understanding of the role of ceramics in sanctuary contexts by introducing systematically comparative perspectives on the evidence of pottery from other Cretan and Greek sanctuaries. Volume 2 presents synthetic studies of the material, exploring the use of different ceramic fabrics, the relationship between the form and function of the vessels, and the place of ceramic items in the cultic practice and daily life at the sanctuary in Greek and Roman antiquity.
