Pagani Hypercars Horatio Pagani, 2019-04-02 The first book on the body of work of Horacio Pagani, a true visionary, with spectacular photographs that transform Pagani's extreme sports cars into unique and fascinating entities. A must-have book for all car and sports lovers. Horacio Pagani's work is a great adventure in artistic and engineering excellence. Stunning photographs, aesthetic refinement, and perfectionism combine in this one-of-a-kind book. The book offers a rare glimpse into how Pagani's spectacular creations come about—how a very ambitious project can sprout from an intuition and flow into an outstanding, unique, and incomparable product. Seven iconic cars are included from the Zonda and Huayra lines. The Zonda is a mid-engined car. It debuted in 1999, and production ended in 2017 with the 760 series cars and other commemorative special editions being produced till the same year. The Pagani Huayra succeeded the Zonda. It is named after Huayra-tata, a Quechua wind god. The Huayra was named Hypercar of the Year 2012 by Top Gear magazine and received a very positive review when tested by Richard Hammond on Top Gear.

Affective Health and Masculinities in South Africa Hans Reihling, 2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the

reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Lancia Hyena Zagato Maurizio Grasso, 2016-05-15 We have to recreate the enthusiasm that surrounded the SPORT models, ever a synonym for the Lancia Zagatos: in 1991 this was the brief the recent graduate Andrea Zagato gave to Marco Pedracini, a young designer who had not long been hired by prestigious coachbuilder. It was out of this fortuitous and fortunate coming together of this far-sighted idea and the enthusiasm of Paul Koot, a Dutch fan and a businessman in the automotive sector, that an icon was born, the HYENA. A beautiful car, but one practically unknown to the general public. A car that could have repeated and even surpassed the commercial and sporting success of the Lancia Delta Integrale from which it was derived. Unfortunately just 24 examples were produced due to the debateable decision taken by the Fiat/Lancia directors of the time. Following a rapid review of the evolution of the Lancia Delta over the year, this book, written by an enthusiastic collector, examines the difficult genesis of the Hyena, from the first steps with the publication of the very first (previously unpublished) sketches and numerous photos and then follows its development, engineering and production through to its presentation at the car shows and in brochures. The book is completed by a comprehensive technical section, with the project list and the spare parts catalogue as well as an extensive photographic portrait of one particular example, N. 20. Lastly, all 24 Lancia Hyenas are examined, with the intention of reconstructing their specifications, their destination and the country in which they are jealously conserved by the enthusiast and collectors who possess a precious example.

Pininfarina Luciano Greggio, 2018-07-31 The entire stylistic and industrial history of Pininfarina, a true bastion of the “Made in Italy” phenomenon, is contained in this book with its wealth of black and white and colour photos. For almost 90 years Pininfarina has been synonymous with Italian coachbuilding. Some of the most iconic cars in the history of not only Italian but also worldwide motoring have been clothed by a firm that has been recognised as the creator of true works of art. Battista Farina, known as “Pinin”, was the master craftsman who in 1930 founded in Turin the “Società Anonima Carrozzeria Pinin Farina”. The quality and the beauty of his creations soon established the firm’s reputation and well before the outbreak of the Second World War it could boast magnificent bodies on Alfa Romeo, Lancia and Fiat chassis. 1947 saw the presentation of a milestone in the history of Italian design, the Cisitalia 202. Between the 1950s and 1990s the company produced iconic designs such as the Alfa Romeo Giulietta Spider and the “Duetto”, the Lancia Aurelia B24 and the Flaminia, the Fiat Dino Spider and the 124 coupé, not to mention the innumerable Ferraris bodied by the prestigious Turin firm that from 1952 had become Maranello’s coachbuilder of choice. Numerous 250 GTs, the 250 Le Mans, the 365 Daytona, the 308 GTB, the Testarossa and the 288 GTO are all Pininfarina-bodied Ferraris. This book recounts the most recent history of this giant of Italian car design with all the latest products realised in particular for the Asian market where the Pininfarina brand has an increasing presence. There is also a chapter devoted to Pininfarina Extra, a brand within the brand, which since 1986 has been taking a 360° approach to design. The full story of this iconic Italian design firm finally told in a single volume.
