Petermann's Maps Jan Smits,2021-12-20 Petermann's Maps focuses on the maps published in the famous German journal Petermanns Geographische Mitteilungen. This journal, which still exists today, greatly influenced the development of scientific geography and cartography in Germany in the nineteenth century. Numerous articles have been published by recognized experts in this field, along with a multitude of illustrations, showing maps, prints and photographs. The journal developed into an important publication, setting the standard in the history of the great expeditions and discoveries, and European colonial matters. Petermann's Maps contains a bibliography of over 3400 maps, the complete series of maps published in Petermanns Geographische Mitteilungen between the year of its foundation, 1855, to the end of the Second World War. Besides the bibliography 160 of the most attractive geographical and thematic coloured maps are included in Petermann's Maps. These maps can also be viewed on the CD-ROM accompanying the book.An extensive introduction precedes the cartobibliography proper, placing Petermanns Geographische Mitteilungen in its historical context. The introduction describes the history of geography from the eighteenth century onwards, outlining the development of the study of the science of cartography in Germany. The major role the founder of the journal, Augustus Petermann (1822-1878), and the publishing house Justus Perthes in Gotha played in these developments is discussed at length.

Mannlicher Rifles and Pistols Walter H. B. Smith,2013-10 This is a new release of the original 1947 edition.

Letters from Wales Joan Abse,2000 This fascinating anthology of letters spans over eight centuries of life in Wales and provides an enthralling commentary on its historical development from the medieval times to the 20th century. The letters bring Welsh history to life through vivid vignettes of personal experience and all too human opinion. While seemingly devoted to events in Wales, the correspondents are also measuring Wales's place in Britain, Europe, and the world.These letters are from kings, princes, and bishops to writers, artists, and politicians; from the medieval machinations of Glyndwr and Hotspur, to industrial disputes; from Oliver Cromwell to Lloyd George; George Eliot to Dylan Thomas; Edward I to Evelyn Waugh. Here too, are letters from Nathaniel Hawthorne and John Cooper Powys about emigration to America for religious reasons or because of the 19th century industrial revolution. These letters provide a richly textured, informative, and entertaining book about this fascinating country, its history and its people.

Memoirs of the War in the Southern Department of the United States Henry Lee,Robert Edward Lee,1869

America's First Battles, 1776–1965 Charles E. Heller,William A. Stofft,1986-12-16 This volume, a collection of eleven original essays by many of the foremost U.S. military historians, focuses on the transition of the Army from parade ground to battleground in each of nine wars the United States has fought. Through careful analysis of organization, training, and tactical doctrine, each essay seeks to explain the strengths and weaknesses evidenced by the outcome of the first significant engagement or campaign of the war. The concluding essay sets out to synthesize the findings and to discover whether or not American first battles manifest a characteristic rhythm. America's First Battles provides a novel and intellectually challenging view of how America has prepared for war and how operations and tactics have changed over time. The thrust of the book--the emphasis on operational history--is at the forefront of scholarly activity in military history.
