Paper Mario; The Origami King Guide Annie Wills,2020-08-12 The Paper Mario series was literally a game changer when it initially came out way back on Nintendo 64. It was so different from the Mario games that came before it, because the roleplaying game feature that was added made me think

about one of the SNES games I loved playing. Paper Mario was my go to game when it initially came out and I'm still playing it till this day. All the titles present in the series are exciting and really interesting. Ensure you pay attention to the storyline because it's a funny one and you will also discover new and exciting things.

Super Mario Jeff Ryan,2012-09-25 The definitive story of the rise of Nintendo. In 1981, Nintendo of America was a one-year-old business already on the brink of failure. Its president, Mino Arakawa, was stuck with two thousand unsold arcade cabinets for a dud of a game (Radar Scope). So he hatched a plan. Back in Japan, a boyish, shaggy-haired staff artist named Shigeru Miyamoto designed a new game for the unsold cabinets featuring an angry gorilla and a small jumping man. Donkey Kong brought in \$180 million in its first year alone and launched the career of a short, chubby plumber named Mario. Since then, Mario has starred in over two hundred games, generating profits in the billions. He is more recognizable than Mickey Mouse, yet he's little more than a mustache in bib overalls. How did a mere smear of pixels gain such huge popularity? Super Mario tells the story behind the Nintendo games millions of us grew up with, explaining how a Japanese trading card company rose to dominate the fiercely competitive video-game industry.
