Forging Silver into Stars Brigid Kemmerer,2022-06-07 An instant New York Times bestseller! Forbidden magic. Secret romance. Dangerous alliances. Enter the world of New York Times bestselling author Brigid Kemmerer's electrifying series. When nineteen-year-old Tycho, the King's Courier, arrives in the remote village of Briarlock, he hopes to escape the demands of his new life in the royal court, where magic reigns for the first time in ages. He doesn't expect to fall for a handsome blacksmith with a bruised heart. After years of cruelty in his father's forge, Jax never dared to dream of a better life--until a magic-wielding young lord shows him an enticing alternative. But when rumors of a rebellion reach Briarlock, Jax wonders who he can trust--and if he'll even survive. Jax's best friend, Callyn, doesn't trust anyone--especially not a handsome stranger with magic, which killed her parents years ago. When another royal emissary arrives, seeing a co-conspirator, Callyn finds herself embroiled in a plot that could lead them all to ruin. . . As tensions flare throughout the kingdom, it won't be long before everyone must choose a side. War is brewing. Passions are building. And magic may doom--or save--them all.

Gorky Park Martin Cruz Smith,2020-01-28 The “gripping, romantic, and dazzlingly original” (Cosmopolitan) Arkady Renko book that started it all: the #1 bestseller *Gorky Park*, an espionage classic that begins the series, by Martin Cruz Smith, “the master of the international thriller” (The New York Times). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and fingers missing. Chief homicide investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. “Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind” (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. “Once one gets going, one doesn’t want to stop...The action is gritty, the plot complicated, and the overriding quality is intelligence” (The Washington Post). The first in a classic series, *Gorky Park* “reminds you just how satisfying a smoothly turned thriller can be” (The New York Times Book Review).

Pippa Park Raises Her Game Erin Yun,2020-02-04 A CONTEMPORARY REIMAGINING OF GREAT EXPECTATIONS FOR MIDDLE GRADERS Life is full of great expectations for Korean American Pippa Park. It seems like everyone, from her family to the other kids at school, has a plan for how her life should look. So when Pippa gets a mysterious basketball scholarship to Lakeview Private, she jumps at the chance to reinvent herself by following the Rules of Cool. At Lakeview, Pippa juggles old and new friends, an unrequited crush, and the pressure to perform academically and athletically while keeping her past and her family's laundromat a secret from her elite new classmates. But when Pippa begins to receive a string of hateful, anonymous messages via social media, her carefully built

persona is threatened. As things begin to spiral out of control, Pippa discovers the real reason she was admitted to Lakeview and wonders if she can keep her old and new lives separate, or if she should even try.

The Inhabited Pathway Sebastiano Brandolini, 2014 Alberto Ponis was born in Genoa in 1933 and studied at Florence University, where he qualified as an architect in 1960. He worked in London with Erno Goldfinger and Denys Lasdun in 1960-64 under the strong and lasting influence also of the movements of Modernism and New Brutalism then prevailing in the theoretical discourse in British architecture. His own studio Ponis established in 1964 in Palau, on the Italian island of Sardinia, working since on private, public and urban planning commissions. In 1990 he was awarded the INARCH prize for the Village of Stazzo Pulcheddu in Palau. Ponis often refers to the natural conditions and the social history of Sardinia when talking about his work in architecture. Besides of nature and society, he has also extensively studied the stazzo, Sardinia's typical rural building type. This thorough knowledge of conditions, traditions and requirements are the foundation of an oeuvre of more than 300 residential buildings. Each of them deeply rooted in its environment and connected with the land and other dwellings by the sentiero, the path leading to and from the house. Ponis's houses are meant to be summer homes, their inert warmth reflecting the architect's fundamental optimism. They show a natural modesty and simplicity rather than their owner's wealth or status. They express the architect's great formal skills and sensitivity. They are inconceivable without the Sardinian landscape and history and the island seems to have been expecting just these particular buildings, merging naturally with nature. The new book Alberto Ponis Sardinia is the first comprehensive monograph on this highly interesting and original yet little known architect. In five lavishly illustrated sections it documents his biography and early work, his extensive research on Sardinia, eight selected buildings created between 1965-98 that make traceable the evolution of Ponis's work, his philosophy (Thoughts and Forms), and a concluding essay on the essence of his architecture.

The Park Book Charlotte Zolotow, 1972 Describes the activities of the people and animals on a typical day in the park.

Historic Mill Creek Park Carol Potter, Rick Shale, Richard Shale, 2005 Founded in 1891 as Ohio's first park district, Mill Creek Park encompasses a unique wealth of natural and designed features that have been the backdrop for generations of family memories, spanning three centuries. A remarkable visionary, park founder Volney Rogers argued that the land itself could improve the lives of Youngstown's residents. Through fresh air for mill-weary lungs and tree-laced horizons for workroom-bound spirits, he knew a park would make the community a better place for families. And he succeeded magnificently. Rogers and the nationally known landscape architects that he hired created breathtaking vistas of Lanterman's Falls and scenic gorges and designed trails, drives, and three pleasure lakes. Other park features include nature preserves, display gardens, recreational fields, a Donald Ross-designed golf course, and a legacy of historic structures. Mill Creek Park indeed has earned its legendary claim as the most beautiful urban park in America.

Prizmism Toby Kamps, 2014-11-30 Over the last eight years Joseph Park has inserted a radical chapter to the timeless tradition of oil painting. Inspired by a J.G. Ballard story, and a tongue-in-cheek attitude toward the art's world's predilection for defined historical movements, Park developed an adjustable, custom-made easel, began studying fractals, crystal formation theory, and the permeating reality of pixels today, and from those elements formed Prizmism. Drawing inspiration from his painterly ancestors, as well as photography and sculpture, he has explored Prizmism through portraits, figures and a completed cycle shown at Elizabeth Leach Gallery in 2012 that is dazzling in

its narrative, color, and surface. This is the first major monograph of Park's paintings, and focuses solely on this innovative endeavor.

Gooseberry Park Cynthia Rylant,2007 In this animal adventure from Newbery Medal-winning author Cynthia Rylant, Stumpy Squirrel has just settled into a new nest in a magnificent pin oak in Gooseberry Park. It s the perfect spot for her babies to be born When they arrive healthy and strong, Stumpy s three good friends--a Labrador retriever, a wise hermit crab, and a bat who eats Chinese food--are thrilled. But after a terrible ice storm destroys the pin oak, Stumpy disappears. It takes a special combination of courage, humor, and tenacity for Stumpy s friends to rescue her babies and bring her home again. Arthur Howard's black-and-white illustrations illuminate the companions adventures throughout.

Parks Jesse Reed,Hamish Smyth,2019-09 A never-before-seen collection of United States National Park Service maps This book brings together a collection of over 400 maps produced by the United States National Park Service from 1910 to today. Photographer Brian Kelley has impulsively archived the rarely seen treasures over the past three years, uncovering a design portfolio with little to no credit to their respective designers. The growing collection displays a progressive design approach, from more typographic-driven covers, to the proliferation of duotone print production, culminating in the Unigrid system developed by Italian designer Massimo Vignelli in the 1970s.

American Framing Paul Andersen,Jayne Kelley,Paul Preissner,2023-03-23 From its origins in the Midwest in the early nineteenth century, the technique of light timber framing-also known at the time as Chicago construction-quickly came to underwrite the territorial and ideological expansion of the United States. Softwood construction was inherently practical, as its materials were readily available and required little skill to assemble. The result was a built environment that erased typological and class distinctions: no amount of money can buy you a better 2 x 4. This fundamental sameness paradoxically underlies the American culture of individuality, unifying all superficial differences. It has been both a cause and effect of the country's high regard for novelty, in contrast with the stability that is often assumed to be essential to architecture. American Framing is a visual and textual exploration of the social, environmental, and architectural conditions and consequences of this ubiquitous form of construction. For architecture, it offers a story of an American project that is bored with tradition, eager to choose economy over technical skill, and accepting of a relaxed idea of craft in the pursuit of something useful and new-the forming of an architecture that enables architecture.
