

Party Cannon

Donna T Haverty-Stacke

James P. Cannon and the Origins of the American Revolutionary Left, 1890-1928 Bryan D. Palmer, 2010-10-01 Bryan D. Palmer's award-winning study of James P. Cannon's early years (1890-1928) details how the life of a Wobbly hobo agitator gave way to leadership in the emerging communist underground of the 1919 era. This historical drama unfolds alongside the life experiences of a native son of United States radicalism, the narrative moving from Rosedale, Kansas to Chicago, New York, and Moscow. Written with panache, Palmer's richly detailed book situates American communism's formative decade of the 1920s in the dynamics of a specific political and economic context. Our understanding of the indigenous currents of the American revolutionary left is widened, just as appreciation of the complex nature of its interaction with international forces is deepened.

America, But Better Chris Cannon, Brian Calvert, 2012-07-01 As the American election increasingly resembles a production of CATS performed by actual cats, U.S. citizens are looking for a new leader. That leader is Canada, and they want your vote for president of the United States. Since launching their viral video campaign in January, the Canada Party has been covered around the world, including CNN, BBC, the Huffington Post, and German State Television. *America, but Better: the Canada Party Manifesto*, balances the doctrine of American exceptionalism with a dose of Canadian humility and common sense to secure Canada as the new leader of the free world, by proxy. Their promises: One gay couple will be allowed to marry for every straight couple that gets divorced. The phrase job creators will be changed to job creationists, and they will be given seven days to actually create some. Corporations will still be people, but if they can't provide a birth certificate they will be legally obligated to care for your lawn. Corners will be installed in the Oval

Office, and timeouts given to congressmen who can't play nice. Devoted to restoring America to its former glory, the Canada Party will soon have the whole world chanting, Yes We Canada.

In Defense of the Founders Republic Lonce H. Bailey, Jerome M. Mileur, 2015-03-12 Who were the Progressive reformers arguing with? The answer might surprise you. Drawing together a veritable powerhouse of scholars from across the political spectrum, *In Defense of the Founders Republic* examines the historical roots of these critics as well as their potential contribution to current debates about government and role of politics and institutions in our constitutional republic. Profiles and debates across a variety of progressive-era dissenters including politicians, community activists, political scientists, and socialists create a more complete picture of the national conversation, and the development of this monumental American political era. With clear contemporary relevance, *In Defense of the Founders Republic* is required reading for anyone interested in the complete progressive debate.

Education for Socialists, 2002

Trotskyists on Trial Donna T Haverty-Stacke, 2016-01-08 Passed in June 1940, the Smith Act was a peacetime anti-sedition law that marked a dramatic shift in the legal definition of free speech protection in America by criminalizing the advocacy of disloyalty to the government by force. It also criminalized the acts of printing, publishing, or distributing anything advocating such sedition and made it illegal to organize or belong to any association that did the same. It was first brought to trial in July 1941, when a federal grand jury in Minneapolis indicted twenty-nine Socialist Workers Party members, fifteen of whom also belonged to the militant Teamsters Local 544. Eighteen of the defendants were convicted of conspiring to overthrow the government. Examining the social, political, and legal history of the first Smith Act case, this book focuses on the tension between the

nation's cherished principle of free political expression and the demands of national security on the eve of America's entry into World War II. Based on newly declassified government documents and recently opened archival sources, *Trotskyists on Trial* explores the implications of the case for organized labor and civil liberties in wartime and postwar America. The central issue of how Americans have tolerated or suppressed dissent during moments of national crisis is not only important to our understanding of the past, but also remains a pressing concern in the post-9/11 world. This volume traces some of the implications of the compromise between rights and security that was made in the mid-twentieth century, offering historical context for some of the consequences of similar bargains struck today.

The Communist International and US Communism, 1919-1929 Jacob Zumoff, 2014-08-21
This book examines the development of the Communist Party in the United States in its first decade, from 1919 to 1929. It argues that the Communist International played an important role in the early part of this decade in forcing the party to Americanise. By the late 1920s, however, the Comintern, reflecting the Stalinisation of the Soviet Union, intervened into the American party to ensure the Stalinisation of American Communism.

The Heritage We Defend David North, 1988
Indispensable reading for all those seeking a serious analysis of the central political problems confronting the working class in the latter half of the twentieth century and today. This Marxist polemic reviews the political and theoretical disputes inside the Fourth International, the international Marxist movement founded by Leon Trotsky in 1938, and gives a detailed objective assessment of the political contribution and evolution of James P. Cannon, Trotsky's most important cothinker in the US. Based on extensive research, with detailed references to original documents and programmatic statements from the archives of the Trotskyist

movement..

American Communism and Soviet Russia Theodore Draper, 2017-07-05 This companion volume to *The Roots of American Communism* brings to completion what the author describes as the essence of the relationship of American Communism to Soviet Russia in the first decade after the Bolsheviks seized power. The outpouring of new archive materials makes it plain that Draper's premise is direct and to the point: The communist movement was transformed from a new expression of American radicalism to the American appendage of a Russian revolutionary power. Each generation must find this out for itself, and no better guide exists than the work of master historian Theodore Draper. *American Communism and Soviet Russia* is acknowledged to be the classic, authoritative history of the critical formative period of the American Communist Party. Based on confidential minutes of the top party committees, interviews with party leaders, and public records, this book carefully documents the influence of the Soviet Union on the fundamental nature of American Communism. Draper's reflections on that period in this edition are a fitting capstone to this pioneering effort. Daniel Bell, in *Saturday Review*, remarked about this work that there are surprisingly few scholarly histories of individual Communist parties and even fewer which treat of this crucial decade in intimate detail. Draper's account is therefore of great importance. Arthur M. Schlesinger, in *The New York Times Book Review*, says that in reading Draper's closely packed pages, one hardly knows whether to marvel more at the detachment with which he examines the Communist movement, the patience with which he unravels the dreary and intricate struggles for power among the top leaders, or the intelligence with which he analyzes the interplay of factors determining the development of American Communism. And Michael Harrington, in *Commonweal*, asserted that Draper's book will long be a definitive source volume and analysis of the Stalinization

of American Communism.

Social History of the United States [10 volumes] Brian Greenberg, Linda S. Watts, Richard A. Greenwald, Gordon Reavley, Alice L. George, Scott Beekman, Cecelia Bucki, Mark Ciabattari, John C. Stoner, Troy D. Paino, Laurie Mercier, Andrew Hunt, Peter C. Holloran, Nancy Cohen, 2008-10-23 This ten-volume encyclopedia explores the social history of 20th-century America in rich, authoritative detail, decade by decade, through the eyes of its everyday citizens. *Social History of the United States* is a cornerstone reference that tells the story of 20th-century America, examining the interplay of policies, events, and everyday life in each decade of the 1900s with unmatched authority, clarity, and insight. Spanning ten volumes and featuring the work of some of the foremost social historians working today, *Social History of the United States* bridges the gap between 20th-century history as it played out on the grand stage and history as it affected—and was affected by—citizens at the grassroots level. Covering each decade in a separate volume, this exhaustive work draws on the most compelling scholarship to identify important themes and institutions, explore daily life and working conditions across the economic spectrum, and examine all aspects of the American experience from a citizen's-eye view. Casting the spotlight on those whom history often leaves in the dark, *Social History of the United States* is an essential addition to any library collection.

The New York Intellectuals, Thirtieth Anniversary Edition Alan M. Wald, 2017-10-10 For a generation, Alan M. Wald's *The New York Intellectuals* has stood as the authoritative account of an often misunderstood chapter in the history of a celebrated tradition among literary radicals in the United States. His passionate investigation of over half a century of dissident Marxist thought, Jewish internationalism, fervent political activism, and the complex art of the literary imagination is

enriched by more than one hundred personal interviews, unparalleled primary research, and critical interpretations of novels and short stories depicting the inner lives of committed writers and thinkers. Wald's commanding biographical portraits of rebel outsiders who mostly became insiders retains its resonance today and includes commentary on Max Eastman, Elliot Cohen, Lionel Trilling, Sidney Hook, Tess Slesinger, Philip Rahv, Mary McCarthy, James T. Farrell, Irving Kristol, Irving Howe, Hannah Arendt, and more. With a new preface by the author that tracks the rebounding influence of these intellectuals in the era of Occupy and Bernie Sanders, this anniversary edition shows that the trajectory and ideological ordeals of the New York intellectual Left still matters today.

The Cannon Centenary Conference ,2004 NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT--OVERSTOCK SALE -- Significantly reduced list price while supplies last Contains papers on the nature of the House Speaker under Speakers Thomas O'Neill, James Wright, Thomas Foley, Newt Gingrich and others. This conference was sponsored by the Congressional Research Service of the Library of Congress. American Gandhi Leilah Danielson,2014-09-25 When Abraham Johannes Muste died in 1967, newspapers throughout the world referred to him as the American Gandhi. Best known for his role in the labor movement of the 1930s and his leadership of the peace movement in the postwar era, Muste was one of the most charismatic figures of the American left in his time. Had he written the story of his life, it would also have been the story of social and political struggles in the United States during the twentieth century. In *American Gandhi*, Leilah Danielson establishes Muste's

distinctive activism as the work of a prophet and a pragmatist. Muste warned that the revolutionary dogmatism of the Communist Party would prove a dead end, understood the moral significance of racial equality, argued early in the Cold War that American pacifists should not pick a side, and presaged the spiritual alienation of the New Left from the liberal establishment. At the same time, Muste was committed to grounding theory in practice and the individual in community. His open, pragmatic approach fostered some of the most creative and remarkable innovations in progressive thought and practice in the twentieth century, including the adaptation of Gandhian nonviolence for American concerns and conditions. A biography of Muste's evolving political and religious views, *American Gandhi* also charts the rise and fall of American progressivism over the course of the twentieth century and offers the possibility of its renewal in the twenty-first.

Not Without Love Constance Webb, 2003 An extraordinary memoir of political activism, high-fashion glamour, and life with C. L. R. James.

Cases and Materials on the Law of Restitution Andrew S. Burrows, Ewan McKendrick, James Edelman, 2007 Written by leading experts who have shaped and defined the law of restitution, the book provides an authoritative and scholarly guide to the subject. The second edition of this seminal title continues the formula of the first edition by combining a comprehensive coverage of cases with extracts from leading academic authorities.

Procedures for the Administration of an Employment Loyalty Program United States. Loyalty Review Board, 1951

International Trotskyism, 1929-1985 Robert Jackson Alexander, 1991 In a work of encyclopedic scope, *International Trotskyism, 1929-1985* is sure to become the definitive reference work on a movement that has had a significant impact on the political culture of countries in every

part of the world for more than half a century. Renowned scholar Robert J. Alexander has amassed, from disparate sources, an unprecedented amount of primary and secondary material to provide a documentary history of the origins, development, and nature of the Trotskyist movement around the world. Drawing on interviews and correspondence with Trotskyists, newspaper reports and pamphlets, historical writings including the annotated writings of Trotsky in both English and French, historical memoirs of Trotskyist leaders, and documents of the Fourth International, Alexander recounts the history of the movement since Trotsky's exile from the Soviet Union in 1929. Organized alphabetically in a double-column, country-by-country format this book charts the formation and growth of Trotskyism in more than sixty-five countries, providing biographic information about its most influential leaders, detailed accounts of Trotsky's personal involvement in the development of the movement in each country, and thorough reports of its various factions and splits. Multiple chapters are reserved for countries where the movement was more active or fully developed and various chapters are organized around crucial thematic issues, such as the Fourth International. The chapters are followed by extensive name, organization, publication, and subject indexes, which provide optimal access to the wealth of information contained in the main body of the work.
