*U.S. Passenger Ship Fleet: Summary and Prospects* United States. Maritime Administration. Office of Policy and Plans, 1973

**Great American Passenger Ships** William H. Miller, 2012 Full of previously unpublished images and insightful text, a nostalgic look back at a century of U.S. passenger ships The United States has produced some of the world's finest, most interesting, advanced, and innovative passenger ships, such as the amazing SS United States, the fastest ocean liner ever to sail the seas, ingloriously left lying in limbo for 42 years. This book also documents passenger ships seized in wartime, notably the giant German SS Vaterland, which became the Leviathan in the United States Lines, as well as many newly built passenger ships, such as Santa Rosa, Lurline, President Cleveland, Independence, and Brasil. Also included are peacetime troopships as well as combo ships, the once very popular passenger-cargo ships. The great saga of American liners continues to this day with modern cruise ships in Hawaiian service. The cast of ships is both vast and varied, but endlessly fascinating. Presenting many unpublished images alongside historic, insightful text including personal anecdotes of the ships and voyages from passengers and crew alike, William Miller takes the reader on a nostalgic voyage and the great American passenger fleet sails once again.

*Tales from Great Passenger Ships* Paul Curtis, 2023-08-10 Passenger ships have always played a key role in shaping our lives and destinies. From the biggest to the smallest, the most beautiful to the most basic, in peacetime and war, they have carried emigrants, holidaymakers, troops and other travellers on countless life-changing journeys – and many of those passengers have a tale or two to tell about their time on board. *Tales from Great Passenger Ships* is a collection of intimate and often humorous portraits of the most famous and notorious ships to ever sail our seas. From the escapades of passengers and crew to terrible disasters, infamous controversies and thrilling rescues, author and former Queen Mary entertainment officer Paul Curtis takes a nostalgic voyage through the history of seagoing.

**Great Passenger Ships 1950-1960** William H. Miller, 2016 The 1950s was a fascinating decade for the great liners. After the global devastation of two decades of war and Depression, shipyards were creating one new liner after another, it seemed, to rebuild and renew passenger ship services all over the world. There were the likes of the Kungsholm and Oslofjord from Scandinavia, the French Flandre and a succession of new liners from P&O-Orient, the Italian Line, Messageries Maritimes and many more. The new hopeful era of the 1950s was highlighted by such brilliant, headline-making ships as the speedy United States, breaking records on an unprecedented scale, the engines-aft Southern Cross and the mastless Orsova. Showcased beautifully by the stunning images and nostalgic outlook of prolific maritime historian William H.

Miller, this book shines a well-earned spotlight on some of the world's most popular passenger liners.

**Doomed Ships** William H., Jr. Miller, 2012-06-29 Nearly 200 photographs, many from private collections, highlight tales of some of the vessels whose pleasure cruises ended in catastrophe: the Morro Castle, Normandie, Andrea Doria, Europa, and many others.

**The Evolution of the Passenger Ship** Chris Frame, Rachelle Cross, 2023-11 Exploring the rich history of modern-day cruising Have you wondered what the difference is between an ocean liner and a cruise ship? Are you amazed at the size of the biggest cruise ships? Perhaps you are keen to know what sailing on the first ever cruise ship was like? From the introduction of steam power over 180 years ago, passenger shipping has changed dramatically. As new technologies were developed ships and shipping lines evolved, delivering ships capable of greater speed and safety, new luxuries and improved scale and size. The Evolution of the Passenger Ship explores the way ships were shaped over time, and how they in turn helped to shape the world around them.

**Great Passenger Ships 1930-1940** William H. Miller, 2015 Exploring the ships at sea across the most glamorous and exciting decade for the great liners The 1930s was perhaps the most glamorous and exciting decade for the great liners, highlighted by the great shipbuilding inter-nation rivalry: Germany's Bremen and Europa, Italy's Rex and Conte Di Savoia, France's Normandie, and Britain's Queen Mary and Queen Elizabeth. Passengers traveled on some of the most popular liners of all time, L'Atlantique, Empress of Britain, Empress of Japan, Queen of Bermuda, President Coolidge, Strathnaver and Strathaird, Orion, Capetown Castle, Oranje, Mauretania and Andes - and many more. Despite the worldwide Depression and a great shift in trading patterns, it was a wonderful era for shipbuilding and the era of Art Deco on the high seas, the age of 'floating Ginger Rogers'.

Passenger Vessel Legislation United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Merchant Marine, 1969 Committee Serial No. 91-9. Considers H.R. 210, to eliminate disclosure of construction details on passenger vessels meeting safety standards, and H.R. 12605, to amend the Merchant Marine Act to relax restrictions on passenger carrying and disembarkation.

*Giants of the Seas* Aaron Saunders, 2013-10-01 The cruise ship market is a 30 billion-dollar industry, and in 2013 it is estimated that it will carry more than 20 million passengers; nor is there any sign of a slow down in the seven percent annual growth. What keeps the passengers coming in such huge numbers isn't the food, the ports or the entertainment. They come for the magnificent floating palaces themselves, the giants of the sea. In this new book, the author showcases the most influential cruise ships of the last three decades beginning with Royal Caribbean's ground-breaking Sovereign of the Seas. When she was launched in 1988 she was the largest passenger ship constructed since Cunard's Queen Mary entered service some 48 years earlier, and her entry into service sparked a fiercely competitive building boom that continues to this day. The reader is taken aboard thirty of the most spectacular ships to reveal how their innovative designs changed the landscape of modern cruising. By employing original and archival photographs, deck plans, cruise programmes, as well as the author's intimate knowledge of many of these vessels, a unique picture is built up of these great ships and it becomes clear that the true Golden Age of Cruising is not in some distant past but

exists right now, and that its origins can be traced back to one ship, launched in 1988. A truly sumptuous and fascinating book for all those drawn to the world of the modern cruise ship. As seen in Ships Monthly Magazine

Liner William H. Miller, 1986 This book reflects the extraordinary changes which passenger shipping has undergone over the past half century.

*Passenger Ships, 1910 -1919* William H. Miller, 2011 The decade 1910-1920 was truly dramatic. It was an age of evolution, when size and speed were almost the ultimate considerations - it was the Industrial Age reaching for new heights, new dimensions, breaking records. In response ocean liners were becoming bigger, longer, taller and faster. The larger liners were certainly becoming grander - indeed it was the age of the 'floating palace.' It was also an age of increased corporate rivalries as well as political ones. There seemed to be a continuous swing between Imperial Britain and Imperial Germany in the game of 'who could build the bigger ship?' While the German four-stackers of 1897-1906 and then Cunard's brilliant Mauretania and Lusitania of 1907 led the way to larger and more luxurious liners, White Star Line countered by 1911 with the Olympic, her sister Titanic and a near-sister, the Britannic. The French added the France while Cunard took delivery of the beloved Aquitania. But the Germans won out - they produced the 52,000-ton Emperor and a near-sister, the Vaterland, the last word in shipbuilding and engineering prior to the First World War. By the war's end mighty firms such as Hamburg America and North German Lloyd had lost just about everything while Cunard, White Star and others had to rebuild, revive and almost reinvent themselves for the return to peacetime operations in 1919-20. .... First Class Cargo William H. Miller, 2016 This book is about the unique, largely ignored and forgotten passenger-cargo ships that were not liners but more than ordinary freighters. The first appeared in the 1930s but their heyday was post-war until the 1960s. There were dozens of these ships, often carrying 50-300 passengers in very comfortable, sometimes quite luxurious quarters. They were club-like, even yacht-like, and preferred by many, pre-jet travelers who wanted a longer, more restful journey, away from the often hotel-like quality of the big ocean liners. They also happened to be cargo vessels, carrying holds of cargo while adhering to scheduled sailings. William Miller presents an important record of a little-documented aspect of maritime history.

Superliner Passenger Vessels United States. Congress. Senate. Committee on Interstate and Foreign Commerce, 1958 Considers legislation to authorize the Federal Maritime Board to contract for the construction of two superliner passenger ships for sale to U.S. Lines Co. and American President Lines, Ltd.

Great Passenger Ships, 1920-1930 William H. Miller, 2014 Celebrating the majestic passenger liners of the twenties, Great passenger ships 1920 - 1930 looks at well-loved ships, such as Majestic, Olympic, Berengaria, Viceroy of India and Rawalpindi, alongside lesser known but still fascinating vessels. This series follows ships serving all over the world rather than just the Atlantic Liners, with personal anecdotes of the ships and their voyages from

passengers and crew alike--Back cover.
