Almendro Pato,2010-09 Almendro is a true story about the life of the author and how so much can go so wrong in a short time. We all have dreams but how many come to pass? Laura had two. She wanted a good marriage and a happy home for the two families that tried to blend together to become one. Her second dream was to live out the Golden Years on an exotic island in the Caribbean. She got her first wish when she married Jim but he wasn't what she wanted to believe he was. Laura got her second wish when the couple moved to that exotic island when they retired. It was here where the bottom fell out of both dreams and for Laura the struggle to survive began. Jim met Sheila before Laura ran off to Dominica with Gavin. Sheila wanted Laura's life and everything she and Jim owned and Jim wanted to destroy his wife in any way he could. He joined forces with the psychopathic woman who betrayed him from the beginning but he was too blinded by need and revenge to see it. When Sheila realized Laura was a threat to her plan, there was only one choice to make. Get rid of Laura. Forced to live in isolation in fear for her life, Laura lived alone in the jungles of Dominica until she met the man who captured her heart and saved her life in many ways. The Afro Caribbean people took her into their care and taught her what she needed to know and gave her the strength to carry on. When Jim died mysteriously, Laura didn't have to ask how or why. She put on her armour, picked up her sword and returned to the island she once called home. She declared war on Sheila and was willing to die to keep her dream.

Duck on a Tractor David Shannon,2021-08-03 Bestselling Caldecott Honor artist David Shannon tells the story of a determined duck who decides to jump on a tractor and drive it around the barnyard and through town, with hilarious consequences! Shannon's wildly popular, award-winning Duck on a Bike left children begging him to tell them another story about Duck after seeing him pictured alongside a shiny red tractor. Now Duck is back and turning the farm upside down! Flushed with the success of his trailblazing bike ride around the farm, Duck decides he's ready to drive the tractor. As in the bestselling Duck on a Bike, all the barnyard animals share their humorous comments as they watch Duck do the unthinkable. Then, one by one, they join him on the tractor for a ride! But what happens when Duck drives the big red tractor through town, past the popular diner where all the locals are having lunch? What will those folks really think when they see Duck and all the other animals riding around on Farmer O'Dell's tractor? Filled with entertaining detail and sly jokes, readers will pore over each picture again and again. Perfect for reading aloud!

Catalogue of the Birds in the British Museum: Chenomorphæ (Palamedeæ, Phœicopteri, Anseres), Crypturi, and Ratitæ, by T. Salvadori. 1895 British Museum (Natural History). Department of Zoology,1895 This enormous undertaking, which, according to one of the prefaces, professes to be a complete list of every bird known at the time of publication, kept growing even as it was being written. The Museum added eagerly to their already vast collections during the decades of publication, acquiring by gift the great collections of A.O. Hume on Asian birds, and those of Sclater and Salvin and Godwin on Neotropical birds, so that the size of the collection nearly tripled between 1874 and 1888. Sharpe originally intended to do all the work himself, but others were called in when this became clearly impossible. The plates are all of birds not previously illustrated. In the decades following its publication this catalogue was universally acclaimed as the most important work on systematic ornithology that has ever been published. (Zimmer, p. 96). And even after one hundred years it remains an essential reference for the serious ornithologist, as it underpins a great deal of modern bird classification. With 387 plates, most hand-coloured lithographs, some chromolithographs, by William Hart, J.G. Keulemans, Joseph and Peter Smit.

Phenomenological Approaches to Sport Irena Martínková,Jim Parry,2013-09-13 The study of sport is often thought of simply in terms of the sport sciences. This book explains how a phenomenological approach is

capable of revealing the nature and meanings of sport in ways that are beyond the reach of the sciences and how the very concepts required by sport science stand in need of philosophical explanation. The book has a 'didactic' intention, seeking to present and discuss ideas and tools developed in the phenomenological tradition in order to illuminate issues in sport, in such a way as to be understandable for those without any previous knowledge or background. There are clear and straightforward accounts of the ideas of central thinkers, such as Husserl, Heidegger, Merleau-Ponty and Patočka, and applications of central ideas to the analysis of particular issues, such as the nature of risk sports, the feint in football, the problem of the instant replay, the role of the sport psychologist, the idea of 'bodily perception', and the concept of 'transhumanism' in relation to performance enhancement. This book was originally published as a special issue of Sport, Ethics and Philosophy.
