**Bunny Mellon** Meryl Gordon, 2017-09-26 A biography of Bunny Mellon, the style icon and American aristocrat who designed the White House Rose Garden for her friend JFK and served as a living witness to 20th Century American history, operating in the high-level arenas of politics, diplomacy, art and fashion. Bunny Mellon, who died in 2014 at age 103, was press-shy during her lifetime. With the co-operation of Bunny Mellon's family, author Meryl Gordon received access to thousands of pages of her letters, diaries and appointment calendars and has interviewed more than 175 people to capture the spirit of this talented American original.

**Welcome to Dragon Talk** Shelly Mazzanoble, Greg Tito, 2022-12-05 If it seems like everyone you know is playing Dungeons & Dragons, it's because they are! After nearly five decades, the iconic roleplaying game is more popular than ever. Famous Hollywood actors and directors, therapists, educators, politicians, kids, parents, and grandparents all count themselves as fans. In Welcome to Dragon Talk, hosts of the official D&D podcast Shelly Mazzanoble and Greg Tito and their surprising guests show how this beloved pastime has amassed a diverse, tight-knit following of players who defy stereotypes. Shelly and Greg recount some of their most inspiring interviews and illuminate how their guests use the core tenets of the game in everyday life. An A-list actor defends D&D by baring his soul (and his muscles) on social media. A teacher in a disadvantaged district in Houston creates a D&D

club that motivates students to want to read and think analytically. A writer and live-streamer demonstrates how D&D-inspired communication breaks barriers and empowers people of color. Readers will see why Dungeons & Dragons has remained such a pop culture phenomenon and how it has given this disparate and growing community the inspiration to flourish and spread some in-game magic into the real world.

Annual Report of the Insurance Commissioner  
Maine. Insurance Department, 1906

Stolen Sons Rebecca Nunn, 2002-03-25 *Stolen Sons* is a retreat to the bosom of the old South with its mansions, estates, plantations, beautiful women, gala balls, delicious foods, and life at a slower pace. Readers will delight in the courtship of Leila, aged twenty, and Louis, aged sixty, and the love shared by Hannah and John, Leila's parents. Against a Southern backdrop and interwoven with the love story, there is tragedy—the first-born sons of the Fox family are meeting violent deaths, one after another. Members of the family must discover what is causing the deaths in an effort to prevent more. Are they the result of an ancient Indian curse placed on Hannah's father Rainbow by his aunt Pale Dove? How can the Fox family negate the curse? Is there an antidote? Readers will become so intrigued with this family that loves, laughs, cries, mourns, and betrays one another that they will feel they are related to the characters. In the tradition of the old South, the reader will become a first cousin, once-removed.

*Podcasting as an Intimate Medium* Alyn

Euritt,2022-11-18 This book delves into the notion of intimacy as a defining feature of podcasting, examining the concept of intimacy itself and how the public sphere explores the relationships created and maintained through podcasts. The book situates textual analysis of specific American podcasts within podcast criticism, monetization, and production advice. Through analysis of these sources' self-descriptions, the text builds a podcasting-specific framework for intimacy and uses that framework to interpret how podcasting imagines the connections it forms within communities. Instead of intimacy being inherent, the book argues that podcasting constructs intimacy and uses it to define the quality of its own mediation. This book will be of interest to scholars and students of New and Digital Media, Media Studies, Communication Studies, Journalism, Literature, Cultural Studies, and American Studies. The Open Access version of this book, available at [www.taylorfrancis.com](http://www.taylorfrancis.com), has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

The Right People Stephen Birmingham, 2015-12-01 An enlightening and entertaining inside look at the lifestyles of America's extremely wealthy from the bestselling author of "Our Crowd" It's no secret that the rich are different from the rest of us. But the rich, as author Stephen Birmingham so insightfully points out, are also different from the very rich. There's Society, and then there's Real Society, and it takes multiple generations for families of the former to become entrenched in the latter. Real Society is not about the money—or rather, it's not only about the

money—it is about history, breeding, tradition, and most of all, the name. *The Right People* is an engrossing and illuminating journey through the customs and habits of the phenomenally wealthy, from the San Francisco elite to the upper crust of New York's Westchester County. It is a marvelously anecdotal, intimately detailed overview of the lives of the American aristocracy: where they gather and dine; their games and sports, clubs and parties, friendships and feuds; their mating, marriage, and divorce rituals—a potpourri of priceless true stories featuring the Astors, Goulds, Vanderbilts, Vanderlips, Dukes, Biddles, and other lofty names from the pages of the *Social Register*.

**Sustainable Practice for the Facilities Manager**  
Sunil Shah, 2008-04-15 sectors including offices, retail and manufacturing. It explains the facilities manager's role in incorporating sustainability into the whole life-cycle of a building – from initial briefing to final disposal. The book takes a structured approach: • masterplanning and real estate (acquisitions and disposals) • design • construction and commissioning • refurbishment, fit-out and project management • maintenance • operation • occupant satisfaction. *Sustainable Practice for the Facilities Manager* fills a gap between the policy-level sustainability books and the detailed technical documents by focusing on the 'what' and 'how' of planning and implementing sound environmental management practices in the context

of FM operations. It covers policy and trends on global, European and UK levels affecting businesses; compliance requirements for organisations -including some sector-specific areas; and best practice, with good and bad case studies showing the business benefits of incorporating sustainable practice into day-to-day activities. The book is for: • facilities management professionals • public and private organisations owning properties • property companies • institutional investors • building services or supplier organisations and will help you deliver an improved operationally performing facility. Sunil Shah – Technical Director and Head of Sustainability, Jacobs Sunil has over eight years consultancy experience within the built environment, reviewing lifecycle environmental and social impacts from facilities. He has experience in a number of sectors, providing strategic consultancy support for clients including GlaxoSmithKline, BP, BAA, HM Prison Service, Pfizer and London Fire Brigade. Sunil has most recently been involved in supporting the inclusion of facilities management within the DTI's Sustainable Construction Strategy.

Engagement and Disengagement Howard G. Schneiderman, 2017-10-16 Part dialogue, part debate between Howard Schneiderman and a small number of social theorists, Engagement and Disengagement represents the culmination of a life's work in social theory. On the one hand, it is about cohesive social, cultural, and intellectual forces, such as authority, community, status, and the sacred, that tie us together, and on the other

hand, about forces such as alienation, politics, and economic warfare that pull us apart. With a blend of humanism and social science, Engagement and Disengagement highlight this two-culture solution to understanding social and cultural history.

### **Rethinking the BSE Crisis** Louise

Cummings, 2010-08-09 In 1986, the emergence of a novel brain disease in British cattle presented a unique challenge to scientists. How that challenge was addressed has been the subject of a public inquiry and numerous academic studies conducted to date. However, none of these investigations has sought to examine the reasoning of scientists during this critical period in the public health of the UK. Using concepts and techniques in informal logic, argumentation and fallacy theory, this study reconstructs and evaluates the reasoning of scientists in the ten-year period between 1986 and 1996. Specifically, a form of presumptive reasoning is described in which extensive use is made of arguments traditionally identified as informal fallacies. In the context of the adverse epistemic conditions that confronted scientists during the BSE epidemic, these arguments were anything but fallacious, serving instead to confer a number of epistemic gains upon scientific inquiry. This book argues for a closer integration of philosophy with public health science, an integration that is exemplified by the case of scientific reasoning during the BSE affair. It will therefore be of interest to advanced students, academics, researchers and professionals in the areas of public health

science and epidemiology, as well as philosophical disciplines such as informal logic, argumentation and fallacy theory and epistemology.

**Congressional Record** United States.

Congress,1964 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

*The BSE Inquiry* Lord Nicholas Phillips,Nicholas Addison Phillips Baron Phillips of Worth Matravers,2000 This is a narrative volume in which the BSE Inquiry examines in detail different aspects of the BSE story. The format that is adopted is to separate the summary of the primary facts from the discussion of the issues raised by them. The intention is that this and other volumes will provide a detailed explanation for conclusions that are expressed in volume 1 of the report, 'Findings and Conclusions'. This volume starts with the identification of the emergence of

BSE and goes on to cover the introduction of the ruminant feed ban, compulsory slaughter with compensation of all BSE suspects, and notification of the ruminant feed ban to other countries. It thus includes what many consider to be the most significant measures that were taken to address the dangers posed by BSE to animal health and human health. Steps taken to address the risks from bovine sourced medicinal products for both humans and animals began during this period. Separate chapters are devoted to: the identification of a new disease in cattle; dissemination of information; epidemiology; the ruminant feed ban; and, human health implications, notification, and slaughter and compensation. The final chapter in this volume goes beyond July 1998 and considers the notification of the ruminant feed ban to other countries. As these chapters are by theme this volume does not follow a comprehensive chronology

*The BSE Inquiry* Nicholas Addison Phillips Baron Phillips of Worth Matravers, Lord Nicholas Phillips, 2000 This volume describes the three industries central to the history of the BSE epidemic and the processes they employed: the rendering industry, the animal feed industry and slaughterhouses. The legislation governing these industries is covered in volume 14, 'Responsibilities for Human and Animal Health'.
