Peru's Southern Coast Nicholas Gill, 2010 Peru is one of the most diverse and fascinating countries on the planet. Of the 117 life zones on earth, 84 can be found here. Because of this, Peru's flora and fauna is some of the most unusual on earth. Scientists are only beginning to grasp just how many species exist and how many are still likely to be discovered. Large areas of rainforest and mountains remain unexplored. It was only in the past few decades that research began on the canopy tops, the upper levels of the rainforest, which have opened up a whole new world of plant and wildlife. As far as history goes, there is more here than anywhere else in the Americas. Most have heard of the Incas and Machu Picchu, but there were many large civilizations here long before the Incas: the Chavín, Chimu, Moche, Wari, Nazca and Paracas. Each group left their mark on the country in some way and their achievements, artifacts, and architecture are more impressive in many ways than that of the Incas. Highlights of the Southern Coast: * Wine and Pisco tasting OCo Sample the world's largest Pisco-producing region and some of the finest wine Peru has to offer. * Islas Ballestas OCo See seals, frigate birds, and Humboldt penguins in the poor man's Galapagos. * Santa Catalina Monastery OCo Walk through the secluded city within a city, one of Peru's most revered Catholic landmarks. * Nazca Lines OCo Take a gut-wrenching flight in a five-seater plane for the best view of the Nazca lines. The Nazca Lines, 22 km/13 miles north of Nazca, were made by removing the darker sun-baked stones and piling them on either side of the line, exposing the lighter soil. Why the lines were made is still open to much debate, but scientists have a fairly good idea of who made them. The Paracas and Nazca peoples are believed to have created the lines between 900 BC to 600 AD. It is also believed that the Huari settlers from Ayacucho made some additions in the seventh century. There are literally hundreds of lines and geometric shapes that stretch for miles, but the animals such as a monkey, dog, spider, whale, and several birds, including a hummingbird with a wingspan of over 100 yards, are the most well-known. There are also images of a tree, hands, and what is thought by some to be an astronaut. * Adventure OCo Trek Colca Canyon, climb El Misti, or raft in Cotahuasi. This guide includes full details on where to stay and eat in Southern Peru, plus what to see and do. Also included is an extensive introduction to Peru as a whole, with information about the history and culture of the country, the cuisine, the arts, the people, the flora & fauna, the parks & reserves, and the 20 top adventures.

History of the Conquest of Peru William Hickling Prescott, 1847

Fujimori's Peru Catherine M. Conaghan, Alberto Fujimori ascended to the presidency of Peru in 1990, boldly promising to remake the country. Ten years later, he hastily sent his resignation from exile in Japan, leaving behind a trail of lies, deceit, and corruption. While piecing together the shards of Fujimori's presidency, prosecutors

uncovered a vast criminal conspiracy fueled by political ambition and personal greed. The Fujimori regime managed to maintain a facade of democracy while systematically eviscerating democratic institutions and the rule of law through legal subterfuge, intimidation, and outright bribery. The architect of this strategy was Fujimori's notorious intelligence advisor, Vladimiro Montesinos. With great skill, Fujimori and Montesinos created the appearance of a democratic public sphere but ensured it would work only to suit their personal motives. The press was allowed to operate, but information exchange was under strict control. The more government officials tampered with the free flow of ideas, the more they inadvertently exposed the ills they were trying to cover up. And that proved to be their downfall. Merging penetrating analysis and a journalist's flair for narrative, Catherine Conaghan reveals the thin line between democracy and dictatorship, and shows how public institutions can both empower dictators and bring them down.

Peru Robert Frank, 2008 Writing from New York in March 1949, Robert Frank sent home to his mother in Switzerland a birthday gift of a book maquette of a series of photographs he had made during a visit to Peru. Frank made an identical book for himself and one of each of these two dummies now resides in the collections of the Museum of Modern Art, New York, and National Gallery of Art, Washington. A few of these images are well-known in Frank's oeuvre but previously the entire series had only ever been seen by a small number of people. This book presents for the first time the complete sequence of images, based on the original book Frank had conceived and realised under his direction. Peru is a work of major historical significance in both the artist's history and the history of photography.--BOOK JACKET.
