International Marketing John Shaw,Sak

Onkvisit,2008-01-28 Marketing is a universal activity that is widely applicable, regardless of the political, social or economic systems of a particular country. However, this doesn't mean that consumers in different parts of the world should be satisfied in the same way. The 4th edition of International Marketing has been written to enable managers and scholars to meet the international challenges they face everyday. It provides the solid foundation required to understand the complexities of marketing on a global scale. The book has been fully updated with topical case studies, examples of contemporary marketing campaigns, the most relevant discussion topics as well as the most up-to-date theories, references and research findings. It is this combination of

theory and practice that makes this textbook truly unique, presenting a fully rounded view of the topic rather than an anecdotal or descriptive one alone. The book includes chapters on: * Trade distortions and marketing barriers * Political and legal environments * Culture * Consumer behaviour * Marketing research * Promotion and pricing strategies * Currencies and foreign exchange Accessibly written and designed, this book is the most international book on marketing available that can be used by undergraduates and postgraduates the world over. A companion website provides additional material for lecturers and students alike.

This book compiles brand new case studies on the intricacies and market entry strategies of different companies in China. The sheer speed and scope of China's growth makes it unique and investment opportunities are very attractive. Despite the potential, many western companies fail in their market entry strategies. This book traces the major sources of failure and uses cases to illustrate how firms can better cope with the challenging Chinese market. With a special focus on marketing, positioning, and branding, this book presents issues and solutions of both large multinationals and small niche market players.

Driving toward Modernity Jun Zhang, 2019-10-15 In *Driving toward Modernity*, Jun Zhang ethnographically explores the entanglement between the rise of the automotive regime and emergence of the middle class in South China. Focusing on the Pearl River Delta, one of the

nation's wealthiest regions, Zhang shows how private cars have shaped everyday middle-class sociality, solidarity, and subjectivity, and how the automotive regime has helped make the new middle classes of the PRC. By carefully analyzing how physical and social mobility intertwines, *Driving toward Modernity* paints a nuanced picture of modern Chinese life, comprising the continuity and rupture as well as the structure and agency of China's great transformation.
