Rosina Ehmman

Art After the Bomb Darrell D. Davisson, 2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community. Our understanding in the West of the Eastern cultures, specially the different cultures involving the Muslims, is alarmingly low. The book strives to offer a view from the ground, a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind. There are over 1.3 billion Muslims in the world. It would be a serious intellectual fallacy to assume that they are all homogenous, or to be more preposterous, assume they are all terrorists. It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam. Properly acquired knowledge, not just what we learn from the media, will allow us to be anticipatory and rational, rather than being reactive and emotional. For the Muslim reader, specially the children and the youth, the book strives to offer a deeper understanding of Islam, beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam. To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people, with questionable motives. The book is designed to encourage the process of tearing down walls and building bridges. We share common dreams, aspirations and challenges. We share a common globe and a common destiny. The author believes that there are no clashes of civilizations, just clashes of ignorance and misunderstanding.

The Flute on Record Susan Nelson,2006 *The Flute on Record: The 78 rpm Era* serves as a comprehensive and practical guide to the wealth of flute recordings made between 1889 and 1954. The discography lists commercial, private, and unpublished recordings on cylinders and 78 rpm discs for more than two hundred national and international flutists. Recordings are logged in meticulous detail, including dates and locations, matrix numbers, domestic and foreign catalog numbers, and corresponding long-playing reissues. Solo works, chamber music, and vocal and orchestral works that feature flute passages are addressed in citations and complete appendixes of anonymous recordings. Details about broadcast transcriptions, live performance transcriptions, and films are also included. Notes and bibliographies offer background information on additional recordings and reparatory, providing a link between modern study and historical evidence. With a list of record labels and numerical series, as well as indexes of composers and musicians, this resource is invaluable for researchers, collectors, and general users alike.--BOOK JACKET.

Roy Lichtenstein Julie Wolfe,2023-06-06 The first book-length study to examine the materials and techniques used in the fabrication and painting of the American pop artist Roy Lichtenstein's outdoor sculpture. Vibrant color was essential to the paintings of the American pop artist Roy Lichtenstein (1923-1997), and when he began exploring the creation of outdoor sculpture in the late 1970s, vivid hues remained an important part of his artistic vocabulary. Today, preserving these remarkable works after they have endured decades in outdoor environments around the world is an issue of pressing concern. This abundantly illustrated volume is based on extensive archival research of Lichtenstein's

studio materials, interviews with his assistants, and a thorough technical analysis of the sculpture Three Brushstrokes. The book concludes with a chapter showing various options for the care, conservation, and restoration of his sculptural works, making this an essential resource for conservators, curators, and others interested both in the iconic artist and modern sculpture in general.
