Uncle from Another World, Vol. 8 Hotondoshindeiru, 2023-10-24 EXTRAORDINARY THINGS CAN HAPPEN WHEN YOU BELIEVE IN UNCLE! Uncle's stories continue to echo across the tides of time, and nothing thrills Takafumi and Fujimiya more than the fact that Uncle and Elf started adventuring together! But even their travelers' tales might pale in comparison to the challenges facing Uncle in the present—like figuring out how to order at a twenty-first-century coffee shop!

The Joy of Grammar James D. McCawley, Diane Brentari, Gary N. Larson, Lynn A. MacLeod, 1992-01-01 Two threads run through this collection of 22 papers by students and colleagues of James D. McCawley. The first is a commitment to deep reflection on the direction of linguistic study, sometimes resulting in challenges to the writings of major figures or new appreciations, sometimes questioning our assumptions about the organization of linguistic information in the mind. The second thread is a shared sense of the requirements for the rigor of a good linguistic argument, that its presentation be thoroughgoing, straightforward and clearly made. There is a strong emphasis on testing the ☐ party line☐ with the widest possible range of languages and the strongest possible set of linguistic tests. Demonstrating bugs and strategizing over the choice between competing analyses is not enough. The completion of an argument lies in constructing a better alternative.

Iconicity Masako K. Hiraga, William J. Herlofsky, Kazuko Shinohara, Kimi Akita, 2015-02-15 Iconicity: East Meets West presents an intersection of East-West scholarship on Iconicity. Several of its chapters thus deal with Asian languages and cultures, or a comparison of world languages. Divided into four categories: general issues; sound symbolism and mimetics; iconicity in literary texts; and iconic motivation in grammar, the chapters show the diversity and dynamics of iconicity research, ranging from iconicity as a driving force in language structure and change, to the various uses of images, diagrams and metaphors at all levels of the literary text, in both narrative and poetic forms, as well as on all varieties of discourse, including the visual and the oral.

Perceiving the Future through New Communication Technologies James Katz, Juliet Floyd, Katie Schiepers, 2022-01-01 The volume offers multiple perspectives on the way in which people encounter and think about the future. Drawing on the perspectives of history, literature, philosophy and communication studies, an international ensemble of experts offer a kaleidoscope of topics to provoke and enlighten the reader. The authors seek to understand the daily lived experience of ordinary people as they encounter new technology as well as the way people reflect on the significance and meaning of those technologies. The approach of the volume stresses the quotidian quality of reality and ordinary understandings of reality as understood by people from all walks of life. Providing expert analysis and sophisticated understanding, the focus of attention gravitates toward how people make meaning out of change, particularly when the change occurs at the level of social technologies- the devices that modify and amplify our modes of communication with others. The volume is organised into three main sections: The phenomena of new communication technology in people's lives from a contemporary viewpoint; the meaning of robots and AI as they play an increasing role in people's experience and; broader issues concerning the operational, sociological and philosophical implications of people as they address a technology driven future.

Crónicas Negras. Desde una región que no cuenta Sala Negra de El Faro,2013-08-03 Aquí están las protagonistas de la violencia; vemos sus caras, sus gestos, escuchamos sus voces, suenan los tiros y caen los muertos casi a nuestros pies... Centroamérica es una región que poco conoce la palabra paz. Tras las guerras civiles de finales del siglo pasado, sus países recibieron una oleada de deportados, muchos de ellos pandilleros que inauguraron una nueva guerra en las calles. Eso, sumado a unos Estados débiles y corruptos, un crimen organizado que ve en estos lares una suculenta plaza y unas víctimas que apenas son escuchadas compone una de las regiones más violentas del mundo, y una de las menos contadas. Los valientes reporteros de El Faro, Carlos Martínez, Roberto Valencia, Daniel Valencia Caravantes, José Luis Sanz, Óscar Martínez y Juan Martínez, llevan más de tres años inmerso en ese charco oscuro de la violencia y, nos adentran con deslumbrante intimidad en historias de horror real, contadas con toda la terrible fuerza y complejidad de la vida actual.

Phonology Alan Bale,Charles Reiss,2023-12-26 An introduction to generative phonology using tools of basic set theory, logic, and combinatorics. This textbook introduces phonological theory as a branch of cognitive science for students with minimal background in linguistics. The authors use basic math and logic, including set theory, some rules of inference, and basic combinatorics, to explain phonology, and use phonology to teach the math and logic. The text is unique in its focus on logical analysis, its use of toy data, and its provision of some interpretation rules for its phonological rule syntax. The book's eight parts cover preliminary and background material; the motivation for phonological rules; the development of a formal model for phonological rules; the basic logic of neutralization rules; the traditional notions of allophony and complementary distribution; the logic of rule interaction, presented in terms of function composition; a survey of such issues as length, tone, syllabification, and metathesis; and features and feature logic, with a justification of decomposing segments into features and treating segments as sets of (valued) features. End-of-chapter exercises help students apply the concepts presented. Much of the discussion and many of the exercises rely on toy data, but more “real” data is included toward the end of the book. Exercises available online can be used as homework or in-class quizzes.
