Electrifying Design Sarah Schleuning, Cindi

Strauss, Sarah Horne, Martha MacLeod, Berry Lowden Perkins, 2021-01-01 An unprecedented survey of modern lighting design foregrounding its materials, innovators, and far-reaching influence Offering the first comprehensive history of lighting design from the 20th and 21st centuries, *Electrifying Design: A Century of Lighting* explores how lighting has been integral to the development of modern design both in terms of aesthetics and technological advances. This fascinating book outlines the key aspects of lighting as a unique and creative artistic discipline and examines themes such as different typologies, the quality of light, and the evolution of the bulb. A series of essays by Sarah Schleuning and Cindi Strauss showcase lighting designs from different time periods and geographic locations and feature the work of significant figures, including Poul Henningsen, Ingo Maurer, and Gino Sarfatti. With over 130 illustrations of functional and sometimes fantastical designs, a historical timeline, and comprehensive artist biographies, this handsome volume expands our understanding of an understudied but influential art form and demonstrates lighting's central role as both an expression of and a catalyst for innovations in modern and contemporary design. Introduction to Modern Design George H.

Marcus, 2019-12-26 With some 280 colour illustrations, *Introduction to Modern Design* takes us on a visual survey of design from the Industrial Revolution of the eighteenth century to the Maker Movement of today. It offers a new understanding of the birth of modern design in the early twentieth century and chronicles the way its meaning has changed over the decades. The narrative is supported by twenty-six readings from significant texts by designers and critics, offering readers an opportunity to learn about design from those who created it and those who commented on it as it was done. The focus of this book is on the objects themselves—from industrial design, furniture, ceramics, textiles, graphics, electronics, to automobiles—and explores the development of these designs in relation to industrialization, technology, environmental responsibility, consumerism, individual needs, and the expression of the social values of their day. Clearly written and accessible, *Introduction to Modern Design* provides a succinct history of, and fascinating insights into, the world of design.

The Design Encyclopedia Mel Byars, 2004 Design has an increasingly high profile - figures like Philippe Starck are as venerated and well known as more traditional artists. But where the literature on fine art is vast, design is still comparatively ill-served. This encyclopedia provides an account of the still largely unknown story of design.

Sotheby's Guide Sotheby's (Firm), 1989

Twentieth-century Style & Design Stephen

Bayley, Philippe Garner, Deyan Sudjic, 1986 The twentieth century is the first century of self-conscious, total design at

every level of our living and environment. Care and vision in the application of design have come to be demanded in every aspect of modern life - from our kitchens and bathrooms, to our factories and workshops, from our clothes and domestic objects, to the packaging of pocket calculators or the structuring of plastic dining chairs. Twentieth-Century Style and Design is a major survey, lavishly illustrated throughout. It traces the concerns of designers of this century in four chronological sections: the pioneers from 1900 to 1915; ornament versus pure form of the twenties and thirties; austerity and reconstruction in the forties and fifties; and experiment versus continuity in the sixties to the present. Although each section is divided according to the type of design - decorative arts, industrial and domestic design, and architecture and the urban environment - the emphasis is on the all-embracing nature of design in the twentieth century. The authors are all leading authorities actively involved in the promotion of contemporary arts. Combining their knowledge and experience, they have produced a book which is essential reading for those involved with architecture and design and for anyone interested in this increasingly pervasive aspect of today. -- Book Jacket.
