Military Modernisation in Southeast Asia after the Cold War Shang-Su Wu, 2024-04-01 Southeast Asian countries represent a wide range of approaches to military modernisation due to their great diversity in politics, economies, geography and other factors. Bounded by the Pacific and Indian Oceans and located between China and India is the setting for the geostrategic impacts of military modernisation in Southeast Asian countries. Differing from previous research focused on military acquisition, this book additionally covers retention of assets and carefully examines the ageing issues that affect readiness and capabilities. In doing so, it provides a comprehensive view of military modernisation. This book also compares each country's situation in the region in terms of military strength and security challenges to elaborate on the geostrategic impacts of military modernisation. The ten cases of military modernisation in the post-Cold War context provide rich content for readers to explore the evolution of military modernisation in developing countries after 1991. This book sheds light on security studies of Southeast Asia and is a useful resource for academic researchers, policy-makers and defence practitioners.

The Technological State in Indonesia Sulfikar Amir, 2012 Using a historical sociology approach, this book illustrates the formation of the technological state in Indonesia during the New Order period (1966-1998). It explores the nexus between power, high technology, development, and authoritarianism situated in the Southeast Asian context. The book discusses how the New Order regime shifted from the developmental state to the technological state, which was characterized by desire for technological supremacy. The process resulted in the establishment of a host of technological institutions and

the undertaking of large-scale high-tech programs. Shedding light on the political dimension of socio-technological transformation, this book looks at the relationship between authoritarian politics and high technology development, and examines how effectively technology serves to sustain legitimacy of an authoritarian power. It explores into multiple features of the Indonesian technological state, covering the ideology of development, the politics of technocracy, the institutional structure, and the material and symbolic embodiments of high technology, and goes on to discuss the impact of globalization on the technological state. The book is an important contribution to studies on Southeast Asian Politics, Development, and Science, Technology, and Society (STS).

The Browning High-Power Pistol Leroy Thompson, 2020-04-30 Making its debut in 1935, the Browning High-Power was the world's most widely used military pistol for much of the 20th century. Military and law-enforcement agencies in more than 90 countries have issued the High-Power and it has seen combat in conflicts from World War II through to the 'War on Terror'. After conquering Belgium, Nazi Germany produced more than

300,000 High-Powers for use by the Waffen-SS, Fallschirmjäger and others, and after 1945 the High-Power became standard for most NATO-armed forces as well as scores of others. Chambered for the 9×19mm Luger cartridge, John Browning's High-Power improved on the classic Colt M1911 design, especially in its use of a far simpler takedown system. The pistol's innovative 13-round magazine, designed by Dieudonné Saive, staggered the cartridges for higher capacity without unduly increasing the grip size. During its 82-year production run at Fabrique Nationale (FN) in Belgium, the design evolved slightly, but a 2017 High-Power was still easily recognizable as a descendant of the original model. Packed with gripping material including detailed technical specifications, contemporary photographs and highly accurate artist's renditions, this title is a comprehensive and informative guide to the world's most iconic semi-automatic pistol.

Indonesia and the Indo-Pacific Senia

Febrica, 2023-07-19 This book examines Indonesia's strategies and policies to influence regional cooperation in the Indo-Pacific, focusing especially on Indonesia's efforts to be the maritime fulcrum in the Indo-Pacific during President Joko Widodo's (Jokowi) administration from 2014 until the present. Highlighting the importance of Indonesia as the largest country in Southeast Asia and as a founder member of ASEAN, the book, based on extensive original research, provides key insights into Indonesia's maritime policy decision-making since 2014. It discusses the domestic political context in which foreign policy decisions are made, provides an explanation for Indonesia's efforts to project its vision of Indo-Pacific cooperation at the ASEAN level and beyond, and demonstrates how Indonesia strives to maintain a delicate balance in its interactions with major powers in the region, including the United States, China,

and Japan.

Three in the Nebula award nominated and Compton Crook award winning series. Science fiction adventure on a grand scale. Caine Riordan, reluctant diplomatic and military intelligence operative, has just finished playing his part repulsing the Arat Kur's and Hkh'Rkh's joint invasion of Earth. But scant hours after the attackers surrender, the mysterious but potentially helpful Slaasriithi appeal to Caine to shepherd a diplomatic mission on a visit to their very alien worlds. The possible prize: a crucial alliance in a universe where the fledgling Consolidated Terran Republic has very few friends. But Caine and his legion aren't the only ones journeying into the unknown reaches of Slaasriithi space. A group of renegade K'tor are following them, intending to destroy humanity's hopes for a quick alliance. And that means finding and killing Caine Riordan. Assuming that the bizarre and dangerous Slaasriithi lifeforms don't do it first. At the publisher's request, this title is sold without DRM (Digital Rights Management).
About Trial by Fire: _I seriously enjoyed Trial by Fire. This one's a tidal wave¼can't put it down. An excellent book.Ó¼¼Jack McDevitt on the prequel Gannon's whiz-bang second Tales of the Terran Republic interstellar adventure delivers on the promise of the first (Fire with Fire). . . . The charm of Caine's harrowing adventure lies in Gannon's attention to detail, which keeps the layers of political intrigue and military action from getting too dense. The dozens of key characters, multiple theaters of operations, and various alien cultures all receive the appropriate amount of attention.
