Стрелковое огнестрельное оружие и боеприпасы к нему Евгений Назаркин,Олег Межерауп,2023-09-09 Рассмотрены основные типы н виды наиболее часто встречаемого на территории России и за её пределами стрелкового огнестрельного оружия и боеприпасов к нему. Наглядно представлены их конструктивные и видовые особенности в форме иллюстративного познавательного информационного обзора. Материалы монографии не являются официальными справочно-методическими материалами для производства криминалистических балистических экспертиз и исследований. Монография представляет собой обобщенный и систематизированный обзор видов огнестрельного оружия, основ его материальной части, исходя из норм действующего законодательства, ГОСТа, а также специализированной литературы. Все материалы взяты из открытых, общедоступных, легальных источников, преимущественно, из сети Интернет. Для широкого круга читателей, интересующихся историческим и современным обзором стрелкового огнестрельного оружия и боеприпасов к нему, изучением материальной части оружия: студентов, курсантов, слушателей юридических вузов, практических работников правоохранительных органов, военных, сотрудников учреждений уголовно-исполнительной системы, лиц, связанных с оборотом оружия и боеприпасов, а также обычных читателей.

Самое современное оружие и боевая техника Л. Сытин,2022-05-14 Эта книга рассказывает о наиболее современных образцах оружия и боевой техники всех родов войск – от пистолетов и винтовок до боевых самолетов и кораблей. Разработанные уже после окончания «холодной войны», они стали ответом на

новые угрозы и воплотили обновленные концепции применения военной силы. Одни описанные системы поступили в войска в 2000-х гг., другие существуют пока в виде опытных образцов, третьи – проектируются. Ввиду высокой стоимости современного вооружения срок их «жизни» в сравнении, например, с оружием Второй мировой войны значительно удлинился. Поэтому можно предположить, что оружие, описанное здесь, будет применяться как минимум до середины столетия.Издание предназначено для широкого круга читателей, интересующихся оружием и военной техникой.

The Market for Force Deborah D. Avant,2005-07-25 The legitimate use of force is generally presumed to be the realm of the state. However, the flourishing role of the private sector in security over the last twenty years has brought this into question. In this book Deborah Avant examines the privatization of security and its impact on the control of force. She describes the growth of private security companies, explains how the industry works, and describes its range of customers – including states, non-government organisations and commercial transnational corporations. She charts the inevitable trade-offs that the market for force imposes on the states, firms and people wishing to control it, suggests a new way to think about the control of force, and offers a model of institutional analysis that draws on both economic and sociological reasoning. The book contains case studies drawn from the US and Europe as well as Africa and the Middle East.

Russia's Warplanes Piotr Butowski,2016-12-31 Following the success of the first offering in the series, Harpia Publishing presents the second volume of Russia's Warplanes, completing what has become a standard reference work on the subject. Once again researched and written by the acknowledged expert in the field, the book

draws upon the author's unrivaled connections within the Russian aerospace industry to conclude this comprehensive directory of the country's latest military aviation hardware. The result forms an essential companion to Volume 1, which detailed tactical combat aircraft, attack and transport helicopters, reconnaissance and surveillance aircraft, and special mission aircraft including airborne command posts and relay aircraft. Between them, the two works present in full detail the fixed-wing aircraft and helicopters that equip the various Russian air arms, as well as those developed for and operated by foreign states in the post-Soviet era. Alongside technical descriptions for each military aircraft - and every significant sub-variant - currently available from Russia's aerospace industry, or otherwise in large-scale service, Piotr Butowski provides historical background and accurate data relating to production and operators around the world. Full coverage is extended to upgrades, as well as the new avionics and advanced weapons that these introduce. The second volume in the series is dedicated to long-range bombers - including the Tu-95MS and Tu-160 that recently made their combat debuts over Syria - maritime patrol and antisubmarine warfare aircraft, strategic transport and tanker aircraft, theater transports, and trainers. The work provides authoritative accounts of Russia's current and future strategic bomber programs, as well as other fascinating types including the world's largest military transport, the An-124, and the new-generation Yak-130 advanced trainer and light attack aircraft. In common with previous Harpia titles, the book contains a wealth of high-quality photographs, many of which have never previously been published.

Son of a Gunsmith J. R. Roberts,1999 When an old flame asks the Gunsmith for a favor, he ends up with more than her undying gratitude. The favor: Help a brave but inexperienced young sheriff clean up a frontier town of outlaws. The catch: The young man might be Clint Adams' son.

Avril Lavigne's Make 5 Wishes Volume 1 Camilla d'Errico,Joshua Dysart,2007-04-10 Welcome to Make5Wishes Hana just doesn't fit in. At school, she feels like the invisible girl. ("No. Not invisible. Being invisible would've been cool. I just wasn't worth noticing.") And at home, she avoids her parents' arguments by retreating to her bedroom, where she spends hours online, playing the part of various cool, smart, sexy, and popular alteregos, and kicks back with her all-time idol and very best (though only in her imagination) friend, rebel rocker Avril Lavigne. One night she runs across a mysterious website called Make5Wishes. Somehow, she can't click away–and before she knows it, she's ordered a package guaranteed to make dreams come true. But will it end up being a Pandora's box? It all depends on the lovable but wily demon inside. Is Hana sure she knows what she wants? And does she know that what you want can be very different from what you get?

The Blockade of the Gaza Strip Marty Gitlin,2020 Ever since Israel ended its occupation of Gaza in 2005, Islamist group Hamas and other militant groups in Gaza have created conflicts with Israel. In 2007, Israel instituted a blockade of the Gaza Strip, restricting border crossings and access to necessities such as food, water, and power. Israel maintains that the intent of the blockade is to eliminate Hamas's ability to launch rockets into Israel. The Palestinians charge that the blockade effectively weakens Hamas and constitutes suffering and human rights

violations among Gaza's citizens. In this informative and provocative resource, essay authors share their unique perspectives on this contentious issue.

    <u>Southeast Asia After the Cold War</u> Cheng Guan Ang,2019 International politics in Southeast Asia since end of the Cold War in 1990 can be understood within the frames of order and an emerging regionalism embodied in the Association of Southeast Asian Nations (ASEAN). But order and regionalism are now under siege, with a new global strategic rebalancing under way. The region is now forced to contemplate new risks, even the emergence of new sorts of cold war, rivalry and conflict. Ang Cheng Guan, author of Southeast Asia's Cold War, writes here in the mode of contemporary history, presenting a complete, analytically informed narrative that covers the region, highlighting change, continuity and context. Crucial as a tool to make sense of the dynamics of the region, this account of Southeast Asia's international relations will also be of immediate relevance to those in China, the USA and elsewhere who engage with the region, with its young, dynamic population, and its strategic position across the world's key choke-points of trade. This is essential reading for decision-makers who wish to understand our current situation, looking back to the end of the Cold War thirty years ago, and forward to an uncertain future.--Page 4 de la couverture.
