The Ludendorff Pirates Al Ramrus, John Shaner, 1978

The Shores of Tripoli James L. Haley, 2017-10-03 The first novel in award-winning historian James L. Haley's brilliant adventure series featuring young midshipman Bliven Putnam as he begins his naval service aboard the U.S.S. Enterprise. It is 1801 and President Thomas Jefferson has assembled a deep-water navy to fight the growing threat of piracy, as American civilians are regularly kidnapped by Islamist brigands and held for ransom, enslaved, or killed, all at their captors' whim. The Berber States of North Africa, especially Tripoli, claimed their faith gave them the right to pillage anyone who did not submit to their religion. Young Bliven Putnam, great-nephew of Revolutionary War hero Israel Putnam, is bound for the Mediterranean and a desperate battle with the pirate ship Tripoli. He later returns under legendary Commodore Edward Preble on the Constitution, and marches across the Libyan desert with General Eaton to assault Derna—discovering the lessons he learns about war, and life, are not what he expected. Rich with historical detail and crackling with high-wire action, The Shores of Tripoli brings this amazing period in American history to life with brilliant clarity.

Hunt the Bismarck Angus Konstam, 2019-09-19 A ground-breaking narrative account of one of World War II's most exciting chase stories, the pursuit of the legendary German battleship Bismarck. Hunt the Bismarck tells the story of Operation Rheinübung, the Atlantic sortie of Nazi Germany's largest battleship, Bismarck, in May 1941 and her subsequent pursuit by the Royal Navy. Bismarck entered naval service in the summer of 1940. She was well-armed, with eight 15in guns as well as a powerful array of lighter weapons, while her armoured protection earned her the reputation of being unsinkable. This claim was put to the test in May 1941 when she sortied into the Atlantic and fought the legendary battle of the Denmark Strait, destroying HMS Hood, the pride of the Royal Navy.

Bismarck was now loose in the North Atlantic. However, damage sustained in the battle limited her ability to roam at will, and the Royal Navy deployed the Home Fleet to avenge the sinking of the Hood. The stage was set for the greatest chase story in the history of naval warfare. Drawing on a wealth of first-hand accounts and intertwining extensive research into a fast-paced narrative, this is the most readable and accurate account of Bismarck's epic pursuit ever produced.

Blackbeard Angus Konstam, 2008-04-21 A thorough, exciting examination of 18th-century pirate life, with wonderful details. --Publishers Weekly Interesting and exciting . . . a thoroughly enjoyable chronicle of an interesting life and interesting era. --Booklist The definitive biography of history's most fearsome and famous pirate Of all the colorful cutthroats who scoured the seas in search of plunder during the Golden Age of Piracy in the early eighteenth century, none was more ferocious or notorious than Blackbeard. As unforgettable as his savage career was, much of Blackbeard's life has been shrouded in mystery--until now. Drawing on vivid descriptions of Blackbeard's attacks from his rare surviving victims, pirate expert Angus Konstam traces Blackbeard's career from its beginnings to his final defeat in a tremendous sea battle near his base at Ocracoke Island. Presenting dramatic accounts of the pirate's very effective tactics and his reputation for cruelty, Konstam offers a fascinating examination of the life and business of piracy and the lure of this brutal and bloody trade.

British Battleships 1914-18 (2) Angus Konstam, 2013-12-20 In 1906, the Germans began building their own dreadnought fleet armed with larger guns, word of which soon reached the British Admiralty. This raised the spectre that the British dreadnought fleet would be outgunned, and prompted the Admiralty to order the building of their own "super dreadnoughts". The first of these new dreadnoughts were laid down in 1909, and entered service three years later. The British public supported this programme, and the slogan "we want eight and cannot wait" became popular, a reference to the building of eight of these super dreadnoughts. Four more super dreadnoughts entered service in 1914. By then the Admiralty had developed a new programme of "fast battleships", armed with 15-inch guns. These powerful warships entered service in time to play a part in the battle of Jutland in 1916. World War I broke out before the Royal Navy had fully evaluated these new warships, and so lessons had to be learned through experience – often the hard way. Although none of these super dreadnoughts were lost in battle, their performance at the battle of Jutland led to a re-evaluation of the way they were operated. Still, for four years they denied control of the sea to the enemy, and so played a major part in the final collapse of Imperial Germany.

British Battleships 1914-18 (1) Angus Konstam, 2013-05-20 The launch of HMS Dreadnought in

1906 changed the face of naval warfare. The first half-dozen dreadnoughts were all improvements of the basic Dreadnought design, all carrying ten 12-inch guns. It was only in 1911, with the launch of HMS Neptune that the layout of this powerful armament was altered as a result of practical experience. Two more versions of the Neptune entered service later that same year. These nine improved dreadnoughts formed the core of the British High Seas Fleet. They would soon, however, be outclassed by a new breed of “super dreadnoughts”, the subject of the second volume in this two-part story. While these new battleships carried larger 13.5-inch guns, they proved less successful as all-round battleships than their more lightly-armed predecessors. One last 12-inch gun dreadnought entered service in 1914, when a seven turret battleship being built for the Turks was commandeered by the Royal Navy, and re-named HMS Agincourt. This New Vanguard title, the first of two covering these famous warships will uncover the full story of the British battleships of World War I. The book will look at their revolutionary design, the 12-inch guns that provided them with their firepower, and the way these guns were fired in anger.

Sovereigns of the Sea Angus Konstam, 2008-08-11 Savor the story of the ultimate warship in *Sovereigns of the Sea: The Quest to Build the Perfect Renaissance Battleship*, which chronicles the history of Sovereign of the Seas, an immensely powerful floating fortress. You will enjoy this gripping tale of an arms race that created and ruined empires, changed the map of the world, and led Europe out of the Renaissance and into the Modern age. Understand how the Sovereign of the Seas became the model for a whole new generation of warships that would dominate naval warfare until the advent of steam power.

Mortal Qiu LinDiDai, 2020-04-01 One flower and one world, the universe is also dust; there is no connection between the real and the false; one thought is eternal, one thought is eternal; the Dao is the Dao, the heavens are like the heavens, I have no heaven; the heavens and the heavens are like the heavens, I have no heaven, I am also the Dao. Truth and falsehood, presence or absence, truth or falsehood, these were just telepathic thoughts transformations! With a single thought, he gave birth to a world with the universe in his heart; the Mystery Granny Sect opened its doors wide to welcome him into the mortal world; he stepped through the myriad universe and lived his life in billions of worlds; life and death was the path, life and death was the way, the pots and pans were as big as the sky; the fusion of purple qi required two parts, the heaven and earth for three members, and the four phenomena were sometimes even more so, the completion of the five elements! This story is purely fictitious, the plot is not duplicated, if there is the same story, it is pure coincidence; the names of the

characters are all in the same voice, such as Mo Gao (Ghost Catcher), etc., if there is a pure coincidence of the same name! Close]

Pirate Killers Graham A. Thomas,2011-10-05 One hundred and fifty years ago the Royal Navy fought a daring campaign against ruthless pirates and won, killing The King of the Pirates, Bartholomew Roberts off the coast of Africa and capturing his fleet. Scores of his men were executed by the Admiralty Court. On the Barbary Coast of North Africa pirates preyed on shipping in the Mediterranean and the Atlantic as they had done for centuries and they terrorized the populations of the coastal towns. To them, piracy was a way of life, and the great sea-powers of the day couldn't stop them. Then, in one of the most remarkable and neglected anti-piracy operations in maritime history, the Royal Navy confronted them, defeated them and made the seas safe for trade. This is the subject of Graham A. Thomass compelling new study of one of the most pernicious episodes in the history of African piracy. As he tells this compelling story, he uncovers the long tradition of piracy and privateering along the African shore. Vividly he describes attacks not only in the Mediterranean but also on the other side of the continent, along the shores of West Africa and around Madagascar. But perhaps the most telling sections of his narrative concern critical engagements that stand out from the story the daring rescue of the British merchant ship The Three Sisters by HMS Polyphemus in 1848 and the actions of the battleship HMS Prometheus against the Rif pirates a few years later. His account is based on documents held at the National Archives and other original sources. It gives a fascinating inside view into the way in which the Royal Navy responded to the menace of piracy in the nineteenth century.

We Were Pirates Robert D Schultz,James Shell,2009-09-01 A sailor's extraordinary experiences on an American submarine in the Pacific are candidly reported in this eyewitness account of war from

a torpedoman's perspective. Robert Hunt managed to survive twelve consecutive war patrols on the submarine USS Tambor. During the course of the war, Hunt was everywhere that mattered in the Pacific. He stood on the bow of the Tambor as it cruised into Pearl Harbor just days after the devastation of the Japanese air raid, peered through binoculars as his boat shadowed Japanese cruisers at the Battle of Midway, ferried guns and supplies to American guerilla fighters in the Philippines, fired torpedoes that sank vital Japanese shipping, and survived a near-fatal, seventeen-hour depth-charge attack. For "exceptional skill and proficiency at his battle station" Hunt received a commendation from Fleet Admiral Chester W. Nimitz. This WWII torpedoman's account of the war offers the rare perspective of an enlisted seaman that is not available in the more common officer accounts. To capture and recount the progress of the Pacific War through Hunt's eyes coauthors Robert Schultz and James Shell examined the young submariner's war diary, as well as crew letters, photographs, and captains' reports, and they also conducted hours of interviews. Their vivid descriptions of the ways in which sailors dealt with the stress of war while at sea or on liberty show a side of the war that is rarely reported. The fact that Hunt's submarine was the first of a new fleet of World War II boats and the namesake of a significant class adds further value to his remarkable story.

British Battleships 1939-45 (1) Angus Konstam, 2012-12-20 With the outbreak of World War II, Britain's Royal Navy and her fleet of battleships would be at the forefront of her defence. Yet ten of the 12 battleships were already over 20 years old, having served in World War I, and required extensive modifications to allow them to perform a vital service throughout the six long years of conflict. This title offers a comprehensive review of the development of these British battleships from their initial commissioning to their peacetime modifications and wartime service, with detailed descriptions of the effectiveness of the main armament of individual ships. With specially commissioned artwork and a dramatic re-telling of key battleship conflicts, this book will highlight what it was like on board for the sailors who risked their lives on the high seas.

The Bismarck 1941 Angus Konstam, 2011-03-22 The breakout of the German battleship Bismarck into the North Atlantic in May 1941 was one of the most dramatic naval episodes of World War II (1939-1945). It took place at a time when the resources of the Royal Navy were stretched thinly, and the British Home Fleet were hard pressed to counter this powerful German warship, which was vaunted as the most powerful battleship in the world. For nine days she became the most sought-after vessel afloat, as the Home Fleet and Force H, based in Gibraltar, combed the seas in search of her. After days of fruitless searching, the lone German warship was spotted by a reconnaissance aircraft

some 300 miles to the south-west of Ireland. Admiral Tovey, who commanded the Home Fleet from his flagship HMS Rodney ordered his warships to intercept her, and a great naval race began, with the Bismarck speeding towards the safety of the French ports, and the British doing their utmost to stop her. Despite overwhelming odds, with most Home Fleet craft too far away to intercept the German ship's flight to France, the Royal Navy ultimately managed to locate, damage and ultimately sink the great German battleship. In this new addition to Osprey's Campaign series, author Angus Konstam sheds new light on this race-to-the-finish, detailing the original plans, the British efforts to locate and damage the Bismarck, the Bismarck's extensive armor systems and her ultimate defeat in a highly illustrated format.

Taranto 1940 Angus Konstam, 2015-11-20 The Royal Navy's attack on Taranto in 1940 heralded a new age of warfare. It was the decisive moment in a struggle for dominance of the Mediterranean that had gone on for months, as the British and Italian navies both looked to secure maritime supply routes for their colonies. With the enormous demands of a global war beginning to tell, the British capital ships were simply too thinly spread for a large fleet action against Taranto, where the bulk of the Italian fleet lay menacingly. How was the Royal Navy to eliminate the threat of the Regia Marina? This is the story of one of World War II's most devastating raids, recounting how a handful of obsolete Fairey Swordfish biplanes swooped in and destroyed an Italian battleship and badly damaged two more. With expert analysis, detailed colour illustrations and a gripping narrative, this book explains the origins of the attack, its planning and execution, and what happened in the aftermath.

Grand Theft Battleship Douglas Milewski, This is the showdown. The fate of the solar system hangs in the balance. Whoever gets the last battleship wins. The losers get blown to atoms. The Empress commands the solar system, but to win, she needs the keys. The Tomato pirates have the keys, but to win, they need Cherryh. Cherryh doesn't have a body, but she's still got plenty of snark. (There's no keeping Cherryh down.) As for Windy, she's stuck eighty years in the past, with no job

prospects and no references. Can she blend into society, penetrate the Imperial government, and lay the groundwork for victory? With donuts, anything is possible.

North Cape 1943 Angus Konstam,2020-11-26 The German battleship Scharnhorst had a reputation for being a lucky ship. Early in the war she fought off a British battlecruiser and sunk a carrier, before carrying out two successful forays into the Atlantic. In the spring of 1943, the Scharnhorst was redeployed to Norway. There, working in concert with other German warships such as the battleship Tirpitz, she posed a major threat to the Arctic convoys – the Allied sea lifeline to Russia. Her presence, alongside Tirpitz, forced the British to tie down ships in Arctic waters. When Tirpitz was put out of action, and Hitler demanded naval support for the war in Russia, the crew of the Scharnhorst under Rear-Admiral Bey, had to act. In late December 1943, she put to sea, her target an Allied convoy passing through the Barents Sea on its way to Murmansk. Unknown to Bey, the British were using the convoy as bait to draw the Scharnhorst into battle. What followed was a two-day running battle fought in rough seas and near-perpetual darkness, ending with the destruction of the Scharnhorst and all but 36 of her crew, ending any serious German naval threat to the Arctic convoy lifeline. In this illustrated study, leading naval historian Angus Konstam offers a fascinating new insight into this key engagement. He combines expert analysis with his unique knack for storytelling to offer a fascinating new perspective on the battle which sank the Scharnhorst.
