The Woman in the Pith Helmet Jennie Ebeling,Philippe Guillaume,2020-12-01 This volume celebrates the career of Norma Franklin, an archaeologist who has made important contributions to our understanding of the three key cities of Samaria, Megiddo, and Jezreel in the Northern Kingdom of Israel during the Iron Age. The sixteen essays offered herein by Franklin's colleagues in archaeology and biblical studies are a fitting tribute to the woman in the pith helmet: an indomitable field archaeologist who describes herself as happiest with complex stratigraphy and dedicated to killing sacred cows.

flashes and other embellishments. It also contains many period photographs and prototype helmets never put into production. **Pointy Shoes and Pith Helmets** Marianne Hulbosch, 2014-05-12 In Pointy Shoes and Pith Helmets Marianne Hulbosch uses extensive research and firsthand accounts to describe intricate dress and adornment systems of the Ambonese people from the Central Maluku Islands of Indonesia, during the last century of Dutch colonial rule.

Bitters Brad Thomas Parsons, 2011-11-01 Gone are the days when a lonely bottle of Angostura bitters held court behind the bar. A cocktail renaissance has swept across the country, inspiring in bartenders and their thirsty patrons a new fascination with the ingredients, techniques, and traditions that make the American cocktail so special. And few ingredients have as rich a history or serve as fundamental a role in our beverage heritage as bitters. Author and bitters enthusiast Brad Thomas Parsons traces the history of the world's most storied elixir, from its earliest "snake oil" days to its near evaporation after Prohibition to its ascension as a beloved (and at times obsessed-over) ingredient on the contemporary bar scene. Parsons writes from the front lines of the bitters boom, where he has access to the best and boldest new brands and flavors, the most innovative artisanal producers, and insider knowledge of the bitters-making process. Whether you're a professional looking to take your game to the next level or just a DIY-type interested in homemade potables, Bitters has a dozen recipes for customized blends--ranging from Apple to Coffee-Pecan to Root Beer bitters--as well as tips on sourcing ingredients and step-by-step instructions fit for

amateur and seasoned food crafters alike. Also featured are more than seventy cocktail recipes that showcase bitters' diversity and versatility: classics like the Manhattan (if you ever get one without bitters, send it back), old-guard favorites like the Martinez, contemporary drinks from Parsons's own repertoire like the Shady Lane, plus one-of-a-kind libations from the country's most pioneering bartenders. Last but not least, there is a full chapter on cooking with bitters, with a dozen recipes for sweet and savory bitters-infused dishes. Part recipe book, part project guide, part barman's manifesto, *Bitters* is a celebration of good cocktails made well, and of the once-forgotten but blessedly rediscovered virtues of bitters.

**Dr. Livingstone, I Presume?** Clare Pettitt, 2007 Drawing on films, children's books, games, songs, cartoons, and TV shows, this book reveals the many ways our culture has remembered Henry Morton Stanley's iconic phrase, while tracking the birth of an Anglo-American Christian imperialism that still sets the world agenda today.

**The Unlikely Voyage of Jack de Crow** A.J. Mackinnon, 2022-05-31 Truly hilarious books are rare. Even rarer are those based on real events. Join A.J. Mackinnon, your charming and eccentric guide, on an amazing voyage in a boat called Jack de Crow. Equipped with his cheerful optimism and a pith helmet, this Australian Odysseus in a dinghy travels from the borders of North Wales to the Black Sea - 4900 kilometres over salt and fresh water, under sail, at the oars, or at the end of a tow-rope - through twelve countries, 282 locks and numerous trials and adventures, including an encounter with Balkan pirates. Along the way he experiences the kindness of strangers, gets very lost, and perfects the art of slow travel.

*France and "Indochina"* Kathryn Robson, Jennifer Yee, 2005 At the intersection of literary, cultural, and postcolonial studies, this volume looks at French perceptions of Indochina as they are

conveyed through a variety of media including cinema, literature, art, and historical or anthropological writings. The volume is long awaited, as France's memory of Indochina is understudied compared to its relationship with its former colonies in West and North Africa. The book has contemporary urgency as the makeup of France's immigrant population changes and grows to include Vietnamese, Cambodian, and Laotian populations.

The Politically Incorrect Guide to the British Empire H. W. Crocker, 2011-10-24 The British Empire, "the biggest empire in history" once ruled a quarter of the globe. It was built by an incredible array of swashbuckling soldiers and sailors, pirates and adventurers who finally get their due in H. W. Crocker III's panoramic and provocative view of four hundred years of history that will delight and amuse, educate and entertain. Strap on your pith helmet for a rollicking ride through some of history's most colorful events. Bet your teacher never told you: The Founding Fathers didn't rebel against British imperialism; they looked forward to the transfer of the great seat of Empire to America. The original Norman English invasion of Ireland was approved by the pope. Sir Charles Napier, commander in chief of the British Army in India, abolished the Hindu custom of widow-burning. Field Marshal Sir Gerald Templer's hearts and minds counter-insurgency strategy was instrumental in defeating the Communists in Malaya. The breakup of the British Empire led Winston Churchill to conclude that he had achieved nothing in his life.

*Dispelling the Darkness* John Van Wyhe, 2013 The facts of variability, of the struggle for existence, of adaptation to conditions, were notorious enough; but none of us had suspected that the road to the heart of the species problem lay through them, until Darwin and Wallace dispelled the darkness. T H Huxley (1887). Darwin is one of the most famous scientists in history. But he was not alone. Comparatively forgotten, Wallace independently discovered evolution by natural selection in

Southeast Asia. This book is based on the most thorough research ever conducted on Wallace's voyage. Closely connected, but worlds apart, Darwin and Wallace's stories hold many surprises. Did Darwin really keep his theory a secret for twenty years? Did he plagiarise Wallace? Were their theories really the same? How did Wallace hit on the solution, and on which island? This book reveals for the first time the true story of Darwin, Wallace and the discovery that would change our understanding of life on Earth forever.

*Ready for Dessert* David Lebovitz, 2012-09-18 Pastry chef David Lebovitz is known for creating desserts with bold and high-impact flavor, not fussy, complicated presentations. Lucky for us, this translates into showstopping sweets that bakers of all skill levels can master. In *Ready for Dessert*, elegant finales such as Gâteau Victoire, Black Currant Tea Crème Brûlée, and Anise-Orange Ice Cream Profiteroles with Chocolate Sauce are as easy to prepare as comfort foods such as Plum-Blueberry Upside-Down Cake, Creamy Rice Pudding, and Cheesecake Brownies. With his unique brand of humor—and a fondness for desserts with “screaming chocolate intensity”—David serves up a tantalizing array of more than 170 recipes for cakes, pies, tarts, crisps, cobblers, custards, soufflés, puddings, ice creams, sherbets, sorbets, cookies, candies, dessert sauces, fruit preserves, and even homemade liqueurs. His trademark friendly guidance, as well as suggestions, storage advice, flavor variations, and tips will help ensure success every time. Accompanied with stunning photos by award-winning photographer Maren Caruso, this new compilation of David's best recipes to date will inspire you to pull out your sugar bin and get baking or churn up a batch of homemade ice cream. So if you're ready for dessert (and who isn't?), you'll be

happy to have this collection of sweet indulgences on your kitchen shelf—and your guests will be overjoyed, too.

**Tale of Two Lions** Roberto Ransom,2007 From a bold new voice in Spanish fiction comes a sly and endearing novel--a mischievous story of two lions on two different continents, which Ignacio Padilla has declared, the best Mexican literary work I have read in recent years.

**Japanese Special Naval Landing Forces** Gary Nila,Robert A. Rolfe,2011-12-20 The Imperial Japanese Navy's Special Landing Force units enjoyed a reputation out of proportion to their small size. Often wrongly termed "Imperial Marines", they were in fact sailors led by Naval officers, and traced their origins directly to landing parties from warships. Their true combat debut was at Shanghai in 1932; thereafter the SNLF expanded and fought in the assaults that followed Pearl Harbor in 1941, and were dispersed as island garrisons during the Pacific campaigns. This book describes their uniforms and equipment in unprecedented detail, including color photos of original items from private collections.

The Old Martians Rog Phillips,2023-02-28 They opened the ruins to tourists at a dollar a head but they reckoned without The OLD MARTIANS. The man with the pith helmet had his back toward me. Hunched forward, he was screaming at the girl in the lens of his camera. "Don't just stand there, Dotty! Move! Do something! Back up toward that column with inscriptions on it...."
