Planetary Assault B. Larson, Vaughn Heppner, David VanDyke, 2013-11-04 Sometimes defending those you love means risking everything and attempting the most dangerous task in the universe—making a planetary assault against a heavily entrenched enemy. It's grim and always ugly. But as long as men refuse to bow their heads to conquerors, they will take the fight to the enemy or die trying. Three masters of military science fiction have come together to tell harrowing tales of high-tech mayhem. In B. V. Larson's *An Army of One* the Macros of the Star Force series invade from the skies, forcing a nanotized assassin into a deadly decision. David VanDyke's *First Conquest* tells of a bitter battle as EarthFleet smashes into an alien star system in a desperate first strike to save humanity. Vaughn Heppner's *Space Marines of the Doom Star* series race to the Oort Cloud in Cyborgs! For them, the hour of desperation has arrived. *Planetary Assault* drips of glorious victories and grim defeats as humanity forces its way into the galaxy through sheer fighting ability. Despite their opponents, mankind will not be denied.

Solving The Equation of Love: A Manic Imagination [Equation Of Humanity Book 1] Eric J. Chou, 2023-08-25 This book is the 1st compendium of my life story and work. I have lived experience of bipolar 1, and a vision disability, and that informs everything I've done. Looking back at the past decade of my life, and all I've accomplished to date, I can see it all in perfect focus, and I can see the guiding will of God moving through my life, bringing me through my relationships, and setting me on the paths I've not just walked, but the paths I've paved. I've organized and build communities 150+ members strong I've built a company and game project off of the fuel of passion alone. I've not just influenced but have literally saved lives. I've done research summarizing and highlighting my findings, so others can carry on the legacy of Honor I've started The journey has been long, and it's been hard, but as I write this, I'm beginning a new chapter of my life, and I couldn't be humbler and prouder. This book includes all the people, communities and projects I care about, and what has shaped me into the man, leader, and founder I am today. I hope this lived experience of Bipolar 1 helps break the stigma shrouding mental health, both in general, and specifically in the creative industries I've been privileged to be a part of. I wish to continue a dialog on these subjects, and show that Mental health issues are indeed double-edged swords that are core to who we are. This book contains select documents of snap shots in time of my Tiberium Secrets mod, a passion project that looks to the future of the Command & Conquer video game franchise. This book contains a new theory and model of mental health that is called "The PPF Model" = The Past Present and Future model, which aims to ground mental health discussions in common understandable terms. Thanks to all the unsung heroes in my life, I would not be who I am without all of you. It's time for a new challenge. The Future is Bright!

Mars Station Mission. 2057-2061 AD. Archeologist Genesis. Gregory Alan McKown, Welcome to the future. Here is a story that started with the time of Noah; and is what could not be discerned except by archeologist uncovering the ancient story. It is not told as such; because the various religious communities would not allow the TRUTH TO BE TOLD. This goes into past generations and surpasses even our own generation into the future; and we all stand in the shadow of history ignorant of the reality when the truth of evidence is staring you straight in the face. It is an ancient society that has the patience to live in a distance from mankind; while the story of our own identity becomes a struggle listed in my other work; with the outcome waiting for the revealing of alien life that was our progenitors on Earth. The surprising revelation of this story that is yet to be fulfilled; could just as well be the prophecy of Nostradamus explained before the events are to happen in time.
