Martial: Select Epigrams Martial,Lindsay Watson,2003-06-05 Despite his enduring popularity, Martial has recently suffered from serious critical neglect. The present work is the first edition of selections from Martial to be published for decades, and includes a fully representative selection of the oeuvre of the poet, who has often been criticised, unfairly, the authors argue, for obscenity and flattery of the Emperor Domitian. The epigrams included in the selection are organised under various heads, e.g. Martial and poetry, sexual mores, satirical pieces. A very full introduction deals with such topics as the prejudices and predilections of his audience which conditioned Martial's choice of subject matter, Martial's language, the structure and style of the epigrams, the epigrammatic tradition and Martial's creative engagement with it. The detailed commentary is suitable for use with undergraduates and is distinguished by its focus on social history as well as literary interpretation.

Alle pendici dei Colli Albani / On the slopes of the Alban Hills Agnese Livia Fischetti,Peter Attema,2019-06-01 This volume results from the conference Between Appia and Latina, Settlement Dynamics and Territorial Development on the Slopes of the Alban Hills, held at the Royal Dutch Institute at Rome (KNIR) in February, 2017. It contains 23 methodological, thematic and material culture studies on the historical topographical reconstruction of the Alban Hills in Antiquity with a focus on the area of contact with the suburbium of Rome. Papers present both data from new research and results of research done in the past. In the initiative a range of research institutions partook (foreign Institutes at Rome, Universities, Archaeological Services) and independent researchers stimulating the exchange of current knowledge of this small, but important part of the Campagna Romana.

A Prosopography to Martial's Epigrams Rosario Moreno Soldevila,Alberto Marina Castillo,Juan Fernández Valverde,2019-02-19 A Prosopography to Martial's Epigrams is the first dictionary of all the characters and personal names found in the work of Marcus Valerius Martialis, containing nearly 1,000 comprehensive entries. Each of them compiles and analyses all the relevant information regarding the characters themselves, as well as the literary implications of their presence in Martial's poems. Unlike other works of this kind, the book encompasses not only real people, whose positive existence is beyond doubt, but also fictional characters invented by the poet or inherited from the cultural and literary tradition. Its entries provide the passages of the epigrams where the respective characters appear; the general category to which they belong; the full name (in the case of historical characters); onomastic information, especially about frequency, meaning, and etymology; other literary or epigraphical sources; a prosopographical sketch; a discussion of relevant manuscript variants; and a bibliography. Much attention is paid to the literary portrayal of each character and the poetic usages of their names. This reference work is a much needed tool and is intended as a stimulus for further research.

Greek and Roman Slavery Eftychia Bathrellou,Kostas Vlassopoulos,2022-05-03 Greek and Roman Slavery Slavery was foundational to Greek and Roman societies, affecting nearly all of their economic, social, political, and cultural practices. Greek and Roman Slavery offers a rich collection of literary, epigraphic, papyrological, and archaeological sources, including many unfamiliar ones. This sourcebook ranges chronologically from the archaic period to late antiquity, covering the whole of the Mediterranean, the Near East, and temperate Europe. Readers will find an interactive and user-friendly engagement with past scholarship and new research agendas that focuses particularly on the agency of ancient slaves, the processes in which slavery was inscribed, the changing history of slavery in antiquity, and the comparative study of ancient slavery. Perfect for undergraduate and graduate students taking courses on ancient slavery, as well as courses on slavery more generally, this sourcebook's questions, cross-references, and bibliographies encourage an analytical and interactive approach to the various economic, social, and political processes and contexts in which slavery was employed while acknowledging the agency of enslaved persons.

Women and Society in the Roman World Emily A. Hemelrijk,2020-10-31 By their social and material context as markers of graves, dedications and public signs of honour, inscriptions offer a distinct perspective on the social lives, occupations, family belonging, mobility, ethnicity, religious affiliations, public honour and legal status of Roman women ranging from slaves and freedwomen to women of the elite and the imperial family, both in Rome and in Italian and provincial towns. They thus shed light on women who are largely overlooked by the literary sources. The wide range of inscriptions and graffiti included in this book show women participating not only in their families and households but also in the social and professional life of their cities. Moreover, they offer us a glimpse of women's own voices. Marital ideals and problems, love and hate, friendship, birth and bereavement, joy and hardship all figure in inscriptions, revealing some of the richness and variety of life in the ancient world.

Roman Tombs and the Art of Commemoration Barbara Borg,2019-04-18 Explores four key questions around Roman funerary customs that change our view of the society and its values.
