**Dodge Dynamite!** Peter Grist,2015-01-29 Since the 1950s, Dodge has produced a series of charismatic performance cars that have given the company a unique reputation among American car makers. The original Charger and Challenger and the more recent Viper and Caliber SRT are outstanding examples of the company's commitment to cars of high performance and aggressive styling. Peter Grist's pictorial history of these typically American machines gives a fascinating insight into their ancestry and evolution and celebrates the huge impact they have made on the road and on the track. His account is an exciting introduction that will appeal to everyone who is interested in American automobile history. When the first Dodge performance cars were conceived in the early 1950s, they were a brave step for a company that was well known for its dependable saloons and pickups. Peter Grist describes this change of direction and the radical new thinking that resulted in the creation of the innovative Dodge Hemi V8 of 1953. This remarkable engine provided the power for the first sporting Dodges and led to the race-bred D-500 series of 1956, the first Dodge Muscle car. But Dodge's reputation for creating big, potent, sporting cars was really consolidated in the 1960s and early 1970s the muscle-car era when the Dart, Charger and Challenger were so successful on the road, the race track and drag strip. The book features these historic cars and the drivers who have

raised Dodge to a pre-eminent position over the last 50 years. Featuring illustrations of Dodge's styling experiments and concept cars, which had such a strong effect on their production models, from the first Dodge concept the 1954 Firearrow up to the most recent Challenger and Hornet. The book brings together an evocative collection of over 200 photographs and adverts that offer a unique look at ALL of Dodge's fast cars in one book. This is an entertaining and informative guide to the Dodge tradition which will be essential reading for Dodge enthusiasts and for everyone who enjoys their cars at full speed.

**Old Plymouth Trails** Winthrop Packard, 1920

**The Legend of the Dysartsville Plymouth** Jim Owens, 2018-04-06 This book is about the times of growing up in the fifties as a baby boomer, living on a farm, and then moving to town, becoming a teenager, witnessing the growing pains of post-WWII America, and the turbulence of the Vietnam War and its consequences on American society. This book has romance and adventure, from cruising around town to actual accounts of the things that

happened during that era that have diminished over time—sock hops, car hops, the county fair, the beginning of Rock N Roll from Elvis to the British Invasion, to men landing on the moon, to America's march to the new drumbeat for freedom and equality for all, and the street drag racing scene of teenage America. This book puts the spotlight on the late sixties, which were the times that I call magical.

### **The Illustrated Book of Classic & Dream Cars**

Martin Buckley, Chris Rees, 2001

**Slingshot Warbirds** William Neufeld, 2003-01-27 A unique and little-known chapter in World War II naval aviation history concerns the exploits of the scout-observation pilots who flew from the battleships and cruisers of the U.S. Navy. To carry out their missions, they were launched from their ships by catapult. On returning, their float-equipped aircraft landed on the water and the plane and crew were crane-hoisted aboard the vessel. In compiling this work, the author culled from the naval archives many of the ships' action reports and war diaries that detail the accounts of these airmen. In addition he meticulously edited the personal records of 27 veteran airmen who related stories of intense and excruciatingly difficult missions.

*Dream Wheels* Chris Rees, 2000 From the sensational Chevrolet Corvette to the stream-lined Toyota Celica, here is the ultimate history of classic cars manufactured since 1975, plus those dream and futuristic cars that were

marvels of car design but never made it into production. This comprehensive visual reference shows every important marque from A-Z, highlighting some of the most significant and beautiful cars of the century. Detailed descriptions, history and technical information accompany every entry, making this the most authoritative and comprehensive guide to the contemporary classic car. This book also highlights the world's dream cars that were built as showcases but were never actually mass-produced. From major design houses such as Bertone and Ghia, these cars are at the very cutting edge of car design: futuristic models that were deemed too daring, too brash or too expensive to make commercial sense, but which pay tribute to the imagination and drive of car designers today. With over 800 stunning images, this title is the definitive gallery of classic and dream cars and the decisive reference book for every enthusiast and lover of the automobile.

**Plymouth's Air Rifle Industry** Elizabeth Kelley Kerstens, 2013-10-07 In the late 19th century, the Rockwellian city of Plymouth, Michigan, became the breeding ground for competitive air-rifle companies, putting this still-thriving suburban Detroit community on the map. Plymouth's Air Rifle Industry hones in on the three air-rifle companies and the spin-off .22-caliber rifle company that dominated the Plymouth landscape for years. William Philip Markham and his company, the Markham Air Rifle Company, first received an air-rifle patent in 1887. The Plymouth Iron Windmill Company entered the competition in 1888, when founder Clarence Hamilton introduced his prototype to the board of directors. After firing the rifle, general manager Lewis Cass Hough declared, Boy, that's a Daisy, and the Daisy air rifle was born; the company was renamed in 1895. The Plymouth Air Rifle Company opened in 1888 and ceased to exist after its building burned in 1894. Hamilton went on to develop a .22-caliber rifle and started the Hamilton Manufacturing Company in 1898. The rifle era ended when the last of the competitors, Daisy, moved to Rogers, Arkansas, in 1958.
