Woman No. 17 Edan Lepucki,2018-02-13 Washington Post Best Books of 2017 New York Times bestselling author Edan Lepucki's *Woman No. 17* is a winning novel." — New York Times Book Review High in the Hollywood Hills, writer Lady Daniels has decided to take a break from her husband. Left alone with her children, she's going to need a hand taking care of her young son if she's ever going to finish her memoir. In response to a Craigslist ad, S arrives, a magnetic young artist who will live in the secluded guest house out back, care for Lady's toddler, Devin, and keep a watchful eye on her older, teenage son, Seth. S performs her day job beautifully, quickly drawing the entire family into her orbit, and becoming a confidante for Lady. But in the heat of the summer, S's connection to Lady's older son takes a disturbing, and possibly destructive, turn. And as Lady and S move closer to one another, the glossy veneer of Lady's privileged life begins to crack, threatening to expose old secrets that she has been keeping from her family. Meanwhile, S is protecting secrets of her own, about her real motivation for taking the job. S and Lady are both playing a careful game, and every move they make endangers the things they hold most dear. Darkly comic, twisty and tense, this mesmerizing new novel defies expectation and proves Edan Lepucki to be one of the most talented and exciting voices of her generation.

Stalag 17 Billy Wilder,1999-06-24 A facsimile edition of the screenplay of Billy Wilder's film set in an Austrian prisoner of war camp. With a new introduction by biographer Jeffrey Meyers.

The Commodore (Vol. Book 17) (Aubrey/Maturin Novels) Patrick O'Brian,2011-12-05 The seventeenth novel in the best-selling Aubrey/Maturin series of naval tales, which the New York Times Book Review has described as the best historical novels ever written. Having survived a long and desperate adventure in the Great South Sea, Captain Jack Aubrey and Stephen Maturin return to England to very different circumstances. For Jack it is a happy homecoming, at least initially, but for Stephen it is disastrous: his little daughter appears to be autistic, incapable of speech or contact, while his wife, Diana, unable to bear this situation, has disappeared, her house being looked after by the widowed Clarissa Oakes. Much of *The Commodore* takes place on land, in sitting rooms and in drafty castles, but the roar of the great guns is never far from our hearing. Aubrey and Maturin are sent on a bizarre decoy mission to the fever-ridden lagoons of the Gulf of Guinea to suppress the slave trade. But their ultimate destination is Ireland, where the French are mounting an invasion that will test Aubrey's seamanship and Maturin's resourcefulness as a secret intelligence agent. The subtle interweaving of these disparate themes is an achievement of pure storytelling by one of our greatest living novelists.

The Distance Between Us Reyna Grande,2012-08-28 In this inspirational and unflinchingly honest memoir, acclaimed author Reyna Grande describes her childhood torn between the United States and Mexico, and shines a light on the experiences, fears, and hopes of those who choose to make the harrowing journey across the border. Reyna Grande vividly brings to life her tumultuous early years in this "compelling...unvarnished, resonant" (BookPage) story of a childhood spent torn between two parents and two countries. As her parents make the dangerous trek across the Mexican border to "El Otro Lado" (The Other Side) in pursuit of the American dream, Reyna and her siblings are forced into the already overburdened household of their stern grandmother. When their mother at last returns, Reyna prepares for her own journey to "El Otro Lado" to live with the man who has haunted her imagination for years, her long-absent father. Funny, heartbreaking, and lyrical, *The Distance Between Us* poignantly captures the confusion and contradictions of childhood, reminding us that the joys and sorrows we experience are imprinted on the heart forever, calling out to us of those places we first called home. Also available in Spanish as *La distancia entre nosotros*.

Boeing B-17 - Flying Fortress Mantelli - Brown - Kittel - Graf, 2014-12-04 New revised edition, updated and expanded. The Boeing B-17 Flying Fortress, which was used by the US Air Force for the duration of World War II, is perhaps the most famous device used by the Americans in the war. The B-17 was designed in 1934 as a response to a request made in May by the US Air Corps for a unit that had to meet these requirements: multi-engine, capable of carrying at least 2,000 pounds (907 kg) of bombs on a minimum distance of 1,020 miles (1,640 km) at a speed of 200 miles/h (320 km/h) and beyond. Although Boeing was working drawings of another, more heavy bomber, the model 294 or XB 15, the design and implementation of new aircraft proceeded rapidly and the prototype model 299, as it was called by Boeing, rose for the first time in flight in July 1935. This prototype is sometimes called, erroneously, XB-17. Power was provided by four radial engines Pratt & Whitney R-1690 Hornet that erogavano 750 HP each; The defensive armament consisted of five machine guns single 0.30 inch (7.62 mm), while the offensive load could reach 4,800 pounds (2,177 kg). Although the prototype was destroyed in an accident, his performance was so encouraging that the USAAC ordered the construction of 14 YB-17, later renamed Y1B-17. The first of this group was delivered in December 1936 and was equipped with radial engines Wright GR 1820 of 930 HP. The first 13 aircraft of this group were all the same, while the fourteenth was the only Y1B-17A, equipped with turbo-superchargers for engines, which allowed to reach a maximum speed of 311 miles/h (500 km/h) and a maximum altitude of operation of 30,000 feet (9,144 m); these variants were then incorporated into all models B-17 that followed.

MiG-17 and MiG-19 Units of the Vietnam War István Tópercz, 2012-11-20 The erstwhile enemy of the USAF and US Navy during the nine years of American involvement in the Vietnam War, the Vietnamese Peoples' Air Force (VPAF) quickly grew from an ill-organised rabble of poorly trained pilots flying antiquated communist aircraft into a highly effective fighting force that more than held its own over the skies of North Vietnam. Flying Soviet fighters like the MiG-17, and -19, the VPAF produced over a dozen aces, whilst the Americans managed just two pilots and three navigators in the same period.

Automated Deduction - CADE-17 David McAllester, 2006-12-30 For the past 25 years the CADE conference has been the major forum for the presentation of new results in automated deduction. This volume contains the papers and system descriptions selected for the 17th International Conference on Automated Deduction, CADE-17, held June 17-20, 2000, at Carnegie Mellon University, Pittsburgh, Pennsylvania (USA). Fifty-three research papers and twenty system descriptions were submitted by researchers from fifteen countries. Each submission was reviewed by at least three reviewers. Twenty-four research papers and fifteen system descriptions were accepted. The accepted papers cover a variety of topics related to theorem proving and its applications such as proof carrying code, cryptographic protocol verification, model checking, cooperating decision procedures, program verification, and resolution theorem proving. The program also included three invited lectures: "High-level verification using theorem proving and formalized mathematics" by John Harrison, "Scalable Knowledge Representation and Reasoning Systems" by Henry Kautz, and "Connecting Bits with Floating-Point Numbers: Model Checking and Theorem Proving in Practice" by Carl Seger. Abstracts or full papers of these talks are included in this volume. In addition to the accepted papers, system descriptions, and invited talks, this volume contains one page summaries of four tutorials and seven

workshops held in conjunction with CADE-17.

170 NMR Spectroscopy in Organic Chemistry David W. Boykin, 2020-08-26 This book provides a comprehensive review of the application of 170 NMR spectroscopy to organic chemistry. Topics include the theoretical aspects of chemical shift, quadrupolar and J coupling; 17O enrichment; the effect of steric interactions on 17O chemical shifts of functional groups in flexible and rigid systems; the application of 17O NMR spectroscopy to hydrogen bonding investigations; mechanistic problems in organic and bioorganic chemistry; and 17O NMR spectroscopy of oxygen monocoordinated to carbon in alcohols, ethers, and derivatives. Recent results that show correlations between molecular geometry, determined by X-ray studies and estimated by molecular mechanics calculations, and 17O chemical shifts are also covered. 17O Spectroscopy in Organic Chemistry provides important reference information for organic chemists and other scientists interested in 17O NMR spectroscopy as a tool for obtaining new structural and chemical data about organic molecules.

Aces of Jagdstaffel 17 Greg VanWyngarden, 2013-11-20 Initially formed to assist in the defence of the city of Metz against French bombing raids, Royal Prussian Jagdstaffel 17 would go on to become one of the most distinguish German fighter units of World War 1. Its first victory was scored by the pilot whose story is inextricably interwoven with that of his unit – the 'Blue Max' recipient Julius Buckler. He was largely responsible for inspiring the unit's unique Esprit de Corps, expressed in its famous and unique 'battle-cry' of 'Malaula!' Indeed, in its final days the unit gained the nickname Zirkus Buckler, or the 'Buckler Circus'. Besides Buckler, Jasta 17 boasted such aces as Karl Strasser, Alfred Fleischer and Christian Donhauser. In addition, the roster included colourful characters like the successful Jewish airman Jakob Wolff, who at over 48 years of age was the oldest German fighter pilot of the war. The story of this illustrious unit is told with many first-hand accounts by Buckler, Fleischer and others, as well as dozens of rare archival photos of the unit's beautifully decorated fighter aircraft.

A History Of The B-17 Flying Fortress in Over 400 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII, 2015-08-01 PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7, 1941 and September 15, 1945. It is designed as a companion reference to the seven-volume history of The Army Air Forces in World War II, edited by Wesley Frank Craven and James Lea Cate. The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F. Simpson Historical Research Center. Such an effort has demanded certain changes in established historical methodology, as well as some arbitrary rules for presentation of the results. After International and US events, entries are arranged geographically. They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world, using the location of the headquarters of the numbered air forces as the basis for placement. For this reason, entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force. When that headquarters moves to England in October 1943, the entries are shifted to follow Eighth Air Force. The entries end with those numbered air forces which remained in the Zone of the Interior, as well as units originally activated in the ZI, then designated for later movement overseas, such as Ninth and Tenth Air Forces. The ZI entries do not include Eighth and Twentieth Air Forces, which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified. For these two units, original actions are shown either under AAF or in their intended geographic area of location. All times and dates used are those of the area under discussion. The entry 1/2 Jun indicates that an event occurred during the night between the two given dates, while 1-2 Jun indicates an action over a period of time. In dealing with people, again arbitrary decisions were implemented. For

military men below the general officer or equivalent level, full grade and name were used. For general officers and those of equal grade in other US and foreign services, the complete rank (both that at the time first mentioned and the highest rank held prior to the end of the war) and name will be found in the index. Only an abbreviated rank (e.g., Gen or Adm) and last name are used in the text. The exception is where two general officers had the same last name; in such cases, the first name is also included. Similarly for civilian leaders, only the last name is used; full name and title are given in the index. Location of all towns, islands, etc., is also made in the index. In all cases, attempts were made to cite place names in use by the native population at the time of or immediately before the war. No names imposed by a conqueror are used. For example Pylos Bay, not Navarino Bay, is used. Further, as appropriate, native geographic terms are used: Shima for island in Japanese island groups, See for lake in Germany. However, two exceptions were made. In cases in which the place became infamous because of the actions of the conquering power, that name is preferred—for example Auschwitz would be used rather than the Polish name of Oswiecim. Also, in larger international cities, such as Roma, Koln and Wien, the anglicized name is used. Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area, the coordinates are given in the index. In some cases, with no extant navigational aids of the attacking force, the best possible guess was made based upon all available evidence. In other instances, such as the bridge at Hay-ti-attacked so often by Tenth Air Force-- a logical guess could not be made. In these cases, a question mark is placed in brackets after the index entry. Accent marks, such as umlauts, were omitted.
