Porsche 917 X17 Jeffrey R. Zwart, 2009 Forty years after its 1969 debut, racing fans still regard the Porsche 917 with awe as one of the greatest sports cars ever built. In *PORSCHE 917 X 17: THE CARS AND DRIVERS IN STUDIO*, renowned automotive photographer and director Jeff Zwart follows up his award-winning book, 'Porsche Rennsport', with exquisitely rendered images of 17 of the most beautiful and historic 917s. Highlights include the first Porsche to win Le Mans overall, the 917K shared by Richard Attwood and Hans Hermann; the Gulf-Wyer 917K shared by Pedro Rodriguez and Jackie Oliver in 1971; and the notorious Pink Pig - a 917/20 that was raced just once by Willi Kauhsen in 1971. Using dramatic angles and controlled lighting, Zwart provides a fresh perspective on these iconic cars. He reveals each 917's distinctive characteristics and patina, and shows artful technical details from inside the cockpit, chassis, and engine compartments. These photographs are accompanied by engaging portraits and vivid recollections from 15 Porsche drivers - including Derek Bell, Vic Elford, Brian Redman, and Hurley Haywood - who look back on the anticipation, fear, and excitement they felt driving the 917. With its heavy matte art paper, spot varnish, metallic silver ink, and cloth-covered slipcase, the book's high-quality production is as lavish as Zwart's photography. Of all the recently published 917 books this one stands alone in offering Porscheophiles an all-new take on the cars and drivers.

*Porsche 917* Gordon Wingrove, 2006-12-01 Hailed by many as the greatest racing car of all time, the 917's story is packed with superlatives. It began with an incredible display of 25 complete cars to achieve homologation in 1969. The following year, the 917 gave Porsche its first-ever win at Le Mans and repeated the result in 1971. Meanwhile, the factory-backed JW Automotive 917s captured the World Championship of Makes for Porsche in both years. Gordon Wingrove worked for JW Automotive during the 917 years and saw first hand what made these cars so special. In a book that sparkles with personal experience, he combines substantial contributions by the Porsche engineers who created the car with his own incisive understanding, to produce a remarkable technical appraisal. Every aspect of the design and development of the 917 is considered, from its innovation and ruthless pursuit of performance, to the teamwork and inspirational leadership that produced such startling results. Endurance racing was never the same again after the 917 - this book demonstrates why!

**Porsche 917** Ian Wagstaff, 2015-06-01 This magnificent book tells the story of the most important Porsche 917 of all - the one that gave Porsche its first victory in the Le Mans 24 Hours. In 1970, the world's greatest sports car race was ravaged by periods of torrential rain, but through it all came 917-023, driven by Hans Herrmann and Richard Attwood. They achieved a landmark success for the German manufacturer. This book provides detailed insight into not only this race, but the six other races 917-023 competed in. Supported by a superb collection of period photographs, many in color, all Porsche fans will love this addition to the "Great Cars" series.

**Porsche 917** Peter Morgan, 1999 After the 917 broke Porsche's 19-year drought at Le Mans in 1970, it went on to win the Can-Am Series two years running. Porsche expert Peter Morgan gained unprecedented access to Porsche records and 917 engineers and drivers to bring enthusiasts the story of this

legendary race car in full-color. Detailed are the rivalry between Ferry Porsche's sons and his nephew, Ferdinand Piech, who spearheaded the development of the 917. Engineers describe the development of turbochargers for auto racing, while drivers like Dickie Attwood, Hans Herrmann, and Derek Bell chronicle the 917's brilliant motorsport career.

Porsche 917 and Its Racing Record Colin Pitt, 2007-11-01 This 70 page book describes the development and successes of the Porsche 917 sports car, including Le Mans, and the Spa and Austrian 1000KMS. Also included are cutaway drawings of the 917 and engine details.

Porsche 917 , 2006-11-24 After knocking on the door for decades, Germany's Porsche finally stepped into the big time of international auto racing with its Type 917 in 1969. Its phenomenal air-cooled flat-12 engine powered the 917 to 15 wins in world sports-car championship races from 1969 to 1971, after which it was outlawed by a rules change. Included were two wins at Le Mans in 1970 and '71. First built in a series of 25 coupes that Volkswagen chief Ferdinand Piech called the biggest risk he's ever taken in business, the 917 was raced in both short- and long-tailed forms, pumping out 630 bhp by 1971. It went on to even greater glory in turbocharged roadster form in Can-Am racing as the 917/10, series champion in 1972. In '73 the incredible 1,000-horsepower 917/30 Porsche dominated the Can-Am series in the hands of Mark Donohue, who called it the perfect racing car. The 917 stands proud in Porsche's history as the costly and daring machine that decisively ended the company's underdog status in international motor sport.

**Porsche 917** Glen Smale, 2009 The story of the Porsche's development of the 917 is a rich account of how a small but dedicated band of engineers undertook to produce a race car that went on to set records that to this day have not been bettered. Designed to win the world-famous Le Mans 24 Hours race, Porsche finally stepped into the big time of international auto racing with its Type 917 in 1969. Its phenomenal air-cooled flat-12 engine powered the 917 to 15 wins in world sports-car championship races from 1969 to 1971 including two wins at Le Mans in 1970 and 71, after which it was outlawed by a rules change. First built in a series of 25 coupes that Volkswagen chief Ferdinand Piech called the biggest risk he's ever taken in business, the 917 was raced in both short- and long-tailed forms. Today the Porsche 917 is recognized as the car that ended Porsche's underdog status in international motor sport.

Porsche 917 Owners' Workshop Manual 1969 onwards (all models) Ian Wagstaff, 2015-12-15 Today, the Porsche 917 is one of the most sought-after and revered classic sports-racing cars of all time. This manual provides a fascinating insight into the design, evolution, operation, maintenance and restoration of the Porsche 917.

*The Fabulous Porsche 917* Peter Hinsdale, 1976-01-01

**Porsche 917** Walter Näher, 2014 There is a reason why it is known as racing car of the century: the Porsche 917. From 1969 to 1975 this unique racing car seemed to have a standing order to take first place in the world championships and in Le Mans. Ferdinand Piëch's preface is the prelude to a book that, unlike any other book written about the Porsche 917, is based on factory documents only. As a you engineer, author Walter Näher was involved in the development of the Porsche 917 and serviced it in many races. His expert knowledge of this car enabled him to write the ultimate book about the Porsche 917 - a documentary that gives detailed descriptions of developments

and test drives, and comprises the race reports as well. Many previously unpublished photos from the Porsche archive enhance this comprehensive and detailed book which, in the second part, minutely presents the story of each of the 64 Porsches 917 that were built. When in 1973 a Porsche 917 wins the Can-Am series for the second time, the Americans change the regulations - which leads to the disqualification of the Porsche 917 and thus to the end of a one time winning streak. This book is a must-have for Porsche 917 enthusiasts.

*Porsche 917 - 935 - 956 - 962 Sports Racers Gold Portfolio* ,2007-02-01

During the mid-1960s Porsche decided that if it was to enjoy outright success at Le Mans (rather than class wins) it would need a car somewhat larger and more powerful than those it already had. It was time for something completely different. It was time for the Type 917. Mid-engined like so many earlier Porsches, it had a 12-cylinder air-cooled boxer engine that produced 580 bhp from 4.5 liters when first announced in 1969. After a period of development in 1970, the 917 became almost unbeatable, winning at Le Mans and virtually every other circuit. By 1972 the 917 was enjoying success in the hugely popular Can-Am series in America with a turbocharged 5.0 liter engine of 950 bhp and later a 5.4 liter unit that produced over 1,000 bhp! The hero driver was usually the late Mark Donohue. Later came the 935, 956, and the evergreen 962 that enjoyed a race-winning life of many years, way beyond the normal two or three years.
