Paul J. Salamoff

Power of the Dog Les Krantz,2009-08-18 Power of the Dog relates up-to-date scientific findings in canine research, and reveals how dogs perform extraordinary feats that even 21st-century technology cannot duplicate, from predicting earthquakes to detecting cancer and low blood sugar.

Empowerment Training for Your Power Dog Dawn Antoniak-Mitchell,2019-03-27 In her latest book, Dawn Antoniak-Mitchell turns to the subject of managing and training what she labels "Power Dogs." This grouping includes dozens of breeds who were originally bred to hunt game or to protect people and their property, many of whom were also employed as fighting dogs. These are physically strong dogs relative to their size, usually with a mix of ancient Mastiff and Bulldog ancestry, and some have more recently been bred to Terriers as well. These dogs tend to be protective, tenacious, and often exhibit aggression toward other dogs, but at the same time are playful, energetic and smart.

Fallout Erwan Lafleurriel,2019-06-21 The year was 1997 and Fallout: A Post Nuclear Role Playing Game had just been released by Interplay. This book looks back at the entire Fallout saga, tells the story of the series' birth, retraces its history and deciphers its mechanics. The perfect book to discover and understand the origins of Fallout, with the saga's genesis and the decryption of each of his episodes ! EXTRACT The intro music and the end credits were the final main components of this hybrid post-apocalyptic/50s ambiance. Initially, Brian Fargo wanted to signal Fallout's inspiration with Warriors of the Wasteland, by Frankie Goes to Hollywood, but when he heard The Ink Spots, he changed his mind and loved the result. The first choice was I Don't Want To Set The World On Fire by this group of crooners from the 1930s/40s, but unfortunately the high cost made it impossible to acquire the rights. But while browsing an extensive list of tracks from the era, the team found that Maybe, by the same group, had almost the same sound-with the added bonus of being cheap! The lyrics are about a break-up, from the point of view of the person being left behind: Maybe you'll think of me when you are all alone/ Then maybe you'll ask me to come back again. Leonard Boyarsky notes that, It worked with the intro [and the ending], referring to the ending with the betrayal and lonely exile of Fallout's hero. It felt like it was this genius plan we had [...] but it was only later that we decided to kick [the player] out of the Vault. I feel like this is a metaphor for the whole game: it looks like we had a better picture in mind than we did, it just came out of the things we were doing.

The Ruined Clouds Jason Keeley,2018 In the Dead Suns Adventure Path, the players take on the roles of members of the Starfinder Society, a loose association of scholars and adventurers who travel the galaxy uncovering the secrets of the past. When a fragment of an ancient alien superweapon surfaces in the depths of hyperspace, its discovery sets off a race to find the extraterrestrial doomsday device. Hopping from planet to planet in both the civilized Pact Worlds and beyond, the heroes must contend with both the undead Corpse Fleet and the nihilistic Cult of the Devourer, each of which seeks to acquire the alien artifact for its own purposes. Can the heroes find and destroy the superweapon before their enemies seize control of it, or will the Pact Worlds' sun go dark and cold, a harbinger of dead suns across the galaxy?

Universal Decay: Dead Stars Rule Book, Revised, 2nd Edition Jay

Barrell,2013-11-18 Dead Stars is a science fiction horror role-playing game powered by the alternate d20 Universal Decay rules system. Pick a race - from the ever-familiar humans to the amorphous gorbrasch or sleazy helizara - strap on some personal armor and pick up a sliver rifle or get a cerebral computer implant and grab your toolkit. Or both. Then get together with your friends to face a universe of dangers, wonders, opportunities, and quite possibly a messy death. This book contains everything you will need to play or run a game in Dead Stars as well as rules for using the Universal Decay system in alternate genres, incorporating everything from swords and sorcery to vehicle energy weapons, personal armor, nanotechnology and starships.

The Power of the Dog Don Winslow,2005 The seemingly disparate lives of a DEA agent, a drug lord, a call girl, a hit man, and a priest intertwine around a nexus of the drug trade involving the Latin American drug cartels, the American underworld, and the U.S. government.

Armor John Steakley,2020-12-08 The planet is called Banshee. The air is unbreathable, the water is poisonous. It is home to the most implacable enemies that humanity, in all its interstellar expansion, has ever encountered. Body armor has been devised for the commando forces that are to be dropped on Banshee--the culmination of ten thousand years of the armorers' craft. A trooper in this armor is a one-man, atomic powered battle fortress. But he will have to fight a nearly endless horde of berserk, hard-shelled monsters--the fighting arm of a species which uses biological technology to design perfect, mindless war minions. Felix is a scout in A-team Two. Highly competent, he is the sole survivor of mission after mission. Yet he is a man consumed by fear and hatred. And he is protected, not only by his custom-fitted body armor, but by an odd being which seems to live within him, a cold killing machine he calls The Engine.

POWER of the DOG (2nd Edition, Fully Revised and Expanded) Les Krantz,David Aretha,2014-12-05 This 2nd Edition of Power of the Dog is an updated version of the acclaimed original work published in 2009. Now in 2014, five years of new findings are in this newly released edition, which is unique among dog books. The new research is both woven into the real-life stories about dogs and their superhuman powers, as well as found in new chapters added to this newly released treatise about how dog beats man at 37 feats. (See the Table of Contents where they are enumerated and grouped into nine categories). Anyone who has witnessed even their pet dog under duress-or rescue dogs at work-will attest that dog behavior can far exceed expectations when something is wrong, especially when its master is involved or a dog rescue is initiated by the military or police. Dogs-whether in the military or our pets, can-with proper dog training-become masters themselves; that is, experts at a variety of feats, from finding their way home, discovering a missing soldier in war, to detecting human maladies or impending natural disasters. Virtually all dog breeds have at least some ability to do an amazing array of things better than us, not just police and military dogs, but our household canine pets too. Research has proven dogs can do some things better than humans, even when we are aided by the latest technology or a team of experts. This book is about the myriad things that man just cannot beat dogs at, from telepathic and physical feats to the metaphysical and emotional. Today, with decades of research, these canine powers are not nearly as mysterious as they once were. Scientists of all stripes-animal behaviorists, veterinary researchers,

zoologists, medical doctors, and trained psychologists-have been unlocking some of the mysteries of how dogs do the amazing things they do. This is the subject of *Power of the Dog*, which cites their research throughout in an entertaining and informative text that's chockfull of true stories. Its focus is on things at which dog beats man, from saving lives in peril, to predicting the future, to improving the life, health, and wellbeing of the canine's next of kin, us, the species of man. Thousands of years ago, we took wolves out of the wild, fed them, pampered them, cared for them, and above all loved them and got their love in return. That wasn't a bad deal for either of us, was it? This book is about both sides of the deal, and it will help you understand dogs and maybe even shed some light on why they understand us, too.

Power Puppies T. J. Flea, 2016-05-25 Whenever the president faces a national crisis, he always calls on his favorite canine team-the Power Puppies! However, no one ever expected the next emergency to be the dirty work of the president's own pet cats. But after seeing the Power Puppies on *Ellen*, their favorite show, the cats decide to put their paws down. From dumping rotten fish into the Pup Park under the White House to stealing Power Puppy DNA, these feline fiends will stop at nothing to get on *Ellen*'s show and one-up the pups. Will the Power Puppies be able to outwit these crazy cats, or will they be overcome by a supercharged cat army? Mike, Vizzi, Meg, Cami, Frost, Shatter, Scarlet Shimmers, Zip, and Otis have to take teamwork to the next level if they want to keep their positions as the president's top dogs! All profits for this book collected by the publisher will be donated to the Humane Society of Indianapolis or to other no kill animal shelters.

The Power of the Dog Thomas Savage, 2021-11-04 Discover Thomas Savage's dark poetic tale of a small town in early 20th century American that inspired the new Jane Campion film. Phil and George are brothers and joint owners of the biggest ranch in their Montana valley. Phil is the bright one, George the plodder. Phil is tall and angular; George is stocky and silent. Phil is a brilliant chess player, a voracious reader, an eloquent storyteller; George learns slowly, and devotes himself to the business. They sleep in the room they shared as boys, and so it has been for forty years. When George unexpectedly marries a young widow and brings her to live at the ranch, Phil begins a relentless campaign to destroy his brother's new wife. But he reckons without an unlikely protector. From its visceral first paragraph to its devastating twist of an ending, *The Power of the Dog* will hold you in its grip. WITH AN AFTERWORD BY ANNIE PROULX 'With its echoes of *East of Eden* and *Brokeback Mountain*, this satisfyingly complex story deserves another shot at rounding up public admiration' *Guardian*

The Ultramarines Omnibus Graham McNeill, 2012-06-01 Containing the novels *Nightbringer*, *Warriors of Ultramar* and *Dead Sky*, *Black Sun*, plus a connected short story, the series follows the adventures of Space Marine Captain Uriel Ventris and the Ultramarines as they battle against the enemies of mankind. From their home world of Macragge, into the dreaded Eye of Terror and beyond, Graham McNeill's prose rattles like gunfire and brings the Space Marines to life like never before.

Working Like a Dog Gena K. Gorrell, 2009-05-08 Winner of The 2003 ASPCA Henry Bergh Children's Book Award Included on VOYA's ninth annual Nonfiction Honor List Since the first hungry wolf bravely approached an ancient cooking fire and was rewarded with a scrap of meat, our lives and the lives of dogs

have been interwoven. Dogs have worked for us as warriors with ammunition strapped to their bodies. Dogs have gone through snow, icy seas, and into the dangerous rubble of collapsed buildings to rescue us. Dogs, with their spectacular ability to detect odors, keep us safe by finding drugs and explosives. They lead us if we cannot see and react for us when we cannot hear. Most of all, they love us – and we love them. This fascinating book by Norma Fleck Award-winner, Gena K. Gorrell, describes the dogs of history, the evolution of breeds for different purposes, and the training involved in preparing the modern-day heroes who find lost children, nab criminals, and point out contraband – heroes who just happen to be dogs.
