A Thousand Blunders Frank Leonard,2011-11-01 In *A Thousand Blunders*, Frank Leonard looks at why the 'Road of a Thousand Wonders' failed to live up to the expectations forecast by company president Charles M. Hays and other senior managers. Not only was the railway built through a sparsely settled region, which generated little immediate traffic, but its economic difficulties were also compounded by the numerous mistakes made by managers at all levels: for example, their failure to respond adequately to labour shortages caused serious delays and prevented the company from proving Prince Rupert as an effective alternative harbour before World War I broke out. For this book, Frank Leonard had access to a wealth of original documents, among them the GTP legal department files, providing him with insights into the decisions that formed the basis for policies in townsites and on Indian reserves. *A Thousand Blunders* is a provocative account of one of the greatest failures in Canadian entrepreneurial history. Richly detailed and thoroughly documented, it makes an important contribution to the fields of railway and business history, as well as to the study of the history of northern British Columbia.

**Alex Lord's British Columbia** Alexander Russell Lord,1991 Alex Lord, a pioneer inspector of rural BC schools shares in these recollections his experiences in a province barely out of the stage coach era. Travelling through vast northern territory, utilizing unreliable transportation, and enduring climatic extremes, Lord became familiar with the aspirations of remote communities and their faith in the humanizing effects of tiny assisted schools. En

route, he performed in resolute yet imaginative fashion the supervisory functions of a top government educator, developing an educational philosophy of his own based on an understanding of the provincial geography, a reverence for citizenship, and a work ethic tuned to challenge and accomplishment. Although not completed, these memoirs invite the reader to experience the British Columbia that Alex Lord knew. Through his words, we endure the difficulties of travel in this mountainous province. We meet many of the unusual characters who inhabited this last frontier and learn of their hopes, fears, joys, sorrows, and eccentricities. More particularly, we are reminded of the historical significance of the one-room rural school and its role as an indispensable instrument of community cohesion. John Calam has organized the memoirs according to the regions through which Lord travelled. He has included in his introduction a biography of Alex Lord, a brief description of the British Columbia he knew, a sketch of its public education system, and an assessment of the place Lord's writing now occupies among other works on education and society.

**The Evolution of Black Women in Television** Imani M. Cheers, 2017-07-20 This book seeks to interrogate the representation of Black women in television. Cheers explores how the increase of Black women in media ownership and creative executive roles (producers, showrunners, directors and writers) in the last 30 years affected the fundamental cultural shift in Black women's representation on television, which in turn parallels the political, social, economic and cultural advancements of Black women in America from 1950 to 2016. She also examines Black women as a diverse television audience, discussing how they interact and respond to the constantly evolving television representation of their image and likeness, looking specifically at how social media is used as a tool of audience engagement.
