Fortalecer la profesión docente Francisco López Rupérez,2014-10-21 El fortalecimiento de la profesión docente viene a aglutinar ese conjunto suficientemente completo de políticas centradas en el profesorado. Profesión docente entendida en un sentido moderno del término, según una acepción robusta que describe, pura y simplemente, un estadio evolutivo avanzado de significado y que es compartido por otras profesiones

más consolidadas. A la luz del conocimiento disponible, atinar en ese empeño constituye un desafío crucial para la educación del siglo XXI. La evidencia empírica acumulada, el criterio de los organismos e instituciones internacionales con competencias en materia educativa y los análisis derivados del estudio de casos coinciden en señalar al profesorado como el factor crítico por excelencia para la mejora de los sistemas educativos. La presente obra asume ese planteamiento, describe sus bases empíricas y racionales y efectúa una aproximación –novedosa y de corte post-burocrático– a las políticas centradas en el profesorado, entre las cuales se incluyen las de selección, formación y desarrollo o carrera profesional; y lo hace desde un enfoque integrado o sistémico que toma en consideración, junto con cada una de ellas, sus relaciones mutuas. En opinión del autor, este grupo de políticas es, en el medio y largo plazo, el instrumento más potente de cambio educativo y de mejora escolar.

El malestar en la profesión jurídica Anzola Rodríguez, Sergio Iván, 2019-04-12 El malestar en la profesión jurídica tiene dos propósitos: el primero es explorar y develar, mediante un trabajo de campo realizado en Bogotá, las tensiones que experimentan los abogados entre su ética personal o común y las exigencias que les impone la ética profesional para cumplir su rol particular de abogado. El segundo, indagar las razones por las cuales dichas tensiones han permanecido en las sombras tanto para los abogados practicantes como para la academia jurídica colombiana, que se ha interesado muy poco por el tema de la ética profesional. Por medio de un análisis jurídico riguroso y crítico de las normas y la jurisprudencia del campo de la ética profesional del abogado colombiano, por un lado, y algunos conceptos particulares del

psicoanálisis como los mecanismos de defensa, el trauma, la culpa y el masoquismo moral, por el otro, este libro explica por qué, a pesar de que las tensiones entre la ética personal y la profesional y el sentimiento de culpa son muy comunes en la práctica jurídica, los abogados también las disfrutan, mientras la academia permanece impávida y silenciosa ante este fenómeno.

Al servicio de la profesión auditora: desde la Presidencia del Instituto de Censores Jurados de Cuentas de España (1972-1989) Magín Pont Mestres, 1991

Profesión: Profesor en América Latina Gregory Elacqua, Diana Hincapié, Emiliana Vegas, Mariana Alfonso, Verónica Montalva, Diana Paredes, 2018-07-24 Este libro examina las políticas públicas que varios países de la región están poniendo en práctica para atraer, preparar y seleccionar docentes efectivos. También analiza la evolución histórica de la profesión docente latinoamericana. Existen dos factores históricos importantes que explican el deterioro de la profesión docente desde mediados del siglo pasado. El primero es la expansión de la cobertura escolar y los cambios en la profesión docente. Y el segundo se origina en las transformaciones del mercado laboral femenino. La conclusión es simple: solo recuperando el prestigio de la profesión docente, y atrayendo y preparando a los mejores candidatos a la docencia se logrará realmente transformar en el largo plazo la profesión y aumentar la efectividad de los maestros de nuestra región.

La profesión de la Educación Física y Deportiva y su regulación Carlota Díez Rico, Alberto Palomar Olmeda, Gil Manuel Perea Crespillo, 2023-07-24 El ejercicio profesional de las educadoras y educadores físico deportivos en España dejó de ser un oficio, para convertirse en una profesión, hace ya casi un siglo y medio. Sin embargo, todavía no ha conseguido suficiente reconocimiento social y normativo que permita su consolidación en beneficio de la ciudadanía. Esta obra, motivada por la obligatoriedad de realizar un test que evalúe la proporcional de regular las actividades propias de las educadoras y educadores físicos deportivos, permite aproximar la profesión, su historia, su Organización Colegial y su normativa. Además, justifica el interés general y la necesidad de que esta profesión, ya regulada como titulada y colegiada, por fin cuente con una ley estatal que explicita sus actividades reservadas, superando la dispersión normativa y la inseguridad jurídica a la que se ha visto abocada.
