**The Artistry of Ralph P. Bone** J. Huxley Walters,2020-09-12 This presents the artistry of Ralph Parsons Bone, Master Engraver and custom gun and knife maker, in conjunction with the knife-making artistry of Enedino De Leon and several custom gun makers, with whom Bone chose to collaborate his artistry. The Artistry of Ralph P Bone displays the quality and progression of Bone's multifaceted artistry. The book provides details of Bone's life, commencing with his venturing into knife-making, as a kid, and to highlighting his multiple careers. Bone was best known as a custom knife maker, for the first one half of his life, and, later, as a custom gun maker and highly innovative master engraver, which latter profession he pursued until his death. In Section 1, the reader is familiarized with the standard and non-standard knife models, designed and produced by Bone, throughout his career. Specific information is provided to enable the reader to readily identify and to determine the approximate production time line of any Ralph Bone knife. Included are illustrations of all Standard Production knives of the company, along with non-standard production and a few Special Order, prototype, experimental and one-of-a-kind knives produced. Section 1, also, introduces Enedino De Leon, who Bone acclaimed as his favorite knife maker. De Leon commenced his knife making career, as a young man, under Bone's tutorship, and became very famous and perpetuated Bone's knife making legacy for fifty years, until De Leon's own death. Also included in Section 1 is the writer's estimate of the total knife production volume of, both, Bone and Enedino De Leon, at the Ralph Bone Knife Company and throughout their lives. In Section 2, The Gunmaking and Engraving Artistry of Ralph Parsons Bone, delves into Ralph Bone's career as a highly accomplished custom gun maker and Master Firearms Engraver. First was to display the development of Bone's talent as an artist and an entirely self-taught Master Engraver which, commenced when he was a teenager. The writer chose to present examples of Bone's gun making and engravings in date order of his performance, noting the progressive development of his talent, and his unique engraving innovations, which gained him special attention from the industry and c) the infinite attention to detail, with which he executed his work. Also presented are illustrations of Bone's engravings, in conjunction with the talent of a few highly talented custom gun makers with whom he chose to work. With the permission of Master Engraver Ron Smith, included are excerpts from Smith's first book Drawing & Understanding Scroll Designs (for Artists, Engravers and Collectors). Specific examples of Ralph Bone's engravings are presented to highlight Smith's instructions. The purpose, in doing so, was to seize the opportunity to orient the most casual reader to the basic characteristics of fine engraving and to point out specific attributes of Ralph Bone's engraving talent. Also in Section 2 are examples of Ralph Bone's Celtic engravings, which captivated a substantial amount of his engraving attention and ingenuity, during the last twenty years of his life. The writer points out that Celtic engraving is not, generally, pursued by most American engravers. Accordingly, along with presenting Bone's engravings, a bit of Celtic history and concepts of Celtic art are included to entice observers' attention and to encourage appreciation of Bone's innovations and creativity at Celtic artistry and engraving. America has produced some of the finest Master Engravers that the world has known. Ralph P Bone, certainly, was among them. The Artistry of Ralph P Bone seeks, specifically, to acquaint and to entertain the reader with the man's remarkable multiple talents at knife making, custom gun making and engraving.

**THE KA-BAR KNIFE COMBAT MANUAL** James Loriega,2020-04-02 The United States Marine Corps does not have this manual-or any manual on the combat use of the Ka-Bar knife. This, however, is not because they lack a structured knife combat method for training new recruits, or because the method is in any way secret or classified. They have a structured method, and it's not secret or classified. They just don't teach from a manual! Why? Simply because Marine Combat Instructors have their knife combat method internalized. They can teach it in their sleep, they can use the knife without even waking up-and they want Marine recruits to know this method in the same manner. Not to learn it-to internalize it. To own it! Because they won't have a manual with them when they need this knowledge to save their lives. Learn what they already know!

**Cuchillo Corvo Combat Knife of Chile** James Loriega,Fernan Vargas,2017-03-17 The traditional Corvo is a bladed weapon that is popularly regarded as the national knife of Chile. As such, it ranks alongside the Navaja of Spain, the Kukri of Nepal, and the America Bowie as a blade that was pivotal in the wars-and ultimately, the history-of its nation. The Corvo knife was so uniformly carried by Chileans that it saw wide use in Chile's 19th century War of Tndependence from Bolivia. So significant was the Corvo's prevalence in the war that the knife was officially adopted by the Chilean military. Today, the Special Commandos adhere to a uniquely-developed curriculum for the combative use of the Corvo, which includes its proper deployment in confronting enemy opponents, whether unarmed, or wielding knives, entrenching tools, or bayonets. In this book two edged weapons Masters, Fernan Vargas and James Loriega take you on a journey to explore the history, culture and use of the Corvo.

**Knife Self-Defense for Combat** Michael D. Echanis,1977 In the study of unconventional warfare, few names carry as much weight as Michael D. Echanis. The shadowy hand-to-hand combat pioneer died under mysterious circumstances, but before meeting a violent, fiery death in an unexplained plane crash in Nicaragua, he penned *Knife Self-Defence for Combat*, the definitive guide to controlling and disarming a knife attacker and a must-have for any paramilitary operative. Previously unavailable to the general public on the open market, this modern mercenary's favorite contains more than 30 fully illustrated techniques.

*JKD's Way of the Blade* Jason Korol,2018-05-23 Every person should carry a small knife and know how to use it for self-defense. It's that simple. That's the major thrust (sorry, pun intended) of JKD's Way of the Blade. You don't have to be a Navy SEAL to know how to correctly utilize a basic knife for your self-defense and this book will show you how. Of course, the overwhelming majority of people, when considering a weapon for self-protection, disregard the pocket knife and figure a gun is the only game in town. They do this for three primary reasons. First, Hollywood bombards us with movies where a knife wound is at best a paper-cut. Remember Angelina Jolie and Brad Pitt in *Mr. & Mrs. Smith* and how, during an epic battle with bad guys, Jolie throws a knife that hits Pitt's character in the leg? He gives her a look and she shrugs and smiles. It's all so funny in the movie - and then he pulls it out as though it's just a hangnail. Then he walks off and continues killing the enemy with nary a limp. Well, that's all nonsense and yet a big reason why so many people think a knife won't work for self-defense. Next is the common myth that you shouldn't bring a knife to a gunfight. That line is nearly ubiquitous in pop-culture and what makes it dangerous is that it sounds so self-evident. Well, it's actually untrue. Sure, a knife wouldn't do you much good if you were landing on Normandy Beach but that's not what you're using your knife for. You're using it in the event of a sudden, violent encounter in a parking garage, a sexual assault and things like that. And in those environments the knife actually has considerable advantages over a gun. Think about it: it's easier to carry than even the smallest sub-compact; it never runs out of ammo; it's multi-directional. Oh, and don't forget, it's virtually impossible to accidentally kill someone with your knife too. Once a gun is fired, the bullet goes where it goes. You have no leadership over what that bullet does. This ought to worry any self-defender. The next mistake the book corrects is the misuse of the blade for civilian use. Bruce Lee's Intercepting Fist method, otherwise known as Jeet Kune Do, was based heavily on fencing concepts. JKD's Way of the Blade, therefore, takes these same simple and true principles and applies them to small knives and tactical folders. Dominant knife methods other than JKD are generally Kali based, which favors a thousand fancy moves and multiple cutting angles. But such complexity is both too dangerous (complex actions break down under stress) and contradictory to most self-defense scenarios. How can you justify cutting a guy 50 times anyway? JKD's Way of the Blade will teach you to avoid complexity and keep you within the confines of proper moral and legal use of your weapon by showing you the same simple principles Lee taught in his empty hand method. For modern self-protection, the small knife is indispensable. JKD's Way of the Blade will teach you everything you need to know to confidently carry and use one. You'll learn the best and only way to hold the blade as well as the integrated footwork and cut that will keep you safe. You won't learn a hundred different techniques you'd never use unless you were applying to Ninja school. Instead, you'll get the single strike at the heart of the entire method. Yes - just one striking technique. That's all you'll need. And you'll learn how to protect the blade from grabs too. In all, it will revolutionize the way you think about self-defense and knife work.

Definitive and compulsively-readable—an illustrated guide to the use of contemporary knives by long-time Blade columnist and master weaponsmith, Hank Reinhardt. Deadlier than the club, more ubiquitous than the sword, the knife is the universal edged weapon of all humankind. As our society has grown more advanced, and more reliant on technology, there has been an increased interest in the weapons of the past. Hank Reinhardt was a widely known authority on medieval arms and armor and a long-time columnist for Blade magazine. Unlike many experts, Reinhardt insisted on actually making and testing the weapons he wrote about, and through his various activities was instrumental in increasing the popularity of arms and armor in mainstream America.
