Innovations and Challenges of the Energy Transition in Smart City Districts Sven Leonhardt,Tobias Nusser,Jürgen Görres,Sven Rosinger,Gerhard Stryi-Hipp,Martin Eckhard,2023-12-31 Das Energiekonzept und die Beschlüsse der Bundesregierung zur Energiewende sind wichtige Weichenstellungen für die Gestaltung des zukünftigen Energiesystems. So soll u. a. die Energieeffizienz in dem Maße gesteigert werden, dass bis zum Jahr 2050 nur noch die Hälfte des Primärenergieverbrauchs im Vergleich zum Jahr 2008 benötigt wird. In Deutschland leben rund 75 % der Menschen in Städten. Daher sind Städte und Agglomerationen besondere Lebens-, Wirtschafts- und Kulturräume. Als solche verlangen sie nach einem zukunftsfähigen Energiesystem und müssen in hohem Maße energieeffizient ausgestaltet sein. Besonders relevant für die Steigerung der Energieeffizienz ist der Gebäudesektor: In den Wohn- und Nichtwohngebäuden bundesweit entstehen rund 35 % des Endenergieverbrauchs, etwa drei Viertel davon in Form von Wärme. Die von der Bundesregierung beschlossene Energiewende, also der Umbau der deutschen Energieversorgung auf Basis hoher Effizienz und mit weitgehender Nutzung erneuerbarer Energien, kann deshalb nur gelingen, wenn diese Wende nicht nur im Strom-, sondern auch im Wärmemarkt umgesetzt wird (sogenannte Wärmewende). Mit Blick auf das energie- und klimapolitische Ziel eines nahezu klimaneutralen Gebäudebestands bis zum Jahr 2050 sind neben einer gesteigerten Energieeffizienz die erneuerbaren Energien in weit größerem Maße in den Wärmesektor zu integrieren. Städte und Agglomerationen bieten aufgrund der großen Hebelwirkung die Möglichkeit, technologische und gesellschaftliche Innovationen ungleich schneller und wirksamer in die Praxis umzusetzen und damit die energiepolitischen Ziele der Bundesregierung zu erfüllen.

A Homecoming for Two Bears Kelex,2017-01-25 While Killian and Finn loved the idea of being sent away to med school by their alpha, the idea of leaving their mate behind wasn't ideal. Doubling up their course load whenever they could wasn't getting them done fast enough. When Ronan shows up at their dorm one night, lustful and needing, they take what's offered wholeheartedly. After years of near misses, Ronan finally confronts Killian and Finn and demands their touch. Yet once it's done, he struggles with his feelings. Hearing the words his vile fathers beat into his head doesn't help, either. Unable to cope with what he's done, he returns home to lick his wounds. Torn between their duty to their alpha and their need for the mate they adore, Killian and Finn stay back to tie up their loose ends before they return home to build a life for them and their future family. If they can convince Ronan to join them before their world explodes.

Zed Elizabeth McClung,2010-07 Zed is having a bad day. She's twelve and there's someone around who's killing kids, which she doesn't have time for. Today, she's already knifed a rapist, traded with half the drunks and addicts in town, talked to the dead, bargained with a sociopath, and extracted crucial information from a mental patient - and she hasn't even left the building. Welcome to what Whitbread Prize winner Lindsay Clarke has called "a

nightmare world which I am trying to escape, but cannot. "Welcome to the Tower, an urban development project no city wants to lay claim to; a place to steer clear of if at all possible, but if you can't, you'll fit right in. Zed is a vivid, claustrophobic, at times nightmarish novel about madness, survival, and crumbling institutions; it is Moby Dick set in the squalor of an inner city, where rules are abandoned, and it's every man (and young girl) for him or herself. In the spirit of J.G. Ballard's High Rise or Iain Banks' The Wasp Factory, Zed depicts a frenzied underworld; it is a novel of verve and feverish, expansive imagination.

Believing the Lie Elizabeth George, 2012-01-10 #1 New York Times bestselling author of The Punishment She Deserves Elizabeth George has millions of fans following her Inspector Lynley series. As USA Today put it, It's tough to resist George's storytelling, once hooked. With Believing the Lie, she's poised to hook countless more. Inspector Thomas Lynley is mystified when he's sent undercover to investigate the death of Ian Cresswell at the request of the man's uncle, the wealthy and influential Bernard Fairclough. The death has been ruled an accidental drowning, and nothing on the surface indicates otherwise. But when Lynley enlists the help of his friends Simon and Deborah St. James, the trio's digging soon reveals that the Fairclough clan is awash in secrets, lies, and motives. Deborah's investigation of the prime suspect--Bernard's prodigal son Nicholas, a recovering drug addict--leads her to Nicholas's wife, a woman with whom she feels a kinship, a woman as fiercely protective as she is beautiful. Lynley and Simon delve for information from the rest of the family, including the victim's bitter ex-wife and the man he left her for, and Bernard himself. As the investigation escalates, the Fairclough family's veneer cracks, with deception and self-delusion threatening to destroy everyone from the Fairclough patriarch to Tim, the troubled son Ian left behind.

Architecture in the Digital Age Branko Kolarevic, 2004-03 Architecture in the Digital Age addresses contemporary architectural practice in which digital technologies are radically changing how buildings are conceived, designed and produced. It discusses the digitally-driven changes, their origins, and their effects by grounding them in actual practices already taking place, while simultaneously speculating about their wider implications for the future. The book offers a diverse set of ideas as to what is relevant today and what will be relevant tomorrow for emerging architectural practices of the digital age.

Sustainable Urban Neighbourhood David Rudlin, Nicholas Falk, 2009 'Sustainable Urban Neighbourhood' explores the way that the UK's towns and cities are changing at the turn of the millennium. Previously known as 'Building the 21st Century Home', the second edition of this successful text describes the way that environmental and demographic change, economic pressures and the needs of community could change urban areas forever just as the garden city movement did a century ago. Some of the arguments that were so contentious ten years ago are now widely accepted. Others rumble on, particularly after another property crash that has hit urban apartments. The central point, however, remains; urban renaissance will not be achieved by coercion but by the creation of positive urban models. Through case studies, the book describes one such model, the Sustainable Urban Neighbourhood: mixed-use, medium density urban development, designed to minimise resource use and maximise community. This classic text will be essential reading for urban designers, architects and planners, and anyone involved in the development of new homes and the regeneration of towns and cities. * Links social, environmental and economic factors with urban design for a fresh approach * Grounded in practical realities of development. Visionary, whilst also putting theory into practice * Provides a model for sustainable reform by showing how architects work with existing planning laws and environments to improve site plans

Rebellion to Integration Audrey Kahin, 1999 This study deals with the political history of the Indonesian province of West Sumatra and the Minangkabau people from the late colonial period up to the present, focussing on the course and degree of their integration into the contemporary Indonesian state. The book provides a local perspective on the growth and development of the nationalist movement in Indonesia, the struggle for independence, and the trauma involved for West Sumatra in adapting to an Indonesian state based on very different concepts of government than those that animated the anticolonial struggle in the region. It also helps understand the backgrounds of the recent violent insurgency in several parts of the Indonesian archipelago against the rule of the Javanese-controlled central government.
