Archaeometry of Pre-Columbian Sites and Artifacts David A. Scott, Pieter Meyers, 1994-10-27 Based on the 28th International Archaeometry Symposium jointly sponsored by the University of California, Los Angeles, and the Getty Conservation Institute, this volume offers a rare opportunity to survey under a single cover a wide range of investigations concerning pre-Columbian materials. Twenty chapters detail research in five principal areas: anthropology and materials science; ceramics; stone and obsidian; metals; and archaeological sites and dating. Contributions include Heather Lechtman's investigation of "The Materials Science of Material Culture," Ron L. Bishop on the compositional analysis of pre-Columbian pottery from the Maya region, Ellen Howe on the use of silver and lead from the Mantaro Valley in Peru, and J. Michael Elam and others on source identification and hydration dating of obsidian artifacts.

Hessdalen Lights Gianni Pascoli, 2024-03-01 Nestled 300 km north of Oslo lies the quaint valley of Hessdalen, home to unique sightings that have puzzled residents and scientists alike. Regular phenomena light up the skies – but are these mysterious lights a portal for communicating with inhabited worlds beyond Earth? For over 30 years, research teams have studied the phenomena yet the secrets of Hessdalen persist. This book explores deeper questions sparked by the valley's unexplained occurrences. Is Earth an ordinary cosmic body among millions, or somehow unique? We know life emerged nearly four billion years ago but still do not fully grasp the physical and chemical processes enabling this. With expanding resources to study space, might we someday soon detect signatures of extraterrestrial life, whether in our solar system or on distant exoplanets? The final part invites philosophical reflection on the acute fragility of our biosphere and humanity's place in the vast Universe. As an astrophysicist at the University of Picardie Jules Verne in France, the author weaves empirical science and speculative inquiry to probe Hessdalen's confounding lights, the exceptional nature of Earth, and the environmental precariousness of this rare life-sustaining planet.

Artefactos Liliana Villegas, 2000 This book presents artifacts - or artefactos - from everyday life, objects that have accompanied Colombian people through the centuries, both in their earthly and spiritual activities. In both English and Spanish, the word artifact means, literally, made with skill or art. Although all worthy of museums and galleries, these are not just exhibition pieces, nor are their makers all members of a separate artisan class. There is no Colombian home, however humble, that does not have a handmade broom, stool, basket, textile, or rustic furniture; nor is there a single Amazon Indian who cannot quickly piece together a basket from leaves found in the jungle.--BOOK JACKET.

If the Bible Is as Much Fable as Fact, Did God Create Man or Did Man Create God? Peter Seiler, 2015-07-10 If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God? searches for a reasonable and reasoned foundation upon which to speak of the relationship between God and humanity. The author, Peter Seiler, marshals his education in both science and history in his exploration of the Bibles claims of faith, shedding the light of scientific findings and historical analysis on the biblical texts. Spanning ten parts, the text begins with an extended introduction to the author and his method before conducting a four-part examination of the history of faith from the ancient past through the Enlightenment. Then the author examines, in three parts, the case for the involvement of alien life in

human history. Finally, he turns to the future before summarizing his conclusions. If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God? will satisfy the hunger of readers who desire to shed the light of reason, bolstered by verifiable facts, upon the claims of faith. It also will intrigue people with deeply held beliefs who desire to know the yearnings of their friends and family members who find those same claims of faith on the far side of a chasm they cannot traverse by a leap of faith. In either case, If the Bible is as Much Fable as Fact, Did God Create Man or Did Man Create God? makes a powerful case for its perspective on the titles question.

Ancient Aliens Philip Coppens,2014-12-15 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as terra preta, and massive stone monuments too heavy to move in Peru and Lebanon, among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.

Colonial Heritage, Power, and Contestation Camila Andrea Malig Jedlicki,Naomi Oosterman,Rodrigo Christofoletti,2024-01-01 Recent debates about the return of colonially looted heritage have furthered the discussions on decolonisation around the world, and have reignited questions surrounding “what is, and who owns, cultural heritage”. These discourses in the meaning, production and management of heritage – with a growing presence of themes that address “Latitudes” – have gained greater visibility in Latin America and the Caribbean, as challenges surrounding cultural heritage arise more prominently worldwide. The attention on this region aims to contextualise the various theoretical, empirical, and critical perspectives in relation to the negotiation of decolonisation. Hence, this book focuses on the analysis of diverse modes of confronting the power underlying colonial heritage that can contribute to pushing boundaries and persuading changes in pre-established definitions of political thought and local identities. To this end, the chapters in this book focus on a wide scope of topics, ranging from the repatriation and restitution of cultural heritage, and diasporic movements to decolonial practices around monuments, museums, and education. In so doing, this volume challenges stereotypes that made Latin America and the Caribbean a space of mere reproducibility of external ideas, and instead provides a space to show current decolonial perspectives and practices developed in the region that will enrich the international debate on the contestation of colonial legacies and decolonisation of cultural heritage.

Ancient Alien Question, 10th Anniversary Edition Philip Coppens,2021-03 . . . an important and outstanding contribution. --Erich von Däniken, bestselling author of Chariots of the Gods The Ancient Alien Question provides a captivating adventure around the world and sheds an interesting perspective on the Ancient Astronaut Theory. --Giorgio A. Tsoukalos, producer of Ancient Aliens: The Series Philip Coppens covers all the bases on this controversial topic. His research is thorough and he addresses each topic with a balanced overview that cuts through the jungle of confusion with a very sharp machete of reason. --David Hatcher Childress, author of Technology of the Gods The Ancient Alien Question reveals an array of astonishing truths, including: A radically different understanding of the pyramids and how they were constructed The extraordinary stories behind monuments such as the Nazca lines and Puma Punku How

extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence, Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted, and that certain cultures interacted with nonhuman intelligences. Our ancestors were clearly not alone. Fifty years after Erich von Däniken posed these questions in Chariots of the Gods, Coppens provides clear, concise answers to the great historical enigmas in an accessible, readable format. Your view of human history will never be the same again!

Modern Technology and Sciences... in the Bible Alla Peace, John Anderson, 2012-12-26 Based exclusively on the biblical verses, the book Modern Technology and Sciences in the Bible reveals outstanding facts that modern discoveries are actually a rediscovery of remote ancient knowledge practically in all major fields of technology and sciences. Each biblical quotation on these subjects has been analyzed, comparing them with modern knowledge in technology, astronomy, cosmology, physics, geology, biology, medicine, and metaphysical philosophy. It proves that this high level of knowledge actually belonged to a sophisticated prehistoric civilization. It also concludes that original unknown biblical texts are just pieces of vanished records left behind by an advanced society of aliens (biblical gods) that visited and settled on the earth before our time. The book is supported by an appendix, which includes glossary, glossary of persons, geographical glossary, measurements, bibliography, and maps.

Firaun, Haman, dan Misteri Piramida Wisnu Tanggap Prabowo, "Pengetahuan kita tentang Mesir tidaklah banyak. Padahal Mesir sangatlah akrab di telinga kita. Setidaknya melalui nama-nama seperti; Nabi Musa, Firaun, Haman, dan Qarun. Sebagai seorang Muslim, kisah-kisah itu harus kita ketahui. Nah, buku ini menyajikan informasi yang sangat memadai, karena itu layak dimiliki." –Dr. Tiar Anwar Bachtiar, sejarawan muda INSISTS. "Diskursus sejarah para Nabi yang berkaitan dengan peradaban Mesir memang selalu menarik. Tapi buku ini hadir dengan gaya yang sangat unik dan bahasan yang jarang Anda temukan dalam buku-buku semisal lainnya. Penulis juga melakukan koreksi fakta sejarah peradaban Mesir dan para Nabi yang selama ini dipelajari, tentu melalui sudut pandang Islam dan bukti sejarah yang otentik. Sebuah karya hebat dengan literatur kitab-kitab Samawi dan kaya referensi." –Maulana La Eda, Lc., MA, penulis buku sejarah ulama Nusantara. Buku ini bisa disebut sebagai Mesirologi: Ilmu pengetahuan tentang Mesir, karena menjelaskan secara lengkap tentang tokoh-tokoh, jejak peninggalan, dan simbol-simbol kuno yang sangat terkenal hingga kini. Sebagai peninggalan kuno, tentu banyak misteri atau rahasia yang ada di dalamnya, seperti: Siapa yang membangun Piramida? Siapa raja angkuh nan zalim yang disebut dalam Al-Qur'an dengan Firaun? Siapa Haman yang menjadi penasehat Firaun dan arsitek di balik kemegahan kerajaannya? Rahasia apa di balik penemuan Mummi yang sampai hari ini bisa disaksikan? Bagaimana kisah para Nabi di negeri Mesir? Buku ini memaparkan data-data sejarah berdasarkan Al-Qur'an, kitab-kitab sejarah yang mu'tabar (otoritatif) dan juga referensi-referensi ilmiah lainnya terkait apa yang ada di Mesir sebagai induk peradaban dunia (ummu ad-dunya) dan negeri para Nabi (ardh al-anbiya').
