I Was Glad Christopher R. Campling,2007 Born in Australia, Christopher took part in the surrender of the Japanese at Singapore. After teaching, he became vicar, rural dean, archdeacon and dean; and twenty-two years was elected Chairman of the Open Synod Group. Here is a story in which intelligence and humour light up the frustrations and delights of an ecclesiastical and domestic life.

Fragile Cargo Adam Brookes,2023-10-10 The “gripping and meticulously researched” (The Times, London) true story of the determined museum curators who saved the priceless treasures of China’s Forbidden City in the years leading up to World War II and beyond. Spring 1933: The silent courtyards and palaces of Peking’s Forbidden City, for centuries the home of Chinese emperors, are tense with fear and expectation. Japan’s aircrafts drone overhead, its troops and tanks are only hours away. All-out war between China and Japan is coming, and the curators of the Forbidden City are faced with an impossible question: how will they protect the vast imperial art collections in their charge? A difficult and monumental decision is made: to safeguard the treasures, they will need to be evacuated. The magnificent collections contain a million pieces of art—objects that carry China’s deepest and most ancient memories. Among them are irreplaceable artefacts: exquisite paintings on silk, rare Ming porcelain, and the extraordinary Stone Drums of Qin, which are adorned with 2,500-year-old inscriptions of cultural significance. For sixteen years, under the quiet leadership of museum director Ma Heng, the curators would go on to transport the imperial art collections thousands of miles across China—up rivers of white water, across mountain ranges, and through burning cities. In their search for safety the curators and their fragile, invaluable cargo journeyed through the maelstrom of violence, chaos, and starvation that was China’s Second World War. Told for the first time in English and playing out across a vast historical canvas, this “compelling story of art, war, and adventure” (Simon Sebag Montefiore, author of *The Romanovs: 1613-1918*) follows the small group of men and women who, when faced with war’s onslaught on civilization, chose to resist.

'Young Man, You'll Never Die' Merton Naydler,2006-06-20 A British Royal Air Force pilot recounts fighting over African deserts and Asian jungles during World War II in this military memoir. Merton Naydler joined the RAF at the age of nineteen and served for the next six years until May 1946. He flew Spitfires and Hurricanes during a tour of duty that took him to North Africa, Burma, and Malaya. This well written and extremely entertaining memoir portrays wartime life in the desert environment where sand, flies, life under canvas made living and flying a daunting experience. When Naydler was posted to Burma he was filled with “a deep and genuine dread.” After a long uncomfortable trip, he joined 11 Squadron and was then faced with Japanese Zeroes in combat over dense tropical jungle rather than Bf 109s over a barren desert terrain. “Daytime flying was hot as hell, the humidity intense”—the author’s description of his new posting that goes on to describe life in “Death Valley,” named because of the likeliness of falling victim to tropical disease rather than enemy aircraft . . . This is the story of a sergeant pilot who learned his trade the hard way in action over Africa and then honed his combat skills in the skies over Japanese-held tropical forests where he was eventually commissioned.

Hitler's Olympics Christopher Hilton,2011-11-08 The Berlin Olympic Games, more than 70 years on, remain the most controversial ever held. This book creates a vivid account of the disputes, the personalities, and the events which made these Games so memorable. Ironically, the choice of Germany as the host national for the 1936 Olympics was intended to signal the return to the world community after defeat in World War I. In actuality, Hitler intended the Berlin Games to be an advertisement for Germany as he was creating it, and they became one of the largest propaganda exercises in history. Two German Jews competed in the Games while the most memorable achievement was that of black American Jesse Owens, who won four gold medals. Ultimately, however, Germany was the overall biggest medal winner. The popular success of Owens allowed the Nazis to claim that their policies had no racial element and charges of antisemitism that did arise were leveled at the Americans.

The Secret Capture Stephen Roskill,2011-01-31 For fifteen years after the end of the war all official Admiralty records showed the German submarine U 110 as sunk on 9 May 1941 by the surface escorts of convoy OB.318. As this book was the first to reveal, this was a deliberate deception, as the U-boat was actually captured and its contents fully investigated before being allowed to sink a day later, a fact skilfully kept from even the survivors of the submarine's crew. As the official historian of the naval war, Roskill had followed the party line when writing his authorised account, but provoked by exaggerated claims concerning a US Navy capture of a U-boat in 1944, Roskill decided to set the record straight. His narrative is prefaced by brief coverage of previous submarine captures by the Royal Navy – three Italian and one German – before covering the U 110 operation in great detail, underlining the skill and bravery of those involved. We now know that the reason for the secrecy was that the U-boat gave up valuable codebooks, charts, ciphers and, most significantly, a complete and undamaged Enigma machine. At the time of the book's first publication, Ultra was still a secret, so Roskill (who clearly knew about it) had to be discreet about the exact details of what was taken from the submarine while insisting on its crucial value to the war effort. However, a new introduction puts the capture into context, making clear its vital importance in the history of allied codebreaking in World War Two.

How to Be Human Ruby Wax,2018 In *How to be Human*, Ruby Wax tries to come up with some answers to that nagging question about how we can learn to like and love ourselves. With the input of a Buddhist monk (an expert on our inner lives) and a neuroscientist (an expert on the brain), Ruby explores how to find happiness in the modern world - despite the constant bombardment of bad news, the need to choose between 5,000 different types of toothpaste, and the loneliness of having hundreds of friends who we've never met and don't know us. Filled with witty anecdotes from Ruby's own life, and backed up by scientific authority, *How to be Human* is the only guide you need for building a healthy, happy relationship with yourself.

A Monk's Guide to Happiness Gelong Thubten,2020-08-11 A Guide to Meditation and Mindfulness for the Modern Day In our never-ending search for happiness we often find ourselves looking to external things for fulfillment, thinking that happiness can be unlocked by buying a bigger house, getting the next promotion, or building a perfect family. In this profound and inspiring book, Gelong Thubten shares a practical and sustainable approach to happiness. Thubten, a Buddhist monk and meditation expert who has worked with everyone from school kids to Silicon Valley entrepreneurs and Benedict Cumberbatch, explains how meditation and mindfulness can create a direct path to happiness. *A Monk's Guide to Happiness* explores the nature of happiness and helps bust the myth that our lives and minds are too busy for meditation. The book can show you how to: - Learn practical methods to help you choose happiness - Develop greater compassion for yourself and others - Learn to meditate in micro-moments during a busy day - Discover that you are naturally 'hard-wired' for happiness Reading *A Monk's Guide to Happiness* could revolutionize your relationship with your thoughts and emotions, and help you create a life of true happiness and contentment.

How to Be Human Ruby Wax,2018-12-27 'With this marvellous book, Ruby Wax has confirmed her position as one of the most readable, inspirational and engaging writers in the field of human mental health, happiness and fulfilment.' Stephen Fry It took us 4 billion years to evolve to where we are now - completely brilliant and yet, some might say, emotionally dwarfed. The question is: can our more empathetic side catch up in time to save us and the world? I've got nothing against smarts, but it's smarts without emotional awareness that got us into this position of being able to nuke each other into oblivion and rape the earth for oil. With a little help from a monk (who tells us how our mind works) and a neuroscientist (who tells us how our brain works), Ruby Wax answers every question you've ever had about: evolution, thoughts, emotions, the body, addictions, relationships, sex, kids, the future and compassion. Filled with witty anecdotes from Ruby's own life, and backed up by smart science and practical mindfulness exercises, *How to be Human* is the only manual you need right now to help you upgrade your mind as much as you've upgraded your iphone. 'Ruby has beautifully fused neurology and spirituality and given us a means to cope with operating both a mind and a brain. If this mental upgrade works then all other books will become defunct as we repose in bliss.' Russell Brand 'How to Be Human is, without exaggeration, a lifeline; wise, practical and funny, it is a handbook for those in despair. It is actually for everyone alive, for the curious, or disillusioned or muddled or just plain happy.' Joanna Lumley
