World Economic Outlook, April 1989 International Monetary Fund. Research Dept.,1989-01-01 This paper highlights that the world economic condition improved significantly during 1988. In industrial countries, output growth strengthened markedly in an environment of moderate inflation. World trade expanded at its fastest rate since 1984, which had important spillover effects on many developing countries, particularly the exporters of manufactures; significant progress was made in reducing external imbalances among the major industrial countries; and the aggregate debt-to-exports ratio of developing countries was reduced. At the same time, several aspects of the current situation continue to demand the attention of policymakers.

Burmese Looking Glass Edith T. Mirante,2007-12-01 "Burmese Looking Glass is a contribution to the literature of human rights and to the literature of high adventure." –Los Angeles Times Book Review As captivating as the most thrilling novel, *Burmese Looking Glass* tells the story of tribal peoples who, though ravaged by malaria and weakened by poverty, are unforgettably brave. Author Edith T. Mirante first crossed illegally from Thailand into Burma in 1983. There she discovered the hidden conflict that has despoiled the country since the close of World War II. She met commandos and refugees and learned firsthand the machinations of Golden Triangle narcotics trafficking. Mirante was the first Westerner to march with the rebels from the fabled Three Pagodas Pass to the Andaman Sea. She taught karate to women soldiers, was ritually tattooed by a Shan sayah "spirit doctor," lobbied successfully against US government donation of Agent Orange chemicals to the dictatorship, and was deported from Thailand in 1988. "A dramatic but caring book in which Mirante's blithe tone doesn't disguise her earnest concern for the worsening conditions faced by the Burmese hill tribes." –Kirkus Reviews

Fast Forward Tim Harte,2009-11-24 Life in the modernist era not only moved, it sped. As automobiles, airplanes, and high-speed industrial machinery proliferated at the turn of the twentieth century, a fascination with speed influenced artists—from Moscow to Manhattan—working in a variety of media. Russian avant-garde literary, visual, and cinematic artists were among those striving to elevate the ordinary physical concept of speed into a source of inspiration and generate new possibilities for everyday existence. Although modernism arrived somewhat late in Russia, the increased tempo of life at the start of the twentieth century provided Russia's avant-garde artists with an infusion of creative dynamism and crucial momentum for revolutionary experimentation. In *Fast Forward* Tim Harte presents a detailed examination of the images and concepts of speed that permeated Russian modernist poetry, visual arts, and cinema. His study illustrates how a wide variety of experimental artistic tendencies of the day—such as "rayism" in poetry and painting, the effort to create a "transrational" language (zaum') in verse, and movements seemingly as divergent as neo-primitivism and constructivism—all relied on notions of speed or dynamism to create at least part of their effects. *Fast Forward* reveals how the Russian avant-garde's race to establish a new artistic and social reality over a twenty-year span reflected an ambitious metaphysical vision that

corresponded closely to the nation's rapidly changing social parameters. The embrace of speed after the 1917 Revolution, however, paradoxically hastened the movement's demise. By the late 1920s, under a variety of historical pressures, avant-garde artistic forms morphed into those more compatible with the political agenda of the Russian state. Experimentation became politically suspect and abstractionism gave way to orthodox realism, ultimately ushering in the socialist realism and aesthetic conformism of the Stalin years.

The Market Revolution Charles Sellers,1994-05-19 In *The Market Revolution*, one of America's most distinguished historians offers a major reinterpretation of a pivotal moment in United States history. Based on impeccable scholarship and written with grace and style, this volume provides a sweeping political and social history of the entire period from the diplomacy of John Quincy Adams to the birth of Mormonism under Joseph Smith, from Jackson's slaughter of the Indians in Georgia and Florida to the Depression of 1819, and from the growth of women's rights to the spread of the temperance movement. Equally important, he offers a provocative new way of looking at this crucial period, showing how the boom that followed the War of 1812 ignited a generational conflict over the republic's destiny, a struggle that changed America dramatically. Sellers stresses throughout that democracy was born in tension with capitalism, not as its natural political expression, and he shows how the massive national resistance to commercial interests ultimately rallied around Andrew Jackson. An unusually comprehensive blend of social, economic, political, religious, and cultural history, this accessible work provides a challenging analysis of this period, with important implications for the study of American history as a whole. It will revolutionize thinking about Jacksonian America.

The World in a Frame Leo Braudy,2002-04 *The World in a Frame* covers the history of popular American films from the 1930s to the 1970s. Braudy gives an account of the histories of visual style and film genres, as well as techniques of characterisation, in an evolving cultural context.

The Films of Leni Riefenstahl David B. Hinton,2000-06-28 After considerable controversy over the bold appraisal of Riefenstahl in his first two editions, Hinton continues to celebrate the life and films of this brilliant woman in the absence of the repetitious clichés that so often accompany a discussion of such a controversial filmmaker. Provided with access to Leni Riefenstahl's personal archives and film collection, the author explores her career. In addition to examining her most famous wartime works, Triumph of the Will and Olympia, the author also investigates her less recognized Tiefland, her unrealized film projects, and her African and underwater films. David B. Hinton drew on recent interviews with the filmmaker to update this edition. (Previous edition is No. 29 in The Scarecrow Filmmakers Series.) Reviews of the Previous Edition: Raises significant issues involving the relationship between art and politics. –CHOICE ...a solid piece of research....the author is able to illuminate aspects of the production of Triumph of the Will and Olympia previously unknown.–FILMS IN REVIEW It's best to read her [Leni Riefenstahl] memoirs, anybody's memoirs in fact, with some independent scholarship at hand, and the best place to start is David B. Hinton's thoroughly researched The Films of Leni Riefenstahl.–THE MAGAZINE
