Occam's Razor T. R. Ryden,2019-09-26 When ancient artifacts discovered in the Great Pyramid of Giza shed new light on a DNA pattern identified by a world-renowned molecular biologist, venture capitalist, James Anderson, is thrust into an action-packed road of scientific exploration and discovery. An unlikely participant in the events that begin to unfold, Anderson and his team, pursued by those who don't want this new information out, realize they have stumbled upon the greatest and most terrifying cover-up in the history of the human race. Occam's Razor is a chilling speculative fiction thriller which ties together several well-known, and some not so famous controversial theories concerning alien visitation, human evolution, ancient legends, and the cosmos. The novel explains how it could be very plausible to imagine that the powers that be may already know about an impending disaster and caught between all this are the novel's unfortunate characters as they struggle to figure out what to do in the face of unstoppable catastrophe.

Razor Sharp Bert Lindsey,2019-03-15 In the desert ten miles west of Mesilla in the New Mexico Territory, Razor Sharp lay unconscious with his hands and feet tied and with a bloody rope around his neck. Buzzards circled overhead. The odor of Razor's blood had brought them there and was waiting for the odor of death before swooping to the ground to devour their prey. Razor Sharp had been left there alive but to die. Feeling with certainty that he would never survive, the two that left him tied rode off. The circling buzzards brought the attention to those that rescued him. Razor regained his consciousness that night, hearing a lonely coyote seeking a mate. For the time being, Razor Sharp had been robbed of any pursuit for his mate until he settled with those that thought him dead. This settlement would take numerous gun battles, wounds, and deaths in Texas, Mexico, and the New Mexico Territory. Never once did the thought of love and possibly a wife ever leave his mind.

Girls with Razor Hearts Suzanne Young,2020-03-17 It's time to fight back in this second novel in a thrilling, subversive near future series from New York Times bestselling author Suzanne Young about a girls-only private high school that is far more than it appears to be. Make me a girl with a razor heart... It's been weeks since Mena and the other girls of Innovations Academy escaped their elite boarding school. Although traumatized by the violence and experimentations that occurred there, Mena quickly discovers that the outside world can be just as unwelcoming and cruel. With no one else to turn to, the girls only have each other—and the revenge-fueled desire to shut down the corporation that imprisoned them. The girls enroll in Ridgeview Prep, a private school with suspect connections to Innovations, to identify the son of an investor and take down the corporation from the inside. But with pressure from Leandra, who revealed herself to be a double-agent, and Winston Weeks, an academy investor gone rogue, Mena wonders if she and her friends are simply trading one form of control for another. Not to mention the woman who is quite literally invading Mena's thoughts—a woman with extreme ideas that both frighten and intrigue Mena. And as the girls fight for freedom from their past—and freedom for the girls still at Innovations—they must also face new questions about their existence...and what it means to be girls with razor hearts.

The Razor's Edge Karl Jirgens,2022-05-26 'Unwillingly, I've become part of the story. Questions lie when reconstructing incomplete facts, half-truths, enigmas. What remains is incompleteness, interruption. Only the dead know what happened.' In *The Razor's Edge*, Karl Jirgens presents a collection of interlinked fictions that inhabit halfway worlds between past and present, dream and actuality, science and divination. Ordinary daily activities and events lead to unexpected slides into lucid dreams and flirtations with the edge of madness. Drawing on literature and pop culture (from Cinderella and Hamlet to Vladimir Mayakovsky and Anthony Bourdain) as well as the history of twentieth-century genocides (including the Holocaust and the Gulag), these complex, magic realist stories suggest that what seems separate is really interconnected, that the distinction between past, present and future is illusion, and that we might all die of the truth if the truth were truly known.

The Art of Shaving Myriam Zaoui,Eric Malka,2009-02-25 The average man will shave approximately 20,000 times over the course of his life, spending the equivalent of 139 full days doing it. He will shave off 27 feet of hair, from a total of 30,000 whiskers on his face. And he will probably be doing something wrong. So he'll suffer nicks and cuts, ingrown hairs, and rashes; his five-o'clock shadow will arrive before lunch, his neck will be irritated and red, and he'll get razor burn. Instead of reaping the benefits of a daily grooming regimen, he'll only suffer. Needlessly. *The Art of Shaving* will solve his problems (as well as the related problems of anybody whose cheek gets burned by his razor stubble). He'll choose the correct brush and razor and blade; he'll take more time lathering up properly and less time tending to bloody shirt collars. He'll feel better and look better. And he'll adjust his perception of this morning ritual, bringing art and passion to a daily routine.
