This success was replicated in the league, which the club won five times in the space of seven years. Fear and Loathing in La Liga Sid Lowe,2014-03-18 Fear and Loathing in La Liga is the definitive history of the greatest rivalry in world sport: FC Barcelona vs. Real Madrid. It's Messi vs. Ronaldo, Guardiola vs. Mourinho, the nation against the state, freedom fighters vs. Franco's fascists, plus majestic goals and mesmerizing skills. It's the best two teams on the planet going head-to-head. It's more than a game. It's a war. It's El Cláco. Only, it's not quite that simple. Spanish soccer expert and historian Sid Lowe covers 100 years of rivalry, athletic beauty, and excellence. Fear and Loathing in La Liga is a nuanced, revisionist, and brilliantly informed history that goes beyond sport. Lowe weaves together this story of the rivalry with the history and culture of Spain, emphasizing that it is never about just the soccer. With exclusive testimonies and astonishing anecdotes, he takes us inside this epic battle, including the wounds left by the Civil War, Madrid's golden age in the fifties when they won five European cups, Johan Cruyff's Barcelona Dream Team, the doomed Galáico experiment, and LuíFigo's betrayal. By exploring the history, politics, culture, economics, and language -- while never forgetting the drama on the field -- Lowe demonstrates the relationship between these two soccer giants and reveals the true story behind their explosive rivalry.

The Real Madrid Way Steven G. Mandis,2016-10-11 The untold story of Real Madrid: one of the most incredible turnarounds in sports and business history. Real Madrid is the most successful sports team on the planet. The soccer club has more trophies than any other sports team, including 11 UEFA Champions League trophies. However, the story behind the triumph goes beyond the players and coaches. Generally unnoticed, a management team consisting mostly of outsiders took the team from near bankruptcy to the most valuable sports organization in the world. How did Real Madrid achieve such extraordinary success? Columbia Business School adjunct professor Steven G. Mandis investigates. Given unprecedented behind-the-scenes access, Mandis is the first researcher to rigorously analyze both the on-the-field and business aspects of a sports team. What he learns is completely unexpected and challenges the conventional wisdom that moneyball-fueled data analytics are the primary instruments of success. Instead, Real Madrid's winning formula both on and off the field, from player selection to financial management, is based on aligning strategy with the culture and values of its fan base. Chasing the most talented (and most expensive) players can be a recipe for a winning record, but

also financial disaster, as it was for Real Madrid in the late 1990s. Real Madrid's management believes that the club exists to serve the Real Madrid community. They discovered that its fans care more about why the team exists, how their club wins, and whom it wins with versus just winning. The why, how, and whom create a community brand and identity, and inspire extraordinary passion and loyalty, which has led to amazing marketing and commercial success—in turn, attracting and paying for the best players in the world, with the values the fans expect. The club's values and culture also provide a powerful environment for these best players to work together to win trophies. The Real Madrid Way explains how Real Madrid has created and maintains a culture that drives both financial and on-the-field success. This book is an engrossing account of the lifetime of one of the greatest clubs in the most popular sport in the world, and for business and organization leaders, it's an invaluable inside look at a compelling alternative model with lasting competitive advantages that can deliver superior and sustainable returns and performance.

Forging Glory Jesús Bengoechea,Antonio Escohotado,2022-03-11 A Brief History of Real Madrid told by a soccer-loving philosopher What kind of determination drives Real Madrid to be the best of the best year after year, and to achieve it with unusual frequency? How do you explain that it has been the most successful club on the world for a century and more? Maybe taking prestige so seriously increments the amount of expertise, since one of the substantial advantages of sport over any other competitive activity is that it does not banish the magnetism of war, in fact it is tamed by the rule of fair play. Maybe it's that fair play, combined with an unique idiosyncrasy to understand this sport, which has led the team to be the epitome of football glory. Since its foundation in 1902 by two Catalan brothers to the expectation created by a new and colossal stadium for the future, and through the visionary character of Santiago Bernabéu and its current president, the reader will find arguments through the pages of this book to debunk its black legend, as well as the keys and details that have lead Real Madrid to be the most successful, famous and cosmopolitan enterprise that Spain has given to the world. Antonio Escohotado and Jesús Bengoechea examine the most admired (and envied) sports institution's past looking for answers, and incidentally they put its historical vicissitudes in context on light of the history of Spain and the rest of the world.
