Selling the American Muscle Car Diego Rosenberg,2016-10-14 As the muscle car wars developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Automotive writer Diego Rosenberg examines the tactics and components used by manufacturers in waging war against one another in the muscle car era. Manufacturers poured millions into racing programs, operating under the principle of Win on Sunday, Sell on Monday. Cars were given catchy nicknames, such as The GT0 Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Entire manufacturer lines were given catchy marketing campaigns, such as Dodge's Scat Pack, AMC's Go Package, and Ford's Total Performance. From racing to commercials to print ads, from dealer showrooms to national auto shows, each manufacturer had its own approach in vying for the buyer's

attention, and gimmicks and tactics ranged from comical to dead serious. Selling the American Muscle Car: Marketing Detroit Iron in the 60s and 70s takes you back to an era when options were plentiful and performance was cheap. You will relive or be introduced to some of the cleverest marketing campaigns created during a time when America was changing every day.

Savage J.C. Staudt,2017-11-07 Yeah, I killed him. Kind of. I banished his soul to another plane of existence, leaving his body - and his life - to rot away in this one. Give me a break. It was an accident. I needed to find out who sent him, so I did something few would've dared. I assumed his identity. That's right; I'm an impostor. Stupid move, I know. Now I'm trying to manage the intricacies of a new life, a new family, and more new magic than I can shake a ten-foot yeti at. No matter how much magic I get my hands on, somehow I want more. That's why I'll follow a goblin down a barrel of cooking grease, rescue a girl from a vampiric social activist group, and search for my lost brother even though we're not actually related. Apparently wizards really do have all the fun. This book contains violence and adult language. Cyclone Country Chrystopher J. Spicer, 2020-09-09 The storm has become a universal trope in the literature of crisis, revelation and transformation. It can function as a trope of place, of apocalypse and epiphany, of cultural mythos and story, and of people and spirituality. This book explores the connections between people, place and environment through the image of cyclones within fiction and poetry from the Australian state of Queensland, the northern coast of which is characterized by these devastating storms. Analyzing a range of works including Alexis Wright's *Carpentaria*, Patrick White's *The Eye of the Storm*, and Vance Palmer's *Cyclone* it explains the cyclone in the Queensland literary imagination as an example of a cultural response to weather in a unique regional place. It also situates the cyclones that appear in Queensland literature within the broader global context of literary cyclones.
