**Five Red Trucks** Katie Button,2022-04 Peek through the windows to find the trucks and diggers and count from 5 to 1 in this carry handle story book that's perfect for on-the-move story time and first counting fun! There are five busy red trucks to find in this Count and Carry board book. Peek through the die-cut shaped windows to discover what each truck is doing and turn the page to count them down from 5 to 1. The rhyming story is fun to read aloud, with lots of sound words to call out, and the busy illustrations are full of construction site things to find. With sturdy card pages, the book features a die-cut handle for on-the-move reading fun. This Count and Carry board book series is perfect for sharing with toddlers to encourage first reading, and to develop early learning math skills as the characters are counted down from 5 to 1.

**The Red Winter** Henry H. Neff,2014-11-25 An inventive and action-packed mix of fantasy, science fiction, and mythology, all in a realistic contemporary setting. Rowan has won a battle, but not the war. With proper allies, Rowan's armies could storm the demon stronghold, capture its ruler, and end the reign of demonkind. But while nations clash, a greater struggle lies elsewhere. In his desperate pursuit of Astaroth, Elias Bram scours the world for clues to the fiend's true origins, identity, and purpose. His horrifying discoveries hint that not only is humanity at risk, but the earth itself. Its fate may depend upon three children. With their unmatched skills, it's up to Max McDaniels, David Menlo, and little Mina to tip the balance! In the Tapestry's final volume, Henry H. Neff concludes an unforgettable series in which magic can live, gods can die, and the highest stakes require the greatest sacrifice.

*The Five Red Herrings* Dorothy L. Sayers,2012-07-31 "Beyond question one of the most skillful mystery writers . . . offers a first rate piece of work. . . . Lord Peter Wimsey [is] at his amusing best. . . . The book is a treat" (The New York Times). The majestic landscape of the Scottish coast has attracted artists and fishermen for centuries. In the idyllic village of Kirkcudbright, every resident and visitor has 2 things in common: They either fish or paint (or do both), and they all hate Sandy Campbell. Though a fair painter, he is a rotten human being, and cannot enter a pub without raising the blood pressure of everybody there. No one weeps when he dies. Campbell's body is found at the bottom of a steep hill, and his easel stands at the top, suggesting that he took a tumble while painting. But something about the death doesn't sit right with gentleman sleuth Lord Peter Wimsey. No one in Kirkcudbright liked Campbell, and 6 hated him enough to become suspects; 5 are innocent, and the other is the perpetrator of the most ingenious murder Lord Peter has ever encountered. *The Five Red Herrings* is the 7th book in the Lord Peter Wimsey Mysteries, but you may enjoy the series by reading

the books in any order. This ebook features an illustrated biography of Dorothy L. Sayers including rare images from the Marion E. Wade Center at Wheaton College.

*Red Valkyries* Kristen Ghodsee,2022-07-12 The lives of five socialist women and their legacy for modern-day feminists *Red Valkyries* explores the history of socialist feminism in Eastern Europe. Through the revolutionary careers of five prominent socialist women active in the nineteenth and twentieth centuries—the aristocratic Bolshevik Alexandra Kollontai; the radical pedagogue Nadezhda Krupskaya; the polyamorous firebrand Inessa Armand; the deadly sniper Lyudmila Pavlichenko; and the partisan, scientist, and global women’s activist Elena Lagadinova—Kristen Ghodsee tells the story of the personal challenges faced by earlier generations of radicals. None of these women was a perfect leftist. Their lives were filled with inner conflicts, contradictions, and sometimes outrageous privilege. But they managed to fight for their own political projects with perseverance and dedication. Always walking a fine line between the need for class solidarity and the desire to force their sometimes callous male colleagues to take women’s issues seriously, these women pursued novel solutions with many lessons for those who might follow in their footsteps.

*The Five Red Herrings* Dorothy L. Dorothy L. Sayers,2021-10-10 Excerpt If one lives in Galloway, one either fishes or paints. Either is perhaps misleading, for most of the painters are fishers also in their spare time. To be neither of these things is considered odd and almost eccentric. Fish is the standard topic of conversation in the pub and the post-office, in the garage and the street, with every sort of person, from the man who arrives for the season with three Hardy rods and a Rolls-Royce, to the man who leads a curious, contemplative life, watching the salmon-nets on the Dee. Weather, which in other parts of the Kingdom is gauged by the standards of the farmer, the gardener, and the weekender, is considered in Galloway in terms of fish and paint. The fisherman-painter has the best of the bargain as far as the weather goes, for the weather that is too bright for the trout deluges his hills and his sea with floods of radiant colour; the rain that interrupts picture-making puts water into the rivers and the locks and sends him hopefully forth with rod and creel; while on cold dull days, when there is neither purple on the hills nor fly on the river, he can join a friendly party in a cosy bar and exchange information about Cardinals and March Browns, and practise making intricate knots in gut. The artistic centre of Galloway is Kirkcudbright, where the painters form a scattered constellation, whose nucleus is in the High Street, and whose outer stars twinkle in remote hillside cottages, radiating brightness as far as Gatehouse-of-Fleet. There are large and stately studios, panelled and high, in strong stone houses filled with gleaming brass and polished oak. There are workaday studios-

summer perching-places rather than settled homes-where a good north light and a litter of brushes and canvas form the whole of the artistic stock-in-trade. There are little homely studios, gay with blue and red and yellow curtains and odd scraps of pottery, tucked away down narrow closes and adorned with gardens, where old-fashioned flowers riot in the rich and friendly soil. There are studios that are simply and solely barns, made beautiful by ample proportions and high-pitched rafters, and habitable by the addition of a tortoise stove and a gas-ring. There are artists who have large families and keep domestics in cap and apron; artists who engage rooms, and are taken care of by landladies; artists who live in couples or alone, with a woman who comes in to clean; artists who live hermit-like and do their own charring. There are painters in oils, painters in water-colour, painters in pastel, etchers and illustrators, workers in metal; artists of every variety, having this one thing in common-that they take their work seriously and have no time for amateurs. Into this fishing and painting community, Lord Peter Wimsey was received on friendly and even affectionate terms. He could make a respectable cast, and he did not pretend to paint, and therefore, though English and an in-comer, gave no cause of offence. The Southron is tolerated in Scotland on the understanding that he does not throw his weight about, and from this peculiarly English vice Lord Peter was laudably free. True, his accent was affected and his behaviour undignified to a degree, but he had been weighed in the balance over many seasons and pronounced harmless, and when he indulged in any startling eccentricity, the matter was dismissed with a shrug and a tolerant, Christ, it's only his lordship. Wimsey was in the bar of the McClellan Arms on the evening that the unfortunate dispute broke out between Campbell and Waters. Campbell, the landscape painter, had had maybe one or two more wee ones than was absolutely necessary, especially for a man with red hair, and their effect had been to make him even more militantly Scottish than usual. He embarked on a long eulogy of what the Jocks had done in the Great War, only interrupting his tale to inform Waters in parenthesis that all the English were of mongrel ancestry and unable e...

**A Monte Carlo Primer** Stephen A. Dupree, Stanley K. Fraley, 2012-09-07 The mathematical technique of Monte Carlo, as applied to the transport of sub-atomic particles, has been described in numerous reports and books since its formal development in the 1940s. Most of these instructional efforts have been directed either at the mathematical basis of the technique or at its practical application as embodied in the several large, formal computer codes available for performing Monte Carlo transport calculations. This book attempts to fill what appears to be a gap in this Monte Carlo literature between the mathematics and the software. Thus, while the mathematical basis for Monte

Carlo transport is covered in some detail, emphasis is placed on the application of the technique to the solution of practical radiation transport problems. This is done by using the PC as the basic teaching tool. This book assumes the reader has a knowledge of integral calculus, neutron transport theory, and Fortran programming. It also assumes the reader has available a PC with a Fortran compiler. Any PC of reasonable size should be adequate to reproduce the examples or solve the exercises contained herein. The authors believe it is important for the reader to execute these examples and exercises, and by doing so to become accomplished at preparing appropriate software for solving radiation transport problems using Monte Carlo. The step from the software described in this book to the use of production Monte Carlo codes should be straightforward.

*Arkansas Fury* J. R. Fitzgerald,2007-05 A taut, gripping tale of loyalty between three teenage friends and their search for self-worth amid societal and parental expectations. Who do you want to be?

Turbulent Decade Jiaqi Yan,Gao Gao,1996-02-01 Yan Jiaqi, one of the principal leaders of China's pro-democracy movement, and his wife, Gao Gao, a noted sociologist, set out to write a comprehensive narrative account of the Great Proletariat Cultural Revolution, which occurred in the second decade after Mao Zedong and his comrades came to power. It appeared in Hong Kong in 1986, and was quickly banned by the Communist government. Not surprisingly, censorship and restricted circulation in China resulted in underground reproduction and serialization. The work was thus widely read, coveted, and appreciated by a populace who had just freed itself from the cultural drought and political dread of the event. Yan and Gao later spent two years revising and expanding their work. The present volume, *Turbulent Decade: A History of the Cultural Revolution*, is based on the revised edition and has been masterfully edited and translated by D.W.Y. Kwok in consultation with the authors. It makes available for the first time in English Yan and Gao's remarkable record of the traumatic Cultural Revolution decade and remains the only single-volume narrative history of the revolution written from an independent and personal perspective. It is a sweeping historical account, notable for its moral courage, for its empathy, for the significance of the questions it addresses, and for its sobering, ultimately tragic view of human behavior.

**Croatian Cultural Renaissance** G. Doug Davis, 2024-03-18 Croatia is a beautiful country with a rich culture that has profoundly impacted the world. This work contains essays on the different areas of Croatia's national culture from its leading scholars and artists; their contributions provide a glimpse into Croatia's fascinating past and present.

**The Oxford Handbook of Ethical Theory** Professor of Philosophy David Copp, David Copp, 2006-01-26 The Handbook is a comprehensive reference work in ethical theory consisting of commissioned articles by leading scholars. The first part treats meta-ethics and the second part normative ethical theory. As with all the Oxford Handbooks, the collection is designed to achieve three goals: exposition of central ideas, criticism of other approaches, and defenses of distinct points of view.

Drago's Vendetta Jim Meehan, 2020-02-07 *Drago's Vendetta* By: Jim Meehan *Drago's Vendetta* is the story of a man seeking vengeance for the loss of his family in an early World War II bombing. A former fighter pilot, he sees the recovery of a lost fighter plane as the means to take the war to the bombers who have killed his wife and son. The story takes place around a small island near Sicily and intimately chronicles the man's hatred of the war and the belligerents who have taken his loved ones and made his peaceful home a battleground. Repairing the fighter with the help of trusted local fishermen, he begins flying against both German and British bombers from a hidden strip of beach, keeping his secret from his remaining teenage daughter and the other islanders. A thriving black market supplies him with fuel and ammunition. The British on Malta and the Germans in Sicily soon notice the loss of aircraft to an unmarked fighter and plans are put in motion to find and eliminate it. His missions become more difficult as the Mediterranean air war intensifies. The grieving widower attracts the sympathy and interest of the local school teacher and also a recent widow who find

themselves in competition for his attention. Characters in the story also include British, German and Italian air crews, a Sicilian bar girl involved with a German flyer, and the embattled islanders themselves.

*The Party Empire* H. Yuan Tien,2015-03-20 All peoples have their share of brutal rulers. The longer their history, the more numerous such notorious rulers they have inevitably witnessed, and the greater the diversity of their pitiless behavior. China's encounter with such ordeals began in antiquity and continues into the modern era.

**Ride the Wilderness** Michael Juge,2012-03 Washington DC Intelligence Analyst Chris Jung has gone fetal. Tormented by panic-fueled obsessive thoughts and buried in TPS reports, the walls of his cubicle are closing in. But when a mysterious series of EMPs plunges the industrialized world into darkness, it saves Chris from himself and spurs him to head for the hills with his pregnant wife. Along the way, Chris meets Rita Luevano, a jaded Unitarian reverend who leads a motley horde fleeing to Monticello. Together with the remnants of a Marine battalion, Chris and Rita help establish communities of urban refugees in the Shenandoah Valley. They and the other lucky few who have escaped civilization's collapse learn the lost arts of subsistence agriculture, blacksmithing and archery in order to adapt to a world devoid of technology and instant gratification. Faced with the specter of starvation and death, Chris and Rita must face their own demons and conjure the dormant will to live even while pop tunes and TV commercials still ring fresh in their ears and they no longer have Wikipedia to give them the answers. Not everything from the old world has perished. One corporate entity, a black ops military security corporation, weathered the collapse and seeks hostile takeovers of what the burgeoning communities have scraped together. Thrust out of their suburban malaise and into a gritty struggle for survival, a tenacious spirit awakens in the haunted souls of Chris and Rita who find their authentic selves at the end of civilization.
