The Editors of TIME

Inside the Red Border Editors of TIME Magazine,2013-10-15 As a unique window on the world, the cover of TIME is the most celebrated and coveted showcase in print journalism. People who have had their faces on TIME's cover--Presidents and movie stars, corporate titans and sporting legends--consider it one of the highest forms of recognition. To TIME's worldwide audience of nearly 50 million, the cover declares, Dear reader, we've decided this is important for you to know. In *Inside the Red Border*, thousands of weekly statements of who and what matters are telescoped into a single, never-before-assembled volume that traces our modern history through TIME's iconic artwork and cover stories that became an influential part of the news they were covering. TIME's cover, has never lost its power to immediately send the signal...that in some way history is being made before our eyes. That power was reasserted as recently at May 2012 by TIME's instantly famous cover, *Are You Mom Enough?* In celebration of 90 years of TIME, *Inside the Red Border* features interviews with former and current magazine editors to offer insight and a revealing look at how TIME chooses to cover historic moments within its iconic red border.

The Elements of Relativity David M. Wittman,2018-05-10 Relativity has much to offer for a well-rounded education. Yet books on relativity either assume a strong background in physics and math, aimed at advanced physics students, or, alternatively, offer a broad description with little intellectual challenge. This book bridges the gap. It aims at readers with essentially no physics or math background, who still find it rewarding to think rigorously. The book takes a thinking tools approach, by first making readers comfortable with a new thinking tool and then applying it to learn more about how nature works. By the end of the book, readers will have collected a versatile toolbox and will be comfortable using the tools to think about and really understand the intriguing phenomena they may have only heard about, including the twin paradox, black holes, and time travel. End-of-chapter exercises span a range of difficulty, allowing adventurous readers to stretch their understanding further as desired. Students who have studied, or are studying, relativity at a more mathematical level will also find the book useful for a more conceptual understanding.

Bulletin ,1919

Math Logic, Grades 6 - 12 Q. L. Pearce,2008-09-02 Make math matter to students in grades 5 and up using Math Logic! This 80-page book includes logic problems at three skill levels. Each nonroutine problem includes the situation, variables involved, and clues that help students work through the problem. The logic problems meet NCTM standards for reasoning, proof, and problem solving.

The Ducati Monster Bible Ian Falloon,2011 Dramatically styled, minimalist in stature, yet bristling with innovative engineering, the 900 Monster created a new niche market. This book provides a guide through the maze of Monsters produced over the past 18 years.

Christmas Card Maker Alan Weller,2011-08-18 From your heart to theirs — keepsake cards you create using your home computer and printer! This all-in-one set includes our exclusive Dover Design Studio software with over 250 images, patterns, fonts, and artful greetings; video lessons; and templates for bi-fold cards, a postcard, and envelopes. A gallery of finished cards provides inspiration. Cards and envelopes not included. Mac and PC compatible.

Mobile Computing, Applications, and Services Kazuya Murao, Ren Ohmura, Sozo Inoue, Yusuke Gotoh,2018-05-05 This book constitutes the thoroughly refereed post-conference proceedings of the 9th International Conference on Mobile Computing, Applications, and Services (MobiCASE 2015) held in Osaka, Japan, February 28 – March 2, 2018. The 10 full papers and 13 demo/ poster papers were carefully reviewed and selected from 35 submissions. The conference papers are covering intelligent caching; activity recognition and crowdsourcing; mobile frameworks; middleware; interactive applications; and mobility.

The American Journal of Philately ,1895

The Excavations at Ismant al-Kharab Gillian E Bowen,2024-02-29 The adoption of Christianity by the Egyptian populace was well underway by the late third century, but evidence for its presence in the archaeological record from the Nile valley is sparse. This is due, in part, to the loss of ancient settlement sites beneath modern cultivation. By comparison, Ismant al-Kharab, ancient Kellis, in Dakhleh Oasis, was abandoned at the end of the fourth century and many of its structures survive intact. The villagers, moreover, left behind a wealth of artefacts and documentation. By the late third century some had converted to Christianity and by the early fourth century three churches were built to accommodate their growing numbers. The churches afford an unparalleled window into three ecclesiastical complexes that served a single village. The Large East Church, moreover, is the earliest surviving example of a purpose-built basilica in Egypt known thus far. It provides a better understanding of the development of Egyptian church architecture and has forced a reappraisal of the dates of certain features that were previously attributed to the fifth century. The community established three burial grounds: Kellis 2, with an estimated 3,500–4,000 graves, a funerary church and associated graveyard, and in a reused monumental mausoleum. Christian cemeteries are known throughout North Africa, Europe, and Britain, but in Egypt few are published in anything but a cursory manner. At Kellis, 800+ graves have been excavated; the earliest burials date to the late third century confirming the evidence of an early conversion by some villagers and its rapid expansion thereafter. This volume provides the first detailed publication of the churches and Christian burial grounds. It incorporates a discussion of the spread of Christianity in Egypt's Southern Oasis, drawing upon data from the rich textual documentation from the site. The material culture is presented in detail, especially the extensive collection of ceramics, glass, and coins.

Album and catalogue of British & foreign postage stamps, revised, corrected, and brought up to the present time, by dr. Viner Edward A. Oppen,1883

Weight Bearing Cone Beam Computed Tomography (WBCT) in the Foot and Ankle Martinus Richter, Francois Lintz, Cesar de Cesar Netto, Alexej Barg, Arne Burssens, Scott Ellis,2019-12-18 This scientific, technical and clinical guide to Weight Bearing Cone Beam Computed Tomography (WBCT), written by the board of the International WBCT Society, presents all of the relevant content to date on the development, implementation, interpretation and clinical application of WBCT for the foot and ankle. Part One describes the history of the development of, and need for, WBCT as an imaging option and a scientific overview of the procedure. Part Two is an exhaustive scientific background, comprised of 16 landmark studies, describing its advantages for selected foot and ankle injuries and deformities (both congenital and acquired). With this science as context, Part Three includes chapters on the technical aspects and necessary background for WBCT, introduces the different devices, and provides insight into the actual measurement possibilities, including the initial software solutions for automatic measurements. Current clinical applications via case material are illustrated in atlas-like fashion in the next chapter, and a final chapter on future developments explores further applications of WBCT, such as dynamic scans and measurements or hologram-like visualization. The first book publication of its kind on this exciting and developing imaging modality, Weight Bearing Cone Beam Computed Tomography (WBCT) in the Foot and Ankle will be an excellent resource for orthopedic and foot and ankle surgeons, radiologists, and allied medical professionals working in this clinical area.

Craniofacial Distraction Joseph G. McCarthy,2017-06-08 This book, edited by a leading pioneer of craniofacial distraction, summarizes the progress achieved in the field in a way that will serve the needs of the practicing clinician. All components of the craniofacial anatomy are covered and all topics are discussed in depth: clinical and anatomic pathology, diagnostic studies, treatment protocols, preoperative planning (including the latest virtual programs), device selection, operating room technical considerations, postoperative management, and intermediate/long-term follow-up. Relevant and timely studies from the literature are cited. The book is excellently illustrated, with many patient photos, radiographs, and drawings. Craniofacial Distraction will be a superb, up-to-date resource for a wide range of practitioners, including maxillofacial surgeons, craniofacial surgeons, plastic surgeons, head and neck surgeons, pediatric surgeons, orthodontists, prosthodontists, and pedodontists.

Mastering the Nikon Z6 II / Z7 II Darrell Young,2021-07-12

Learn to master your Nikon Z6 II / Z7 II and take full advantage of all its capabilities!

Mastering the Nikon Z6 II / Z7 II by Darrell Young provides a wealth of experience-based information and insights for owners of the new Z6 II or Z7 II camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment.

This book explores the features and capabilities of the cameras in a way that far surpasses the user’s manual. It guides readers through the cameras’ features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell’s friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.
