*Red Star* Alexander Bogdanov, 1984-06-22 “An Earth-man’s journey to the planet Mars, where he is treated to a wondrous vision of a communist future, complete with flying cars and 3D color movies.” —Wonders & Marvels A communist society on Mars, the Russian revolution, and class struggle on two planets is the subject of this arresting science fiction novel by Alexander Bogdanov (1873–1928), one of the early organizers and prophets of the Russian Bolshevik party. The red star is Mars, but it is also the dream set to paper of the society that could emerge on earth after the dual victory of the socialist and scientific-technical revolutions. While portraying a harmonious and rational socialist society, Bogdanov sketches out the problems that will face industrialized nations, whether socialist or capitalist. “[A] surprisingly moving story.” —The New Yorker “The contemporary reader will marvel at [Bogdanov’s] foresight: nuclear fusion and propulsion, atomic weaponry and fallout, computers, blood transfusions, and (almost) unisexuality.” —Choice “Bogdanov’s novels reveal a great deal about their fascinating author, about his time and, ironically, ours, and about the genre of utopia as well as his

contribution to it.” —Slavic Review

Red Stars Davide Morosinotto, 2021-01-19 This middle grade mystery adventure, told in a unique format including diary entries, maps and photos, takes readers along on the harrowing journeys of two twelve-year-old siblings, separated just before the Nazi siege of their city and each desperate to reunite with one another. Twins Viktor and Nadya are twelve years old when Hitler's Germany declares war on the Soviet Union. With little notice, the city's children are evacuated on trains that are meant to take them to safety. Shockingly, Viktor and Nadya are separated, and disaster befalls them both. As the terrible conflict rages, each embarks on a desperate race across snow and ice, struggling through the destruction in an effort to be reunited. Their chances are slim, but they never lose hope. In an original format--using the kids' diary entries, with historical photos, maps, and drawings throughout, this fictionalized account of the Nazi siege of Leningrad during the Second World War, this heart-stopping story of danger, courage and bravery emphasizes the power of truth and what it means to be a hero.

**Yellow Star, Red Star** Jelena Subotić, 2019-12-15 Yellow Star, Red Star asks why Holocaust

memory continues to be so deeply troubled—ignored, appropriated, and obfuscated—throughout Eastern Europe, even though it was in those lands that most of the extermination campaign occurred. As part of accession to the European Union, Jelena Subotić shows, East European states were required to adopt, participate in, and contribute to the established Western narrative of the Holocaust. This requirement created anxiety and resentment in post-communist states: Holocaust memory replaced communist terror as the dominant narrative in Eastern Europe, focusing instead on predominantly Jewish suffering in World War II. Influencing the European Union's own memory politics and legislation in the process, post-communist states have attempted to reconcile these two memories by pursuing new strategies of Holocaust remembrance. The memory, symbols, and imagery of the Holocaust have been appropriated to represent crimes of communism. *Yellow Star, Red Star* presents in-depth accounts of Holocaust remembrance practices in Serbia, Croatia, and Lithuania, and extends the discussion to other East European states. The book demonstrates how countries of the region used Holocaust remembrance as a political strategy to resolve their contemporary ontological

insecurities—insecurities about their identities, about their international status, and about their relationships with other international actors. As Suboti□ concludes, Holocaust memory in Eastern Europe has never been about the Holocaust or about the desire to remember the past, whether during communism or in its aftermath. Rather, it has been about managing national identities in a precarious and uncertain world.

Red Star Tattoo Sonja Larsen, 2018-07-03 Winner of the Edna Staebler Award for Creative Non-Fiction Finalist for the Hilary Weston Writers' Trust Prize for Nonfiction Red Star Tattoo is Sonja Larsen's unforgettable memoir of a young life spent on the move, from hardscrabble Milwaukee to dreamy Hawaii, from turbulent Montreal to free-spirited California. At the age of 16, Sonja joins a cult-like communist organization in Brooklyn--unaware of the dark nature of what awaits her. A small, skinny 8-year-old girl holding a teddy bear stands by the side of a country road with a young man she barely knows. They're hitchhiking from a commune in Quebec to one in California. It is 1973 and somehow the girl's parents think this is a good idea. Sonja Larsen's is a childhood in which family

members come and go and where freedom is both a gift and a burden. Her mother, thrown out of home as a pregnant teenager by her evangelical preacher father, is drawn to the utopian ideals and radical politics of communism. Her aunt Suzie is gripped by schizophrenia, her behaviour so erratic she eventually loses custody of her daughter. And then there is her cousin Dana, shunted back and forth long-distance between her parents--Dana, whose own need to escape leads to tragedy. Looking for a sense of family, searching to belong, to have your life mean something--this is what all these girls and young women share. As a teenager, Larsen moves to Brooklyn, embedding herself with an organization known publicly as the National Labor Federation and privately as the Communist Party USA Provisional Wing. Over her three years at the organization's national headquarters, Larsen works sixteen-hour day, eager to prove herself. Noticed and encouraged by the Old Man, the organization's charismatic leader, he makes her one of his special girls, as well as the youngest member of the organization's militia and part of its inner circle. But even as she and her comrades count down the days on the calendar until the dawning of their new American revolution, Larsen's doubts about the

cause and the Old Man become increasingly difficult to ignore. *Red Star Tattoo* explores the seductions and dangers of extremism, and asks what it takes to survive a childhood scarred by loss, abuse and the sometimes violent struggle for belonging.

*Red Star Over the Pacific* Toshi Yoshihara, James R. Holmes, 2013 Original publication and copyright date: 2010.

*White Eagle, Red Star* Norman Davies, 2011-04-30 Surprisingly little known, the Polish-Soviet War of 1919-20 was to change the course of twentieth-century history. In *White Eagle, Red Star*, Norman Davies gives a full account of the War, with its dramatic climax in August 1920 when the Red Army - sure of victory and pledged to carry the Revolution across Europe to 'water our horses on the Rhine' - was crushed by a devastating Polish attack. Since known as the 'miracle on the Vistula', it remains one of the most decisive battles of the Western world. Drawing on both Polish and Russian sources, Norman Davies illustrates the narrative with documentary material which hitherto has not been readily available and shows how the War was far more an 'episode' in East European affairs, but largely

determined the course of European history for the next twenty years or more.

Red Star Rogue Kenneth Sewell, Clint Richmond, 2006-09-26 The Hunt for Red October meets Blind Man's Bluff in this chilling, true story of a rogue Soviet submarine that sank while trying to provoke a war between the U.S. and China.

Dragonseye Anne McCaffrey, 1997-12-27 In Anne McCaffrey's New York Times bestselling Dragonseye, join Weyrleaders, Holders, and Craftmasters in the creation of the legendary Star Stones and the teaching ballads of Pern! It's been two hundred years since the deadly Thread fell like rain upon Pern, devouring everything in its path. No one alive remembers that first horrific onslaught and no one believes in its return—except for the dragonriders. For two centuries they have been practicing and training, passing down from generation to generation the formidable Threadfighting techniques. Now the ominous signs are appearing: the violent winter storms and volcanic eruptions that are said to herald the approach of the Red Star and its lethal spawn. But one stubborn Lord Holder, Chalkin of Bitra, refuses to believe--and that disbelief could spell disaster. So as the dragonriders desperately

train to face a terrifying enemy, they and the other Lord Holders must find a way to deal with Chalkin—before history repeats itself and unleashes its virulence on all of Pern. . . .

**Red Star, Blue Star** Andrew Handler, Susan V. Meschel, 1997 This text traces the evolution of Communism in post-war Hungary. It identifies the distinctive features of the Jewish community and describes the relationship of the Communist authorities and the Jewish leadership, pinpointing the difficulties of Jewish students in all walks of life. The second part of the book contains the recollections of 17 people, all Holocaust survivors, who faced the threat of Communism in Hungary. These contributors managed to preserve freedom of speech and action, as well as their Jewish self-awareness, in the darkest years of Stalinist Communism in Hungary.

**Red Star Rogue** Kenneth Sewell, Clint Richmond, 2005-10-01 This riveting New York Times bestseller tells of the shocking true story of a rogue Soviet submarine poised for a nuclear strike on the United States, “reveal[ing] the explosive facts about one of the best-kept secrets of the Cold War” (The Flint Journal). On March 7, 1968, several hundred miles northwest of Hawaii, the nuclear-armed

K-129 surfaced and sunk, taking its crewmen and officers with it to perish at sea. Who was commanding the rogue Russian sub? What was its target? How did it infiltrate American waters undetected? Drawing from recently declassified documents and extensive confidential interviews, Navy veteran Kenneth Sewell exposes the stunning truth behind an operation calculated to provoke war between the United States and China. With full, authoritative detail and sixteen pages of exclusive photographs, *Red Star Rogue* illuminates this history-shaping event and rings with chilling relevance in light of today's terrorist threats.

Red Star Rising Brian Freemantle, 2010-08-03 Britain's MI5 tolerates Charlie Muffin because he's their best field agent. What none of his colleagues knows, though, is that he is married to Natalia Fedova, a colonel in the FSB, the Russian intelligence successor to the KGB. It's a secret that could land her in front of a firing squad, and him in jail for life. Worst of all, their daughter would then end up in a Russian state orphanage. But a frantic call from Natalia has brought their secret out, and Charlie must lead a combined MI5/MI6 mission to rescue her. He soon realizes that his higher-ups have other

priorities than his family's safety. Charlie will have to outwit not just the Russians but his own government as well to protect the lives of his wife and child. Clever, unpredictable, and exciting, *Red Star Burning* shows why Brian Freemantle has been widely praised as one of the greatest living espionage novelists.

Grammar Galaxy Red Star Melanie Wilson, 2019-06-09 Grammar Galaxy: Red Star (Volume 4) is a complete language arts curriculum for elementary students (fifth graders or students who have completed Yellow Star or its equivalent). Short, comical stories teach concepts in a memorable way. Students discover the havoc that ensues when the evil Gremlin tampers with the English language. After students or teachers read one of the mysteries from the separate text, young guardians complete a corresponding mission with three short steps in this mission

manual that reinforces the concepts. Teachers provide as much help as necessary. *Yellow Star, Red Star* Agnes Kaposi, 2020 Agnes Kaposi was born in Hungary the year before Hitler came to power and started school at the outbreak of World War II. The Holocaust killed many of her family, together with half a million Hungarian Jews, but a series of miracles and coincidences allowed her to survive. She worked as a child labourer in the agricultural and armament camps of Austria and was liberated by a rampaging Soviet army. She struggled through post-war hardship to re-

enter Hungarian society, only to be caught up for a decade in the vice of Stalinism. In 1956 a bloody revolution offered the opportunity to escape to Britain, a country of freedom and tolerance, where she started a family and built a career as a ground-breaking electrical engineering teacher and consultant. Dr Kaposi writes with compassion and optimism, without self-pity. The tone is light, and there is plenty of irony, even humour. The narrative is underscored by the historian László Csősz and illustrated by several maps and more than a hundred archival images and family photographs.

**How the “Red Star” Rose** Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into “red China” to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars. Mao Zedong’s biography has been the subject of an international mountain of commentary in China and elsewhere. Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow’s (1905–1972) account in Red Star over China for the route Mao traveled from early childhood through his youth. How the “Red Star” Rose introduces the image of Mao and the biographical information made known to the world

through the publication of Red Star, and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of "historical materials." ----- With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions—What did the world know of Mao before the publication of Edgar Snow's Red Star over China? How did Red Star change that understanding? With the meticulous research, careful documentation, and fair-minded judgment that characterizes all of Ishikawa's work, he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow's historic trip to northern Shaanxi, and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa's scholarship stands out as a rare

model of judicious balance. —Joseph W. Esherick, Emeritus Professor, Hwei-chih and Julia Hsiu Chair in Chinese Studies, University of California, San Diego This book is, first, an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century, a text that broke through a wall of intelligence blockade to give to the world, in an autobiographical voice and with a striking image, the debut of the revolutionary Mao while holed up in a mountain base area. It is, in addition, a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must-read for all with an interest in Mao, journalism, and the history of books. —Wen-hsin Yeh, Richard H. and Laurie C. Morrison Chair Professor in History, University of California, Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated, and transmuted, into Chinese, Russian

and Japanese. Joshua Fogel's careful translation brings this impeccable example of Japanese sinology to the English reading public. —Timothy Cheek, Professor and Louis Cha Chair in Chinese Research, University of British Columbia

Wendy Red Star: Delegation ,2022-05-17 Delegation is the first comprehensive monograph by Apsáalooke/Crow artist Wendy Red Star, whose photography recasts historical narratives with wit, candor, and a feminist, Indigenous perspective. Red Star centers Native American life and material culture through imaginative self-portraiture, vivid collages, archival interventions, and site-specific installations. Whether referencing nineteenth-century Crow leaders or 1980s pulp fiction, museum collections or family pictures, she constantly questions the role of the photographer in shaping Indigenous representation. Including a dynamic array of Red Star's lens-based works from 2006 to the present, and a range of essays, stories, and poems, Delegation is a spirited testament to an influential artist's singular vision.
