Michael Shuman

The Reliant Dr. Patrick Johnston, 2017-04-15 When the dollar collapses, widespread rioting and looting threaten the peace of a family in Zanesville, Ohio. Eight children tragically lose their parents in the chaos. The oldest, 19-year-old lovesick Sophie, is forced to care for her defenseless and hungry siblings in a stretch of woods surrounded by lawless anarchy. Their father has been killed, and their mother and Adam, Sophie's fiancé, have gone missing. Running out of food and facing threats from encroaching marauders, they are tempted to doubt God's love. When Sophie discovers her fiancé has resorted to looting to survive, she cannot bring herself to forgive him, however hard he tries to make amends. Must he sacrifice everything to win her back? When they capture a thief, they learn the attack on their home was no random act of violence. Torn between justice and mercy, with their allies turning against them, their faith is heated in the fire. Will God answer their prayers and deliver them, or must their faith remain blind to facts?

Transitioning From Globalized to Localized and Self-Reliant Economies Gupta, Ruchika, Srivastava, Priyank, Ranjan, Shiv, Badar, M. Affan, 2021-12-17 The outbreak of COVID-19 had a profound impact on global economic growth. Global trade has transformed drastically and will only continue to do so as countries vote on export and import decisions based on global competition. Many countries would be compelled to reconsider multi-country trade deals as internal interests will push and dictate them. More important than ever, it is imperative that self-reliant economies be investigated specifically in the post-COVID-19 era in order to understand the impacts made on international ties and trade agreements. Transitioning From Globalized to Localized and Self-Reliant Economies is a comprehensive reference source that looks at how economies are now moving towards becoming self-reliant, especially in the wake of the COVID-19 pandemic. Covering topics such as digitalization, technological innovation, and personal finance, this is a beneficial resource for economists, executives, managers, government

officials, policymakers, entrepreneurs, IT departments, human resource managers, CEOs, students, researchers, and academicians.

Open Self-reliant Regionalism Li Choy Chong, 1981 This book is addressed to the problem of Southeast Asia's powerlessness in relation to the control over developmental resources. Based on a discussion of previous conceptions and the reality of the relationship between development and international relations in Southeast Asia, a theory of international power and relation, which determines resource allocation, and hence developmental capacity, is evolved. Unlike the conception of power in other theories, this theory differentiates between two generic types of power, namely, systemic power which is based on dependence implied in the system of international relations, and asystemic power, which is based on various attributes of nations. From this theory, the strategy of open self-reliant regionalism is developed and applied to ASEAN. This strategy manipulates international balances of powers and dependence in order to benefit ASEAN. Through the application of this strategy, ASEAN countries may be able to obtain the capacity to control more developmental resources and hence to apply them for their own development.

Will Bonsall's Essential Guide to Radical, Self-Reliant Gardening Will Bonsall, 2015 Society does not generally expect its farmers to be visionaries. Perhaps not, but longtime Maine farmer and homesteader Will Bonsall does possess a unique clarity of vision that extends all the way from the finer points of soil fertility and seed saving to exploring how we can transform civilization and make our world a better, more resilient place. In Will Bonsall's Essential Guide to Radical, Self-Reliant Gardening, Bonsall

maintains that to achieve real wealth we first need to understand the economy of the land, to realize that things that might make sense economically don't always make sense ecologically, and vice versa. The marketplace distorts our values, and our modern dependence on petroleum in particular presents a serious barrier to creating a truly sustainable agriculture. For him the solution is, first and foremost, greater self-reliance, especially in the areas of food and energy. By avoiding any off-farm inputs (fertilizers, minerals, and animal manures), Bonsall has learned how to practice a purely veganic, or plant-based, agriculture--not from a strictly moralistic or philosophical perspective, but because it makes good business sense: spend less instead of making more. What this means in practical terms is that Bonsall draws upon the fertility of on-farm plant materials: compost, green manures, perennial grasses, and forest products like leaves and ramial wood chips. And he grows and harvests a diversity of crops from both cultivated and perennial plants: vegetables, grains, pulses, oilseeds, fruits and nuts--even uncommon but useful permaculture plants like groundnut (*Apios*). In a friendly, almost conversational way, Bonsall imparts a wealth of knowledge drawn from his more than forty years of farming experience. My goal, he writes, is not to feed the world, but to feed myself and let others feed themselves. If we all did that, it might be a good beginning.

Scientific Approach for Self Reliant India DR.Renu Pandey , Dr.Rashmi Jaiswal , Dr.Aradhana Dhanaraj,2023-07-31 The Book *Scientific Approach for Self Reliant India* contains papers submitted to International Conference on Role of Science ,Education and Technology (ICRSET 2023) in Making India self-Reliant and Globally Competent. The Book integrates the scientific knowledge and their societal applications to make India find

its way among the Developed Nations.

Innovations in Agriculture for a Self-Reliant India P.K. Ghosh, Prabhat Kumar, Debashis Chakraborty, Debashis Mandal, P.N. Sivalingam, 2021-11-30 The book brings out an encyclopaedic picture of the potential areas of transformative Indian agriculture through innovations in science, technology, institutional and policy affairs directed in building a self-reliant India (Atmanirbhar Bharat). The book has addressed the challenges to make India free from hunger, poverty and undernutrition, and suggested interventions with focus on all-inclusiveness and sustainability, peace and prosperity, and resilience to climate and other volatilities. Most of these propositions are analogous to the Sustainable Development Goals – Agenda 2030, which India has committed to achieve. The book especially covers critical needs for development on different fragile ecosystems such as coastal, desert, hill, ravine and other marginal ecosystems. The book will act as very useful guidance for the policy makers, and development communities, and a reference document to academicians as well. Note: T&F does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. This title is co-published with NIPA.

The Self-Reliant Manager Christopher Bones, 2018-04-17 Originally published in 1994. What is a self-reliant manager? The self-reliant manager is one who can grow an organization by exploiting his or her role in the management of people. Not every manager is involved in top-level decision-making and the development of global strategies. Every manager is, however, by being involved in managing the people in an organization, empowered to take the company forward. The book covers key topics such as

empowerment, motivation, performance appraisal, the development of management learning systems, environmental awareness, ethics, and management style. It presents a model to show how managers can improve their own effectiveness. To succeed with people, managers need to understand themselves, the internal framework of their organization and the external environment in which their business operates. They have become self-reliant to develop the leadership and vision needed to influence their organization.

The Last Maori War in New Zealand Under the Self-reliant Policy Sir George Stoddart Whitmore, 1902

Going Local Michael Shuman, 2013-06-17 National drug chains squeeze local pharmacies out of business, while corporate downsizing ships jobs overseas. All across America, communities large and small are losing control of their economies to outside interests. Going Local shows how some cities and towns are fighting back. Refusing to be overcome by Wal-Marts and layoffs, they are taking over abandoned factories, switching to local produce and manufactured goods, and pushing banks to loan money to local citizens. Shuman details how dozens of communities are recapturing their own economies with these new strategies, investing not in outsiders but in locally owned businesses.

Self Made Nely Galán, 2016-05-31 For readers of #GIRLBOSS and viewers of Shark Tank—a global revolution in entrepreneurship is under way, inspiring women to blaze a trail of financial self-reliance and become self-made. Featuring a foreword by Suze Orman. What does it mean to be self-made? It's not just about having money, but financial

empowerment is where it begins. It means getting out of survival mode, where you are one problem away from catastrophe. It means changing your mindset from instant gratification to goal orientation. It means being able to sleep at night without worry. It means being rich in every way: rich in money, rich in family, rich in love, rich in time—abundant! For Nely Galán—entrepreneur, TV producer, and real estate mogul—helping women to become self-made is a movement and a mission. Galán pulls no punches. She is the straight-talking friend and mentor you’ve always wanted, and here she shares valuable, candid, no-nonsense lessons learned on her own path to becoming self-made (“There is no Prince Charming”; “Think like an immigrant”; “In your pain is your brand”; “Don’t buy shoes, buy buildings!”). You’ll read inspiring stories of women who started and grew businesses out of ingenuity, opportunity, and need. You’ll find exercises to help you identify your goals and your strengths. You’ll learn tips and tricks for saving money, making money, and finding “hidden money” that can help jump-start your self-made dreams. When you become self-made, the change in you inspires change in those around you, because one of the greatest rewards of a self-made life is seeing how the sparks from your personal revolution can light a fire in others. So come, join the Self-Made movement. The revolution starts inside of you! Praise for Self Made “A much-needed and wise book that teaches women not to fear money but to see it as a means of reaching our dreams. Nely shows us how to become money courageous instead of finance fearful. I want to give this book to so many women (and men) I know. Thank you, Nely.”—Sandra Cisneros “Nely Galán and I have traveled the country together helping women grow their businesses and live their dreams. I know firsthand that Nely is the ultimate self-made woman and your

best girlfriend. Her generosity of spirit jumps off the page as she shares the secrets of her hard-won success and her contagious confidence.”—Nell Merlino, creator of Take Our Daughters to Work Day and founder of Count Me In for Women’s Economic Independence “Self Made teaches women to unleash their spark and hustle. Nely inspires readers to use what they have to get what they want on their path to becoming self-made.”—Tory Johnson, “Deals & Steals” contributor on ABC’s Good Morning America and author of the #1 New York Times bestseller The Shift “You are not truly complete as a woman until you feel confident and empowered to make decisions about your money. Throughout my career, I have seen how a woman who takes ownership of her financial life is transformed and liberated, and how that in turn has a tremendous impact on her children. This is my belief and my personal experience, and it’s why Self Made resonates so strongly with me.”—Maria Elena Lagomasino, CEO of WE Family Offices and member of the board of directors of the Walt Disney Company, the Coca-Cola Company, and Avon Products, Inc. From the Hardcover edition.
