Spearhead In The West, 1941-1945 Sgt. Frank Woolner, 2016-08-09 The story of Spearhead in the West recounts the early history of the 3rd Armored Division, its training in various locations, both in the United States and in England, and its combat record from Normandy to the banks of the River Elbe, in Germany. The book is conveniently divided into three distinct sections: the combined history and battle lore of the entire division. The first section is given over to an introduction of “Spearhead” units and organization. The second section provides a popular narrative account, together with sketches and photographs of important scenes, persons

and events. The third and final section retells the accurate battle history of the division as compiled from the mass of official documents, journals and records. A narrative of hard training and bitter combat, of local reverses and the stunning victory that befits a great armored division, this book is a must-read for any history buff.

Out of Nihilty Wu ZiQi,2020-05-07 Since the birth of the Yinyang Continent, the two races of Yin and Yang had been born and bred. The Yang Race possessed the attribute of 'goodness', and possessed all sorts of superpowers to defend their 'goodness'. The attribute of the Yin Clan was 'evil '. Demons, demons, ghosts, and other creatures belonged to it. They wanted to enslave the Yang Clan and control the entire continent. A youth who had comprehended 'creating from nothing' from the 'Classic of Virtue' was not tolerated by the current Heavenly Dao and had his body destroyed. His soul, by chance and coincidence, was taken in by the Yinyang Continent and reborn into the body of an ordinary Yang Clan youth. None: The Yang race is good, forsaken by the Evil God; the Yin race is evil, born of the Good God. Tell me what is evil and what is good? Close]

Deadly Jobs A.R. Knight, 2023-01-09 Get in. Get out. Get paid.

That's the motto for this squad of hardened mercenaries, one they're about to test as they get sent on a secret mission to a backwater world teeming with unexpected enemies. From jungle swamps to deadly caves, secret bases to burning starships, Sever Squad takes the fight across the galaxy in this complete collection. Drop Zone - Book One When a strange rescue signal comes in, Sever Squad gets the call. They're tough, reckless, and one carries a giant hammer. Except this mission's different: the signal's calling for help, but the planet's deserted. Oh, and Sever's home ship can't wait for them. If they want to get off-world with their rescue, they'll have to find their own way to fly. For Aurora and the rest of Sever, though, the mission means serious cash. A chance to get out of the grind, find something that doesn't require getting lit up by lasers every other day. So the choice is obvious: load up, and move out. Helix Strike - Book Two Bashing their way into a fog-shrouded city, Aurora and her squad need to find the VIP and a way off-world before too many lasers burn through their armor. Getting the squad back together for the grand getaway proves tougher than expected, though, when Sever finds the secret behind it all. Hope's Debt - Book Three After leaving Dynas with secrets and suspicions, Sever Squad abandons their employer and makes for a secluded mining world to figure out what's next. An offer to help remove some stubborn locals serves as a paycheck, one that quickly turns sour when Sever realizes those same locals aren't exactly the deadly killers they're supposed to be. Trading conscience for cash is nothing new, but the stakes jump up when Sever's knowledge makes it to the wider galaxy and draws the wrong kind

of attention. What should have been a chance to reset turns into a desperate fight for survival for both Sever and the miners as overwhelming force floods the world and threatens the mercenaries with total annihilation. Home Front - Book Four After breaking open a sinister secret and deserting DefenseCorp, Sever Squad's been invited back, providing they give up the little girl they've sworn to protect. Going home isn't easy, but Sever needs new gear, medical attention, and a hot meal after their fight on Wexer. At first, the Nautilus brings back memories, from familiar faces to friendly concourses. It's almost enough to let Sever relax. Almost. Grim Tide - Book Five With a team member taken hostage and a child in danger, Sever Squad pursues a deadly agent across the galaxy. Having left their command ship in ruins, the traitorous agents Vana and Renard look for the final missing piece to create a devastating new weapon. That piece lies inside a young girl's cells, a child hidden away on a watery, high-tech world with no interest in a war. Sever Squad doesn't have a choice. Vana and Renard took their rookie, and Sever's going to do anything they can to get him back, even if it means sneaking heavy weapons onto a planet with no taste for them. The only question is whether Sever can save both their friend and the child before the agents take them both. Fury Storm - Book Six After licking their wounds, Sever Squad gets a tip telling them to pick up their rifles, their swords, and their ship: the last chance to stop a super soldier project has arrived. Aurora and the other Severs head out to make good on her promise to catch and, if necessary, kill the agent behind it all. That agent, though, has friends. Sever's old employers see promise in the super soldiers, a chance to take firm control over the galaxy. To get to the agent, Sever's going to have to get through their former friends. Aurora always believed in fighting for cash, but

nobody's paying Sever this time. This last mission? It's personal.

Places To Be, People To Kill Martin H. Greenberg, Brittiany A. Koren, 2007-06-05 Assassins--are they born or made? Do they choose this role out of necessity, because they are forced to, or because they enjoy killing? And what do they do in their spare time? These are just a few of the questions answered in this all-original collection of twelve tales by fantasy's finest-focusing on killers of all kinds. From Vree, Tanya Huff's well-known assassin from her Quarters novels, to a woman whose father's vengeful spirit forced her down dark magic's bloody path, to an assassin seeking to escape his Master's death spell, here are spellbinding stories of murder and mayhem, and the shadowy figures who sell death for a living.

Sector 12 and the Art of Dying Joseph Kainz, 2016-01-26 Rab's got a problem. Well, he's got several. It's not just that he's living outside human space and that humanity's defenses keep him there. It's not that he's a Ranger for the Frontier Corps, a more or less unsupported soldier with few resources and no backup. It's not even that Sector 12 is filled with a multitude of alien races that don't recognize his authority and so view him as a criminal or, worse, an enemy. No, Rab can deal with all this. He's dealt with it for a while. His real problems arrive when a group of Frontier Corps Marines gets blasted into Sector 12 during an unsuccessful attack. Rab is assigned the task of rescuing them, which is easier said than done given that someone almost immediately blows up his ship and tries to either kill or capture him for reasons unknown. That could be a problem.
