The Birth of the Dread Remora Aaron Rosenberg, 2021-07-09 The Tales of the Scattered Earth: Once, long ago, there was one Earth. It was said that many deities gazed down upon it protectively, and there was balance between them all. Then something went wrong. The balance shifted—toward darkness. Earth was shattered, her people destroyed, her remains scattered far and wide. But the gods survived the cataclysm. They scattered as well, each pursuing a fragment of their former domain. And, when they overtook those shards, the gods drew upon what power remained to them to restore their worshippers to life. These new followers rose from dust and imperfect memory, for the gods too had been injured. Each claimed a new home, and a new life, and each thought itself—at least at first—to be the only Earth. All memory of their former world was lost, except vague memories of the gods who gave them new life. Then, one day, a single great event drew all their eyes to the stars—and beyond. And each of them felt a yearning. Something in them desired to be whole again, or at least to understand. These are their stories. These are The Tales of the Scattered Earth. The Birth of the Dread Remora: Nathaniel Demming is a midshipman aboard the HMES Remora, the first ship to go beyond their world's waters and out into the ether. He and the rest of the crew are ready for adventure, eager to explore the unknown and chart a new

course for the rest of their world to follow. But what they found changed their lives, and their perspective, forever. The ether was not empty at all, but teeming with life--including vicious marauders waiting to prey upon the hapless Remora. Can Demming help his friends and fellow officers through the crises that await? Can they survive the dangers that surround them? And can he convince them to transform their ship and themselves into the antithesis of everything they trained for, while still holding true to everything they believe in? The Birth of the Dread Remora is the first tale of the epic Scattered Earth saga, and the first in a series of swashbuckling adventures about the space-pirate ship the Dread Remora!

A Field Guide to Atlantic Coast Fishes C. Richard Robins, G. Carleton Ray, 1986 The more than 1,000 species descriptions in this guide include information on range and habitat such as depths, bottom types, water temperatures, and salinity. The almost 1,100 illustrations use the Peterson Identification System for quick, accurate field identification.

The Honor of the Dread Remora Aaron Rosenberg, 2013-12 Aboard the former HMES Remora, now the pirate ship Dread Remora, Captain Nate Demming struggles to keep his crew focused on their mission. Tensions run high as they are forced to attack other ships to maintain their new identity, and a disgraced former officer's grumbling begins to border on mutinous-and to gain support. When the Dread Remora earns the attention of a peacekeeping force-ships performing the same job the HMES Remora might have under other circumstances-can Demming keep his ship safe from dangers without and within and find a way to salvage his honor and that of his crew? The Honor of the Dread Remora is part of the epic Scattered Earth saga, and the second novel in the exciting space-opera saga of The Dread Remora!

The Remora Shadow Drew Stone, 2020-10-03 A dead man floating in the bay. A client concealing the truth. An anti-submarine drone that could start an all-out war. Attorney Bryce Seagraves has an impossible case. A defense contractor accuses his new client of espionage. She denies stealing the plans for a top-secret drone. Her boss is murdered. The last person to speak with the victim was Seagraves, and now he is a suspect. Finding the killer would clear not only his client, but himself as well. Before the trial, Seagraves spars with federal investigators, aggressive lawyers, and covert agents. In court, he can never be sure if his client is innocent or guilty. Losing the case would devastate the woman he defends. Winning the case risks exposing a dark conspiracy. The Remora Shadow is a legal thriller that explores hidden clashes between espionage and the law.
