Rebecca's Reward (Daughters of Blessing Book #4) Lauraine Snelling,2008-10-01 Nineteen-year-old Rebecca Baard has experienced more than her share of sorrow, and now she is afraid to open her heart to love. Besides, no man has ever shown enough interest in her to come courting. So Rebecca's friends set out to remedy the situation, concocting social events to attract all the eligible bachelors in Blessing and advising her in the use of feminine wiles. When none of these efforts seem to work, Rebecca tries yet another tack, only to discover that even the best of intentions can't keep events from taking a surprising turn. Will Rebecca overcome her fears, or will she settle for something less than love?

Reward Systems Steve Kerr,Glenn Rifkin,2008-12-04 It's one of the thorniest management problems around: dealing with unmotivated, low-performing employees. It's easy to point the finger of blame at them. But in most companies, it's the reward system, not the workforce, that's causing poor attitudes and performance: many reward systems actually discourage desired behaviors while rewarding the very actions that drive executives crazy. In *Reward Systems: Does Yours Deliver?* Steve Kerr describes the steps you must take to create an effective reward system: - Clarify what you mean by performance -- in ways that help employees understand how they can support what you're trying to accomplish - Devise an effective performance-measurement system that distinguishes between metrics used for control and those used for employees' development - Design a reward system that motivates people to do what you want them to do while also meeting their needs To get the most from employees, you don't need to add headcount, upgrade your IT capabilities, or hire consultants. You do need to develop the right reward system. This book shows you how. From our new Memo to the CEO series -- solutions-focused advice from today's leading practitioners.

Neurobiology of Sensation and Reward Jay A. Gottfried,2011-03-28 Synthesizing coverage of sensation and reward into a comprehensive systems overview, *Neurobiology of Sensation and Reward* presents a cutting-edge and multidisciplinary approach to the interplay of sensory and reward processing in the brain. While over the past 70 years these areas have drifted apart, this book makes a case for reuniting sensation and reward by highlighting the important links and interface between the two. Emphasizing the role of reward in reinforcing behaviors, the book begins with an exploration of the history, ecology, and evolution of sensation and reward. Progressing through the five senses, contributors explore how the brain extracts information from sensory cues. The chapter authors examine how different animal species predict rewards, thereby integrating sensation and reward in learning, focusing on effects in anatomy, physiology, and behavior. Drawing on empirical research, contributors build on the themes of the book to present insights into the human sensory rewards of perfume, art, and music, setting the scene for further cross-disciplinary collaborations that bridge the neurobiological interface between sensation and reward.

Risk/Reward Anne Kreamer,2015-06-09 A persuasive and eye-opening look at the importance of embracing risk in our working lives—and how to use it to achieve lifelong career success Some of us relish the chance to fly without a net, others . . . not so much. But no matter how adventurous we might be in our personal lives, most of us are wary of allowing risk into our careers. With an economy in constant flux and a job market in which uncertainty is the only constant, stepping outside one's comfort zone can feel dangerous. But as the findings of this eye-opening and urgent book attest, the avoidance of risk might pose the greatest danger of all to our career prospects. In *Risk/Reward*, trend-spotter and career guru Anne Kreamer makes the compelling case that embracing risk is essential to managing a twenty-first-century career. Risk-taking isn't just for entrepreneurs, nor does it require working on a figurative tightrope. Rather, Kreamer says, conscious, consistent, and modest risk-taking can help us become more able to recognize opportunity when it appears, and more likely to seize the chance to make the right change at the right moment. *Risk/Reward* presents a framework for making the most of today's ever-evolving workplace and turning risk-taking into a daily practice. Using proprietary data from three national studies about the American worker, Kreamer explores the importance of career risk-taking through profiles of four Risk/Reward personality types: Pioneers, Thinkers, Defenders, and Drifters. She presents a Risk/Reward Matrix that anyone can use to identify his or her own innate risk threshold, and she identifies constructive ways to implement risk in everyday situations—from initiating an uncomfortable conversation with a boss to sharing out-of-the-box ideas with colleagues or constructively challenging long-held practices in an organization. Peppered throughout *Risk/Reward* are insights and hard-won wisdom from notable achievers such as bestselling author Anna Quindlen, journalist Jane Pauley, CNBC financial maven Jim Cramer, thought leader Po Bronson, and Facebook COO Sheryl Sandberg. Timely and insightful, *Risk/Reward* is a unique blend of practical and inspirational wisdom that even the most risk-averse person can harness on the path toward success and fulfillment. Praise for Anne Kreamer's *It's Always Personal: Navigating Emotion in the New Workplace* "A stimulating read bolstered by . . . some of the best recent work on emotional intelligence and the science of happiness."—The Wall Street Journal "So what should be the rules and boundaries for showing how you feel while you work? That's a question asked and answered in Anne Kreamer's fascinating . . . look at an issue that rarely gets discussed."—The Washington Post "Finally, someone is willing to unpack the morass of anger, anxiety, sadness, and joy that drives the workday. . . . [Kreamer] has hit the 'It's about time!' button."—Elle "[A] lively, well-researched exploration of emotions on the job."—Oprah.com "Explores how to be true to your 'emotional flashpoints—anger, fear, anxiety, empathy, happiness and crying'—without sabotaging your career."—The New York Times Book Review
