*Migration* James P. Hogan,2010-05-01 The world of the past eventually died in the conflagration toward which it had been doggedly heading. A more fragmented and diversified order has emerged from the ruins and . technology has reappeared to a greater or lesser degree in some places and not at all in others. Unique among them is the nation-state of Sofi, with an exceptional population that has rediscovered advanced science. However, as the old patterns that led to ruin before begin to reassert themselves across the rest of the world, a scientific-political movement within Sofi embarks on a years-long project to build a generation starship that will enable them to create their own world elsewhere. The circumstances and thinking of future generations growing up in the totally unknown situation of a space environment cannot be known. Accordingly, the mission will include different groups of idealists, reformers, misfits, and dissidents who are not satisfied with the world-in-miniature that constitutes the original mother ship, to go out and build whatever they want. Hence, what arrives at the distant star generations hence will be a flotilla of variously run city states, frontier towns, religious monasteries, pleasure resorts, urban crushes, rural spreads, academic retreats, and who-knows what else. The trouble began, of course, when all the old patterns that they thought they were getting away from started reappearing . . . At the publisher's request, this title is sold without DRM (Digital Rights Management).

**Wooden Gongs and Drumbeats** Chris Dahi,2003-11-30 The moon is high and round. Its silvery light washes over and illuminates all in the homestead. In the centre of the homestead is a small bonfire. Some women are roasting corn and pears. Not far from the bonfire, sat a group of children and adults. The attention of the group is focused on the old man with a cow tail flung casually over his left shoulder. The group is expectant. Their concentration is total. The night has gone suddenly very quiet. The old one clears his throat noisily. &quot;Chapkrii&quot; he

bellows with a gesticulation of his left hand.&quote;Waaaaarri&quote;; the listeners reply in chorus.&quote;Once upon a time&quote;; he begins, drawing out the words slowly.&quote;And time came upon time,&quote; the group replies. &quote;The tortoise and the he-goat used to be best friends,&quote; began the old man, a dry smile of superior wisdom on his lower lip. The above is one of the many traditional African storytelling scenes, which Wooden Gongs and Drumbeats seeks to recapture. Funny, witty, light-hearted and highly amusing, Dahi also brings together some of the idioms and proverbs commonly used in Africa. These are, as they say, the salt with which prudent speakers spice words and statements. Their measured and apt usages are also widely regarded as the hallmarks of sober oratory. A must-read to all interested in understanding the African worldview!

**Burning Grass** Cyprian Ekwensi,2023-10-01 In this groundbreaking novella, Cyprian Ekwensi narrates the spectacular adventures of a nomadic family whose lives are turned upside down when their great leader is cursed by his rival to the throne. When Chief Mai Sunsaye smells the smoke of burning grass, he knows it is time to go. Such is the nomadic life of the Fulani. Yet when Mai Sunsaye's rival, Ardo, curses him with wanderer's disease, it provokes in him a new-found sense of adventure, one which takes him further than he ever could have imagined... Full of love, magic, and fateful happenings, Burning Grass is an unforgettable tale that has captured the imagination of children and adults alike. 'A joy to read; his glorious imagination captured ours.' Chimamanda Ngozi Adichie 'One of the most prolific African writers of the twentieth century.' Charles R. Larson 'Magical occurrences, mysterious and seductive women, acts of phenomenal heroism, and swift-paced adventure.' Margaret Laurence
