*Risky Living* Tom Jones,2009-11-15 Risky Living is a fascinating collection of candid and intimate conversations with forty-five men and women who describe, in gripping detail, how physical risk is a familiar companion in their working lives, and how they deal with it. This is the first work of oral history to focus solely on people who work dangerous jobs. In the great tradition of books revealing the real lives of working men and women pioneered by Studs Terkel, Risky Living takes readers: Inside Antron Brown's car as he launches his top fuel drag racer from zero to over 300 miles per hour Alongside world champion bull rider Justin McBride as he attempts to stay atop a 1,600-pound beast Next to storm chasing videographer Jeff Gammons as he painfully remembers the screams of Hurricane Katrina drowning victims Right behind Cameron Begbie as he recalls fighting hand-to-hand against insurgents in Iraq Inside the huddle with two-time Pro Bowl NFL player Kassim Osgood In the back of the jeep with National Geographic wildlife photographer Andy Casagrande Down the shaft with coal miner Jeff Shiner Into the swamp with alligator trapper Tredale Boudreaux 100 stories up with high-rise window washer Walter Diaz Risky Living reveals who these daring people are, what they endure for a paycheck, and how they feel about their jobs. They speak for themselves, in their words, and what they have to say reveals much about who they are, what they do, and why they do it.

*Risky Business* Al Alvarez,2012-07-05 Al Alvarez's writing career has come in many guises. One of the most influential post-war critics, he has written profoundly and eloquently about writers and their craft for over fifty years. But Alvarez has also been a passionate amateur of risky pursuits - poker playing, mountaineering, flying in aeroplanes - and he written about these subjects with a rare depth, liveliness and perception. This is a collection of his finest essays. Ranging from trenchant literary criticism to accounts of polar expeditions and poker championships, Risky Business is a sparkling and eclectic anthology from our most unusual man of letters.

**Echoes Of Yesterday** Mary Jane Staples,2011-10-31 It was June 1916 when Sergeant Boots Adams of the Royal West Kents, together with his men, was billeted on the Descartes farm in Northern France. It was a short break from the turmoil and horror of the trenches, and Boots and his men, in return for their free billeting, were to help the farmer in his fields. It came as something of a surprise to discover that the land was being managed by a young French war widow, Cecile Lacoste and, to the distant sound of guns, a brief wartime friendship flared between Boots and Cecile. The friendship was cut brutally short when, once more, the West Kents were called back to the trenches and Boots suffered an injury that was to take him home to London, to Sammy and Chinese Lady, and all the valiant cockney friends of Walworth who were to help him through the darkest period of his life. It was to be many years before Boots' friend, Miss Polly Simms, visiting the old battle haunts of France, stumbled once more upon the Descartes farm, and the memories of the past were rekindled.

*Risky Gospel* Owen Strachan, 2013-12-03 How do you access a real, thriving, vibrant faith? You trust a big God, and you start living like he's real. It's time to put our comfort and ease and false security on the line. If we know God is real, let's pray as if he's actually listening. If we know he's good, let's reflect that goodness in the world. When our problems feel big, let's lean on the One who is bigger. Is that risky? "Sure," says Owen Strachan. "Embrace it anyway. It's literally the only way to live."

*Risky Strategy* Jamie MacAlister, 2016-08-25 What is risk? Is it a real danger or just an opportunity in disguise? Can it be out-manoeuvred or is it something to be embraced and worked with? When companies are developing their business strategies, risk may be mentioned in passing (and even then, frequently misunderstood) but is rarely seen as a key component of the strategic decision-making process. This can lead to unforeseen complications – strategy is all about making decisions that concern an uncertain future and so risk should play a significant role in that process. The handling or understanding of risk is often delegated to specialists and much of what is written about risk is, due to its complexity, inaccessible to the majority of senior managers. *Risky Strategy* aims to make the consideration of risk more accessible and understandable and, in doing so, develop a common language and understanding for recognising and handling it. Based on research carried out by Ashridge Business School, as well as case studies of the strategic decision-making process in action, Jamie MacAlister takes the subject out of the textbooks and brings it engagingly to life. Drawing on lessons from Apple to Procter & Gamble, from Napoleon to Nelson, from Roger Federer to Sir Alex Ferguson, and from Pythagorus to Sir Isaac Newton, *Risky Strategy* provides a new and dynamic perspective on risk, demonstrating how and when to take the right risk, and knowing how to recognise the common risks that can derail even the most well-planned projects.

**Identity, Agency and Fieldwork Methodologies in Risky Environments** Monique Marks, Julten Abdelhalim, 2020-06-29

Bringing together a unique set of narratives from social scientists who have been situated in risky environments, this volume discusses the moral and ethical dilemmas of doing fieldwork in environments that are characterised by insecurity. These narratives are situated in the Global South, and the majority of the authors are themselves from the Global South, bringing both authenticity and originality to the scholarship in this book. Coming from the Global South can both facilitate and complicate navigating the complexity of doing research in places characterised by precariousness. The authors demonstrate how the 'morality of the moment' and indigenous sensibility is often more pertinent than formal ethical considerations as stipulated by universities and other institutions. The authors are refreshingly honest about their own identity dilemmas, their choices to exit the field prematurely, and the raw emotions that emerged in the process of doing fieldwork in these settings. This book is likely to be instructive to young researchers entering into fields that are risky, often with little instruction or supervision prior to doing so. It is also an excellent resource for more seasoned researchers who might have had comparable experiences and are keen to reflect on such research journeys. It will be an invaluable resource for teaching qualitative research across a wide spectrum of disciplines. This book was originally published as a special issue of *Contemporary Social Science*.

Applying HACCP-based Quality Risk Management on dairy farms J.P.T.M. Noordhuizen, J. Cannas da Silva, J.S.C. Boersema, A.

Vieira, 2023-08-28 Quality is a keyword in animal production. Next to product quality, process quality has also become relevant for

dairy farmers. Issues like food safety, public health, animal health and welfare are determined by the conditions of the production process. To address these, the EU has issued the General Food Law (178-2002) and the Hygiene directives (EC 853/854/855-2004) dealing with the forenamed domains with the aim to protect consumers. The suggestion was also made by the EU that farmers apply a HACCP-like plan to meet these new quality demands. Key issues are structure, organisation, planning, formalisation and demonstrability, which can also be found in the HACCP concept. This book addresses Quality Risk Management through applying the HACCP-like concept. First, the assessment of strong and weak points on a dairy farm are dealt with, which is useful for farm inspection and herd health programmes. Then, the 12-steps for developing a HACCP plan are followed through the various chapters. Many examples and elaborations are given. An example farm, FX, is introduced to show how the different elements may look in reality. At the end of the book characteristics of entrepreneur-like dairy farmers are given and compared to strong and weak points of cattle practitioners. Practitioners may conclude how to better serve this type of farmer. Communication plays a paramount role. Finally, several general issues are addressed: economics, integrating classical herd health with quality risk management programmes. The aim of this book is to give practical guidelines and examples for dairy farmers, cattle practitioners and extension people, who desire to jointly develop and implement a HACCP-based quality risk management programme. 'This book is well written with many practical flow charts and Good Practice advice. I would recommend it to any veterinarian involved in producing risk management programs or Standard Operating Procedure type documents for dairy farms. The chapters on good communication and marketing would be useful for most veterinarians.' David S. Beggs, book review editor 'The Australian Cattle Veterinarian' Volume 50, p. 34-35, March '09

*Risk-Based Policing* Leslie W. Kennedy, Joel M. Caplan, Eric L. Piza, 2018-10-30 Risk-based policing is the latest advancement in the long history of policing innovations, where research and planning have combined to manage crime risks, prevent crime, and enhance public safety. In Risk-Based Policing the authors share case studies from different agencies to demonstrate how focusing police resources at risky places, based on smart uses of data and strong analytical work, can address the worst effects of disorder and crime while improving public safety and community relations. Topics include the role of big data; the evolution of modern policing; dealing with high-risk targets; designing, implementing, and evaluating risk-based policing strategies; and the role of multiple stakeholders in risk-based policing. Case studies explore cities such as Colorado Springs, Glendale, Newark, Kansas City, and others. The book also

demonstrates how Risk Terrain Modeling (RTM) can be extended to offer a more comprehensive view of prevention and deterrence-- Provided by publisher.
